

Fishery Conservation and Management

§ 648.95

SFMA and shall be subject to the more restrictive requirements of that area. A vessel that has declared into the NFMA may transit the SFMA, providing that it complies with the transiting and gear storage provision described in paragraph (e) of this section, and provided that it does not fish for or catch monkfish, or any other fish, in the SFMA.

(g) *Other landing restrictions.* Vessels are subject to any other applicable landing restrictions of this part.

[64 FR 54749, Oct. 7, 1999, as amended at 65 FR 11480, Mar. 3, 2000; 65 FR 37917, June 19, 2000; 68 FR 22330, Apr. 28, 2003; 69 FR 18293, Apr. 7, 2004; 69 FR 22988, Apr. 27, 2004; 70 FR 21944, 22244, Apr. 28, 2005; 71 FR 23874, Apr. 25, 2006]

EFFECTIVE DATE NOTE: At 71 FR 19389, Apr. 13, 2006, §648.94 was amended by suspending paragraphs (b)(3) and (c)(3)(I), and adding paragraphs (b)(7) and (c)(3)(iii), effective May 1, 2006, through Oct. 10, 2006

§ 648.95 Offshore Fishery Program in the SFMA.

(a) *General.* Any vessel issued a valid monkfish limited access permit is eligible to apply for a Category F permit in order to fish in the Offshore Fishery Program in the SFMA.

(1) A vessel issued a Category F permit is subject to the specific provisions and conditions of this section while fishing on a monkfish DAS.

(2) When not fishing on a monkfish DAS, a Category F vessel may fish under the regulations applicable to the monkfish incidental catch (Category E) permit, specified under paragraph §648.94(c). When fishing on a NE multispecies DAS in the NFMA, a Category F vessel that also possesses a NE multispecies limited access permit is subject to the possession limits applicable to vessels issued an incidental catch permit as described in §648.94(c)(1)(i).

(3) Limited access Category C or D vessels that apply for and are issued a Category F permit remain subject to the provisions specific to Category C and D vessels, unless otherwise specified under this subpart F.

(b) *Declaration.* To fish in the Offshore Fishery Program, a vessel must obtain a monkfish limited access Category F permit and fish under this permit for the entire fishing year, subject

to the conditions and restrictions specified under this part. The owner of a vessel, or authorized representative, may change the vessel's limited access monkfish permit category within 45 days of the effective date of the vessel's permit, provided the vessel has not fished under the monkfish DAS program during that fishing year. If such a request is not received within 45 days, the vessel owner may not request a change in permit category and the vessel's permit category will remain unchanged for the duration of the fishing year.

(c) *Offshore Fishery Program Area.* The Offshore Fishery Program Area is bounded on the south by 38°00' N. lat., and on the north, west, and east by the area coordinates specified in §648.23(a).

(d) *Season.* October 1 through April 30 each year.

(e) *Restrictions.* (1) Except for the transit provisions provided for in paragraph (f) of this section, a vessel issued a valid Category F permit may only fish for, possess, and land monkfish in or from the Offshore Fishery Program Area while on a monkfish DAS.

(2) A vessel enrolled in the Offshore Fishery Program is restricted to fishing under its monkfish DAS during the season in paragraph (d) of this section.

(3) A vessel issued a Category F permit that is fishing on a monkfish DAS is subject to the minimum mesh size requirements applicable to limited access monkfish Category A and B vessels, as specified under §648.91(c)(1)(i) and (c)(1)(iii), as well as the other gear requirements specified in paragraphs (c)(2) and (c)(3).

(4) A vessel issued a Category F permit must have installed on board an operational VMS unit that meets the minimum performance criteria specified in §§648.9 and 648.10 during the entire season established under paragraph (d) of this section. Unless otherwise required to maintain an operational VMS unit under the VMS notification requirements specified at §648.10(b)(1), a vessel issued a Category F permit may turn off its VMS unit outside of this season.

