239.7406 Cost or pricing data and information other than cost or pricing data.

(a) Common carriers are not required to submit cost or pricing data before award of contracts for tariffed services. Rates or preliminary estimates quoted by a common carrier for tariffed telecommunications services are considered to be prices set by regulation within the provisions of 10 U.S.C. 2306a. This is true even if the tariff is set after execution of the contract.

(b) Rates or preliminary estimates quoted by a common carrier for nontariffed telecommunications services or by a noncommon carrier for any telecommunications service are not considered prices set by law or regulation.

(c) Contracting officers shall obtain sufficient information to determine that the prices are reasonable in accordance with FAR 15.403-3 or 15.403-4. See PGI 239.7406 for examples of instances where additional information may be necessary to determine price reasonableness.

239.7407 Type of contract.

When acquiring telecommunications services, the contracting officer may use a basic agreement (see FAR 16.702) in conjunction with communication service authorizations. When using this method, follow the procedures at PGI 239.7407.

239.7408 Special construction.

239.7408-1 General.

(a) Special construction normally involves a common carrier giving a special service or facility related to the performance of the basic telecommunications service requirements.

48 CFR Ch. 2 (10-1-06 Edition)

This may include—

- (1) Moving or relocating equipment;
- (2) Providing temporary facilities;
- (3) Expediting provision of facilities;

or

(4) Providing specially constructed channel facilities to meet Government requirements.

(b) Use this subpart instead of FAR part 36 for acquisition of "special construction."

(c) Special construction costs may be—

(1) A contingent liability for using telecommunications services for a shorter time than the minimum to reimburse the contractor for unamortized nonrecoverable costs. These costs are usually expressed in terms of a termination liability, as provided in the contract or by tariff;

(2) A onetime special construction charge;

(3) Recurring charges for constructed facilities;

(4) A minimum service charge;

(5) An expediting charge; or

(6) A move or relocation charge.

(d) When a common carrier submits a proposal or quotation which has special construction requirements, the contracting officer shall require a detailed special construction proposal. Analyze all special construction proposals to—

(1) Determine the adequacy of the proposed construction;

(2) Disclose excessive or duplicative construction; and

(3) When different forms of charge are possible, provide for the form of charge most advantageous to the Government.

(e) When possible, analyze and approve special construction charges before receiving the service. Impose a ceiling on the special construction costs before authorizing the contractor to proceed, if prior approval is not possible. The contracting officer must approve special construction charges before final payment.

239.7408-2 Applicability of construction labor standards for special construction.

(a) The construction labor standards in FAR Subpart 22.4 ordinarily do not apply to special construction. However,

if the special construction includes construction, alteration, or repair (as defined in FAR 22.401) of a public building or public work, the construction labor standards may apply. Determine applicability under FAR 22.402.

(b) Each CSA or other type contract which is subject to construction labor standards under FAR 22.402 shall cite that fact.

239.7409 Special assembly.

(a) Special assembly is the designing, manufacturing, arranging, assembling, or wiring of equipment to provide telecommunications services that cannot be provided with general use equipment.

(b) Special assembly rates and charges shall be based on estimated costs. The contracting officer should negotiate special assembly rates and charges before starting service. When it is not possible to negotiate in advance, use provisional rates and charges subject to adjustment, until final rates and charges are negotiated. The CSAs authorizing the special assembly shall be modified to reflect negotiated final rates and charges.

239.7410 Cancellation and termination.

(a)(1) Cancellation is stopping a requirement after placing of an order but before service starts.

(2) Termination is stopping a requirement after placing an order and after service starts.

(b) Determine cancellation or termination charges under the provisions of the applicable tariff or agreement/contract.

239.7411 Contract clauses.

(a) In addition to other appropriate FAR and DFARS clauses, use the following clauses in solicitations, contracts, and basic agreements for telecommunications services. Modify the clauses only if necessary to meet the requirements of a governmental regulatory agency—
