

§ 92.31

bird population status and trends, evaluate habitat conditions, determine harvests, and consider other factors having an impact on the anticipated size of annual populations.

(c) The Service proposes annual migratory game bird hunting regulations in the FEDERAL REGISTER in the spring for seasons beginning September 1 of that year. Following consideration of additional biological information and public comment, the Service publishes supplemental proposals throughout the summer. These are also open to public comment.

(d) Sections 92.31 through 92.39 provide for the annual harvest of migratory birds and their eggs during spring and summer for subsistence users in Alaska.