(5) A vessel issued a Category F permit that is fishing on a monkfish DAS is subject to the minimum mesh size

§ 648.96

50 CFR Ch. VI (10–1–06 Edition)

requirements applicable to limited access monkfish Category A and B vessels, as specified under § 648.91(c)(1)(v) and (c)(1)(iii), as well as the other gear requirements specified in paragraphs (c)(2) and (c)(3).

(f) *Transiting.* A vessel issued a Category F permit and fishing under a monkfish DAS that is transiting to or from the Offshore Fishery Program Area, described in paragraph (c)(1) of this section, shall have all gear stowed and not available for immediate use in accordance with the gear stowage provisions specified under § 648.23(b).

(g) *Monkfish possession limits and DAS allocations.* (1) A vessel issued a Category F permit may land up to 1,600 lb (726 kg) tail weight or 5,312 lb (2,409 kg) whole weight of monkfish per monkfish DAS (or any prorated combination of tail weight and whole weight based on the conversion factor of 3.32).

(2) The monkfish DAS allocation for vessels issued a Category F permit shall be equal to the trip limit applicable to the vessel's monkfish limited access permit category divided by the fixed daily possession limit specified in paragraph (g)(1) of this section, and then multiplied by the DAS allocation for limited access monkfish vessels not issued Category F permits, specified under § 648.92(b)(1). For example, if a vessel has a limited access monkfish Category C permit, and the applicable trip limit is 800 lb (363 kg) for this category, and the vessel has an annual allocation of 40 monkfish DAS, then the monkfish DAS allocated to that vessel when issued a Category F permit would be 20 monkfish DAS (800 lb divided by 1,600 lb, multiplied by 40 monkfish DAS equals 20 DAS). Any carryover monkfish DAS will be included in the calculation of monkfish DAS for Category F vessels.

(3) Vessels issued a Category F permit that are fishing under a NE multispecies DAS in the NFMA are subject to the incidental catch limit specified in paragraph (c)(1)(i) of this section.

(h) *DAS usage by NE multispecies or sea scallop limited access permit holders.* A vessel issued a Category F permit that also has been issued either a NE multispecies or sea scallop limited access permit, and is fishing on a monkfish

DAS, is subject to the DAS usage requirements specified in § 648.92(b)(2).

[70 FR 21945, Apr. 28, 2005]

EFFECTIVE DATE NOTE: At 71 FR 19390, Apr. 13, 2006, § 648.95 was amended by suspending paragraph (e)(3) and adding paragraph (e)(5), effective May 1, 2006, through Oct. 10, 2006

§ 648.96 Monkfish annual adjustment process and framework specifications.

(a) *General.* The Monkfish Monitoring Committee (MFMC) shall meet on or before November 15 of each year to develop target TACs for the upcoming fishing year in accordance with paragraph (b)(1) of this section, and options for NEFMC and MAFMC consideration on any changes, adjustment, or additions to DAS allocations, trip limits, size limits, or other measures necessary to achieve the Monkfish FMP's goals and objectives. The MFMC shall review available data pertaining to discards and landings, DAS, and other measures of fishing effort; stock status and fishing mortality rates; enforcement of and compliance with management measures; and any other relevant information.

(b) *Annual Adjustment Procedures—(1) Setting annual target TACs.* (i) The MFMC shall submit to the Councils and Regional Administrator the target monkfish TACs for the upcoming fishing year as soon as possible after the availability of the NMFS fall trawl survey indices, but no later than January 7, based on the control rule formula described in paragraph (b)(1)(ii) of this section. The Regional Administrator shall then promulgate any changes to existing management measures, pursuant to the methods specified in paragraphs (b)(2) and (3) of this section, resulting from the updated target TAC through rulemaking consistent with the Administrative Procedure Act. If the annual target TAC generated through the control rule formula described in paragraph (b)(1)(ii) of this section does not require any changes to existing management measures, then no action shall be required by the Regional Administrator. If the action is submitted after January 7, then the target TACs and associated management measures for the prior fishing
