

§ 648.146 Special management zones.

The recipient of a Corps of Engineers permit for an artificial reef, fish attraction device, or other modification of habitat for purposes of fishing may request that an area surrounding and including the site be designated by the Council as a special management zone (SMZ). The SMZ will prohibit or restrain the use of specific types of fishing gear that are not compatible with the intent of the artificial reef or fish attraction device or other habitat modification. The establishment of an SMZ will be effected by a regulatory amendment pursuant to the following procedure:

(a) A SMZ monitoring team comprised of members of staff from the Mid-Atlantic FMC, NMFS Northeast Region, and NMFS Northeast Fisheries Science Center will evaluate the request in the form of a written report considering the following criteria:

- (1) Fairness and equity.
- (2) Promotion of conservation.
- (3) Avoidance of excessive shares.
- (4) Consistency with the objectives of Amendment 9 to the Fishery Management Plan for the Summer Flounder, Scup and Black Sea Bass fisheries, the Magnuson-Stevens Act, and other applicable law.

(5) The natural bottom in and surrounding potential SMZs.

(6) Impacts on historical uses.

(b) The Council Chairman may schedule meetings of Industry Advisors and/or the Scientific and Statistical Committee to review the report and associated documents and to advise the Council. The Council Chairman may also schedule public hearings.

(c) The Council, following review of the SMZ monitoring teams's report, supporting data, public comments, and other relevant information, may recommend to the Regional Administrator that a SMZ be approved. Such a recommendation will be accompanied by all relevant background information.

(d) The Regional Administrator will review the Council's recommendation. If the Regional Administrator concurs in the recommendation, he or she will publish a proposed rule in the FEDERAL REGISTER in accordance with the recommendations. If the Regional Administrator rejects the Council's rec-

ommendation, he or she shall advise the Council in writing of the basis for the rejection.

(e) The proposed rule shall afford a reasonable period for public comment. Following a review of public comments and any information or data not previously available, the Regional Administrator will publish a final rule if he or she determines that the establishment of the SMZ is supported by the substantial weight of evidence in the administrative record and consistent with the Magnuson-Stevens Act and other applicable law.

Subpart J—Management Measures for the Atlantic Bluefish Fishery

SOURCE: 65 FR 45852, July 26, 2000, unless otherwise noted.

§ 648.160 Catch quotas and other restrictions.

The fishing year is from January 1 through December 31.

(a) *Annual review.* On or before August 15 of each year, the Bluefish Monitoring Committee will meet to determine the total allowable level of landings (TAL) and other restrictions necessary to achieve the target fishing mortality rate (F) specified in the Fishery Management Plan for Atlantic Bluefish for the upcoming fishing year or the estimated F for the fishing year preceding the Council submission of the recommended specifications, whichever F is lower. In determining the TAL and other restrictions necessary to achieve the specified F, the
