(1) Such customer may be assessed actual price losses accruing to the customer's position from the time at which the customer entered into a leverage contract to the time that the leverage contract was rescinded. Such losses do not extend to any other charges or fees, such as account initiation, carrying, margin or account termination;

(2) In the case of a leverage customer whose initial leverage transaction was a purchase of a leverage contract from a leverage transaction merchant (long leverage contract), actual losses accruing to the position may be calculated only by subtracting the ask price of the leverage contract offered by the leverage transaction merchant at the time when the leverage contract was rescinded from the ask price at which the leverage contract was purchased by the leverage customer and which appears on the Confirmation Statement. In the case of a leverage customer whose initial leverage transaction was a sale of a leverage contract to a leverage transaction merchant (short leverage contract), actual losses are calculated by subtracting the bid price at which the leverage contract was sold by the leverage customer and which appears on the Confirmation Statement
