§ 92.21 Emergency closures.

(a) The Regional Director, after consultation with the Co-management Council, may close or temporarily suspend any regulation established under subparts C or D of this part:

(1) Upon finding that a continuation of the regulation would pose an imminent threat to the conservation of any endangered or threatened species or other migratory bird population; and

(2) Upon issuance of local public notice by such means as publication in local newspapers of general circulation, posting of the areas affected, notifying the State wildlife conservation agency, and announcement on the internet and local radio and television.

(b) The Service will also announce any such closure or temporary suspension by publication of a notice in the FEDERAL REGISTER simultaneously with the local public notice referred to in paragraph (a)(2) of this section. However, in the event that publishing a FEDERAL REGISTER notice simultaneously with the local public notice is impractical, we will publish in the FEDERAL REGISTER as soon as possible after the steps outlined in paragraph (a) of this section are taken.

(c) Any closure or temporary suspension under this section will be effective on the date of publication of the FEDERAL REGISTER notice; or if such notice is not published simultaneously with the notification methods described in paragraph (a) of this section, then on the date and at the time specified in the local notification to the public

given under paragraph (a)(2) of this section. Every notice of closure or temporary suspension will include the date and time of the closing, the area or areas affected, and the species affected. In the case of a temporary suspension, the date and time when the harvest may be resumed will also be provided by local notification to the public and by publication in the FEDERAL REGISTER as provided for in paragraphs (a) and (b) of this section.

Subpart D—Annual Regulations Governing Subsistence Harvest

§ 92.30 General overview of regulations.

These regulations establish a spring/summer migratory bird subsistence harvest in Alaska. The regulations list migratory bird species that are authorized for harvest, species that are not authorized for harvest, season dates, and dates for a 30-day closure to protect nesting birds. The Co-management Council will review and, if necessary, recommend modifications to these harvest regulations on an annual basis, working within the schedule of the Federal late-season regulations for migratory game bird hunting.

(a) The taking, possession, transportation, and other uses of migratory birds are generally prohibited unless specifically authorized by regulation developed in accordance with the Migratory Bird Treaty Act. Therefore, harvesting migratory birds is prohibited unless regulations are established ensuring the protection of the various populations of migratory birds. Migratory bird population levels, production, and habitat conditions vary annually. These conditions differ within Alaska and throughout North America. Therefore, the regulations governing migratory bird hunting may include annual adjustments to keep harvests within acceptable levels.

(b) The development of the regulations in this part, like the development of the annual migratory game bird hunting regulations in part 20 of this chapter, involves annual data gathering programs to determine migratory
