

§ 635.33

50 CFR Ch. VI (10–1–06 Edition)

under applicable Atlantic Highly Migratory Species quotas or entitlements of the United States until the chartering permit expires or is terminated.

(3) Charter permit holders must submit logbooks and comply with reporting requirements as specified in § 635.5. NMFS will provide specific conditions and requirements in the chartering permit, so as to ensure consistency, to the extent possible, with laws of foreign countries, the Fishery Management Plan for Atlantic Tunas, Swordfish, and Sharks, as well as ICCAT recommendations.

(4) Observers may be placed on board vessels issued chartering permits as specified under § 635.7.

(5) NMFS will issue a chartering permit only if it determines that the chartering arrangement is in conformance with ICCAT's conservation and management programs.

(6) A vessel shall be authorized to fish under only one chartering arrangement at a time.

(7) All chartering permits are subject to sanctions and denials as indicated under § 635.4(a)(6).

(f) *Applications and renewals.* Application procedures shall be as indicated under § 600.745(b)(2) of this chapter, except that NMFS may consolidate requests for the purpose of obtaining public comment. In such cases, NMFS may file with the Office of the Federal Register, on an annual or more frequent basis as necessary, notification of previously authorized exempted fishing, scientific research, public display, or chartering activities and to solicit public comment on anticipated EFP, SRP, LOA, public display, or chartering permit requests. Applications for EFP, SRP, public display, or chartering permit renewals are required to include all reports specified in the applicant's previous permit including the year-end report, all delinquent reports for permits issued in prior years, and all other specified information. In situations of delinquent reports, renewal applications will be deemed incomplete and a permit will not be issued under this section.

(g) *Terms and conditions.* (1) For EFPs, SRPs, and public display permits: Written reports on fishing activities and disposition released under a

permit issued under this section, must be submitted to NMFS, within 5 days of return to port. NMFS will provide specific conditions and requirements as needed, consistent with the Fishery Management Plan for Atlantic Tunas, Swordfish and Sharks, in the permit. If an individual issued a Federal permit under this section captures no HMS in any given month, either in or outside the EEZ, a "no-catch" report must be submitted to NMFS within 5 days of the last day of that month.

(2) For chartering permits, written reports of fishing activities must be submitted to NMFS by a date specified, and to an address designated, in the terms and conditions of each chartering permit.

(3) An annual written summary report of all fishing activities and disposition of all fish captured under the permit must be submitted to NMFS for all the permits (EFP, SRP, Display, and Chartering Permits) listed in this section within 30 days after the expiration date of the permit.

[64 FR 29135, May 28, 1999, as amended at 68 FR 63742, Nov. 10, 2003; 68 FR 74786, Dec. 24, 2003; 69 FR 70399, Dec. 6, 2004]

§ 635.33 Archival tags.

(a) *Implantation report.* Any person affixing or implanting an archival tag into a regulated species must obtain written authorization from NMFS pursuant to § 635.32. Persons so authorized to conduct archival tag implantation must provide a written report to NMFS at an address designated by NMFS, indicating the type and number of tags, the species and approximate size of the fish as well as any additional information requested in the authorization.

(b) *Landing.* Notwithstanding other provisions of this part, persons may catch, possess, retain, and land an Atlantic HMS in which an archival tag has been implanted or affixed, provided such persons comply with the requirements of paragraph (c) of this section.

(c) *Landing report.* Persons that retain an Atlantic HMS that has an archival tag must contact NMFS, prior to or at the time of landing; furnish all requested information regarding the location and method of capture; and, as instructed, remove the archival tag and return it to NMFS or make the

Fishery Conservation and Management

§ 635.40

fish available for inspection and recovery of the tag by a NMFS scientist, enforcement agent, or other person designated in writing by NMFS.

(d) *Quota monitoring.* If an Atlantic HMS landed under the authority of paragraph (b) of this section is subject to a quota, the fish will be counted against the applicable quota for the species consistent with the fishing gear and activity which resulted in the catch. In the event such fishing gear or activity is otherwise prohibited under applicable provisions of this part, the fish shall be counted against the reserve quota established for that species.

§ 635.34 Adjustment of management measures.

(a) NMFS may adjust the catch limits for BFT, as specified in § 635.23, and the quotas for BFT, shark, and swordfish, as specified in § 635.27.

(b) In accordance with the framework procedures in the Fishery Management Plan for Atlantic Tunas, Swordfish, and Sharks and the Fishery Management Plan for Atlantic Billfishes, NMFS may establish or modify for species or species groups of Atlantic HMS the following management measures: maximum sustainable yield or optimum yield levels based on the latest stock assessment or updates in the SAFE report; domestic quotas; recreational and commercial retention limits, including target catch requirements; size limits; fishing years or fishing seasons; shark fishing regions or regional quotas; species in the management unit and the specification of the species groups to which they belong; species in the prohibited shark species group; classification system within shark species groups; permitting and reporting requirements; Atlantic tunas Purse Seine category cap on bluefin tuna quota; time/area restrictions; allocations among user groups; gear prohibitions, modifications, or use restrictions; effort restrictions; essential fish habitat; and actions to implement ICCAT recommendations, as appropriate.

(c) NMFS may add species to the prohibited shark species group specified in Table 1 of appendix A if, after considering the criteria in paragraphs (c)(1)

through (4) of this section, the species is determined to meet at least two of the criteria. Alternatively, NMFS may remove species from the prohibited shark species group and place them in the appropriate shark species group in Table 1 of appendix A if, after considering the criteria in paragraphs (c)(1) through (4) of this section, NMFS determines the species only meets one criterion.

(1) Biological information indicates that the stock warrants protection.

(2) Information indicates that the species is rarely encountered or observed caught in HMS fisheries.

(3) Information indicates that the species is not commonly encountered or observed caught as bycatch in fishing operations for species other than HMS.

(4) The species is difficult to distinguish from other prohibited species.

[64 FR 29135, May 28, 1999, as amended at 68 FR 74788, Dec. 24, 2003]

Subpart D—Restrictions on Imports

§ 635.40 Restrictions to enhance conservation.

(a) *Determinations.* Upon a determination by NMFS that species of fish subject to regulation or under investigation by ICCAT are ineligible for entry into the United States under 16 U.S.C. 971d (c)(4) or (c)(5), NMFS, with the concurrence of the Secretary of State, will file with the Office of the Federal Register for publication a finding to that effect. Effective upon the date of filing of such finding, all shipments of fish in any form of the species found to be ineligible will be denied entry unless, with respect to a particular shipment, it is established by satisfactory proof pursuant to paragraph (b) of this section that the particular shipment of fish is eligible for entry. Entry will not be denied and no such proof will be required for any such shipment that, on the date of filing was in transit to the United States on board a vessel operating as a common carrier.

(b) *Proof of admissibility.* (1) For the purposes of paragraph (a) of this section and section 6(c) of ATCA, a shipment of fish in any form of the species
