

## Fishery Conservation and Management

## § 635.27

(b) *Exemptions.* Persons and vessels subject to the jurisdiction of the United States intending to fish for regulated species in fishing areas not otherwise authorized under this part, whether for the purposes of scientific research or commercial fishing under a chartering arrangement, must have a permit from NMFS issued under § 635.32.

(c) *Atlantic bluefin tuna.* No person aboard a U.S. fishing vessel shall fish for bluefin tuna in, or possess on board that fishing vessel a bluefin tuna taken from, the Mediterranean Sea.

[67 FR 70026, Nov. 20, 2002]

### § 635.26 Catch and release.

(a) *BFT.* (1) Notwithstanding the other provisions of this part, a person aboard a vessel issued a permit under this part, other than a person aboard a vessel permitted in the General category on a designated RFD, may fish with rod and reel or handline gear for BFT under a catch-and-release or tag-and-release program. When fishing under a tag-and-release program, vessel owner/operators should use tags issued or approved by NMFS. If a BFT is tagged, the tag information, including information on any previously applied tag remaining on the fish, must be reported to NMFS. All BFT caught under the catch-and-release or tag-and-release programs must be returned to the sea immediately with a minimum of injury.

(2) Persons may obtain NMFS-issued conventional tags, reporting cards, and detailed instructions for their use from the NMFS Cooperative Tagging Center. Persons may use a conventional tag obtained from a source other than NMFS to tag BFT, provided the use of such tags is registered each year with the Cooperative Tagging Center and the NMFS program manager has approved the use of a conventional tag from that source. An angler using an alternative source of tags wishing to tag BFT may contact the NMFS Cooperative Tagging Center at the Southeast Fishery Science Center.

(3) An angler registering for the HMS tagging program is required to provide his or her name, address, phone number and, if applicable, the identity of the alternate source of tags.

(b) *Billfish.* NMFS is encouraging further catch and release of Atlantic billfish by establishing a recreational catch-and-release fishery management program, consistent with the guidance of § 600.350(c).

(c) *Sharks.* Notwithstanding the other provisions of this part, a person may fish for white sharks (*Carcharodon carcharias*) with rod and reel, provided the person releases such fish to the sea immediately with a minimum of injury, and that such fish may not be removed from the water.

[64 FR 29135, May 28, 1999, as amended at 65 FR 42887, July 12, 2000; 70 FR 10900, Mar. 7, 2005]

### § 635.27 Quotas.

(a) *BFT.* Consistent with ICCAT recommendations, NMFS will subtract any allowance for dead discards from the fishing year's total U.S. quota for BFT that can be caught and allocate the remainder to be retained, possessed, or landed by persons and vessels subject to U.S. jurisdiction. The total landing quota will be divided among the General, Angling, Harpoon, Purse Seine, Longline, and Trap categories. Consistent with these allocations and other applicable restrictions of this part, BFT may be taken by persons aboard vessels issued Atlantic Tunas permits, HMS Angling permits, or HMS Charter/Headboat permits. Allocations of the BFT landings quota will be made according to the following percentages: General—47.1 percent; Angling—19.7 percent, which includes the school BFT held in reserve as described under paragraph (a)(7)(ii) of this section; Harpoon—3.9 percent; Purse Seine—18.6 percent; Longline—8.1 percent; and Trap—0.1 percent. The remaining 2.5 percent of the BFT landings quota will be held in reserve for inseason adjustments, to compensate for overharvest in any category other than the Angling category school BFT subquota or for fishery independent research. NMFS may apportion a landings quota allocated to any category to specified fishing periods or to geographic areas. BFT landings quotas are specified in whole weight.

(1) *General category landings quota.* Prior to each fishing year, NMFS will set the General category effort control
