

to the vessel depends on the vessel's tonnage. Upon request of the owner, this system also applies to a documented vessel measured under the Convention Measurement System when Standard Measurement System tonnages are to be used in applying the provisions of a law under 46 U.S.C. 14305.

(c) *Dual Measurement System (subpart D)*. This system may be applied, at the owner's option, instead of the Standard Measurement System, to a vessel eligible or required to be measured under the Standard Measurement System.

(d) *Simplified Measurement System (subpart E)*. This system may be applied, at the owner's option, instead of the Standard Measurement System to the following vessels:

(1) A vessel that is under 79 feet in overall length.

(2) A vessel of any length that is non-self-propelled and not engaged on a foreign voyage.

(3) A vessel of any length that is operated only for pleasure and operated only on the Great Lakes.

§ 69.13 Deviating from the provisions of a measurement system.

(a) In measuring a vessel under a measurement system in this part, all provisions of that system applicable to the vessel must be observed.

(b) The provisions of more than one measurement system may not be applied interchangeably or combined.

§ 69.15 Authorized measurement organizations.

(a) Except as under paragraphs (c) and (d) of this section, all U.S. vessels to be measured or remeasured under the Convention, Standard, or Dual Measurement Systems must be measured by an authorized measurement organization meeting the requirements of § 69.27. A current listing of authorized measurement organizations can be obtained from Commanding Officer, U.S. Coast Guard Marine Safety Center (MSC-3), 400 7th Street S.W., Washington, DC 20590-0001.

(b) All vessels to be measured or remeasured under the Simplified Meas-

urement System must be measured by the Coast Guard. Applications for measurement under the Simplified Measurement System are obtainable from the National Vessel Documentation Center.

(c) All U.S. Coast Guard vessels and all U.S. Navy vessels of war to be measured or remeasured under any measurement system must be measured by the Coast Guard.

(d) At the option of the Commandant, the Coast Guard may measure any vessel to determine its tonnage.

(e) The appropriate certificate of measurement is issued by the measuring organization as evidence of the vessel's measurement under this part.

§ 69.17 Application for measurement services.

(a) Applications for measurement are available from and, once completed, are submitted to the authorized measurement organization that will perform the services. The contents of the application are described in this part under the requirement for each system.

(b) Applications for measurement under more than one system may be combined.

(c) For vessels under construction, the application must be submitted before the vessel is advanced in construction. Usually, this means as soon as the decks are laid, holds cleared of encumbrances, engine and boilers installed, and accommodations partitioned.

§ 69.19 Remeasurement and adjustment of tonnage.

(a) If a vessel that is already measured is to undergo a structural alteration or if the use of a space within that vessel is to be changed, a remeasurement may be required. Vessel owners shall report immediately to an authorized measurement organization any intent to structurally alter the vessel or to change the use of a space
