

§ 635.24

least 6,000 lb (2,727 kg) of species other than BFT are legally caught, retained, and offloaded from the same trip and are recorded on the dealer weighout slip as sold. Three large medium or giant BFT per vessel per trip may be landed, provided that at least 30,000 lb (13,620 kg) of species other than BFT are legally caught, retained, and offloaded from the same trip and are recorded on the dealer weighout slip as sold.

(2) NMFS may increase or decrease the Longline category retention limit of large medium and giant BFT over a range from zero to a maximum of three per trip, or, for a given BFT retention limit, increase or decrease the target catch requirement by 25 percent from the level specified in paragraph (f)(1) of this section. Such increase or decrease in the BFT retention limit or target catch requirement will be based on a review of dealer reports, observer reports, vessel logbooks, landing trends, availability of the species on the fishing grounds, and any other relevant factors, and will consider the likelihood of increasing dead discards of BFT and/or exceeding the incidental landings quota established for the pelagic longline fishery. Such adjustments may be made separately for vessels fishing North or South of 31°00' N. lat. NMFS will adjust the retention limits and target catch requirements specified in paragraph (f)(1) of this section by filing the adjustment with the Office of the Federal Register for publication. In no case shall such adjustment be effective less than 21 calendar days after the adjustment is filed with the Office of the Federal Register for publication.

(3) For pelagic longline vessels fishing in the Northeast Distant closed area, as defined under § 635.2, under the exemption specified at § 635.21(c)(2)(v), all BFT taken incidental to fishing for other species while in the Northeast Distant closed area may be retained up to a maximum of 25 mt for all vessels so authorized, notwithstanding the retention limits and target catch requirements specified in paragraph (f)(1) of this section.

(g) *Trap category.* Persons aboard a vessel permitted in the Atlantic Tunas Trap category may retain, possess,

50 CFR Ch. VI (10–1–06 Edition)

land, and sell each fishing year only one large medium or giant BFT that is taken incidentally while fishing for other species with a pound net or fish weir. No other Atlantic tunas caught in a pound net or fish weir may be retained.

§ 635.24 Commercial retention limits for sharks and swordfish.

The retention limits in this section are subject to the quotas and closure provisions in §§ 635.27 and 635.28.

(a) *Sharks.* (1) Persons who own or operate a vessel that has been issued a directed ILAP or LAP for shark may retain, possess or land no more than 4,000 lb (1,814 kg), dw, of LCS per trip.

(2) Persons who own or operate a vessel that has been issued an incidental catch ILAP or LAP for sharks may retain, possess or land no more than 5 LCS and 16 SCS and pelagic sharks, combined, per trip.

(b) *Swordfish.* (1) Persons aboard a vessel that has been issued an incidental ILAP or LAP for swordfish may retain, possess, or land no more than two swordfish per trip in or from the Atlantic Ocean north of 5° N. lat.

(2) Persons aboard a vessel in the squid trawl fishery that has been issued an incidental ILAP or LAP for swordfish may retain, possess, or land no more than five swordfish per trip in or from the Atlantic Ocean north of 5° N. lat. A vessel is considered to be in the squid trawl fishery when it has no commercial fishing gear other than trawls on board and when squid constitute not less than 75 percent by weight of the total fish on board or offloaded from the vessel.

§ 635.25 Fishing areas.

(a) *General.* Persons on board fishing vessels subject to the jurisdiction of the United States are authorized to fish for, catch, retain, or land species governed by an international catch sharing agreement implemented under this part only in or from those management areas for which the United States has received an allocation.
