Subpart 923.7—Contracting for Environmentally Preferable and Energy-efficient Products and Services

923.703 Policy.

Executive Order 13149, dated April 21, 2000, entitled *Greening the Government Through Federal Fleet and Transportation Efficiency*, provides that the Federal Government exercise leadership in the reduction of petroleum consumption through improvements in its motor fleet fuel efficiency and increases in its use of alternative fuel vehicles and alternative fuels. The specific provisions affecting the Department's acquisition program are as follows. Part 2 of the Executive Order establishes goals for the reduction of petroleum consumption in the motor vehicle fleet and requires the development of strategies for the increased use of alternative fuel vehicles, increased use of alternative fuels accompanied by improved alternative fuel infrastructure, and the acquisition of higher fuel economy vehicles. Procurement personnel involved in the acquisition of motor vehicles, including lease, and motor vehicle products should familiarize themselves with these requirements and assist their fleet management personnel in acquiring vehicles and products which comply with the requirements of the Executive Order and the Department's compliance strategy. In addition, section 403 of the Executive Order provides for the acquisition of environmentally preferable motor vehicle products, including the use of biobased motor vehicle products. Environmentally preferable motor vehicle products include re-refined motor vehicle lubricating oils, retread tires, recycled engine coolants, and bio-based

motor vehicle products. Use of these products is addressed by the Department's Affirmative Procurement Program required by 48 CFR (FAR) 23.404, Agency affirmative procurement programs, as implemented by 48 CFR (DEAR) 923.405, Procedures [DOE supplemental coverage—paragraph (e)]. Environmentally preferable motor vehicle products are among the items designated in the Comprehensive Procurement Guidelines, which lists products with recovered content that Federal agencies and their contractors are to buy. That list is published by the Environmental Protection Agency pursuant to the Resource Conservation and Recovery Act of 1976, 42 U.S.C. 6962, and regulations published at 40 CFR part 247.
