

§ 96.80

each state should, if possible, count only a single recipient for each service. States should also consider a service provided to a recipient for the length of the reporting period (one year) or any fraction thereof as a single service. Data based on sampling and/or estimates will be accepted when actual figures are unavailable. Each state must indicate for each service whether the data are based on actual figures, sampling, or estimates and must describe the sampling and/or estimation process(es) it used to obtain these data in the annual report. Each state must also indicate, in reporting recipient data, whether the data reflects an unduplicated count of recipients.

(4) Each state must use category 30, "Other Expenditures," to report non-service expenditures. Only total dollar amounts in this category are required, i.e., they need not be reported by recipient count or cost per adult/child. This will include carry over balances, carry forward balances, funds transferred to or from the SSBG program, and administrative costs as defined by the state.

(5) Each state must use its own definition of the terms "child" and "adult" in reporting the data required in paragraphs (a) (1) through (5) of this section.

(6) Each state's definition of "child" and "adult" must be reported as a part of the eligibility criteria for each service required in paragraph (a)(5) of this section. The data on eligibility criteria may be submitted in whatever format the state chooses as a part of its annual report.

(c) *Transfer of computer data.* In addition to making the annual report available to the public and to the Department, a state may submit the information specified in paragraphs (a) (1) through (4) of this section using electronic equipment. A full description of procedures for electronic transmission of data, and of the availability of computer diskettes, is included in Appendix B to this part.
