§ 40.3 Voluntary submission of new products for Commission review and approval.

information may be provided in narrative form or by completion of the applicable chart.

(ii) For physical delivery contracts, an explanation as to how the terms and conditions as a whole will result in a deliverable supply such that the contract will not be conducive to price manipulation or distortion and that the deliverable supply reasonably can be expected to be available to short traders and salable by long traders at its market value in normal cash marketing channels.

(iii) For cash settled contracts, an explanation as to how the cash settlement of the contract is at a price reflecting the underlying cash market, will not be subject to manipulation or distortion, and is based on a cash price series that is reliable, acceptable, publicly available and timely.

The description may include materials prepared by the designated contract market or registered derivatives transaction execution facility, existing studies by industry trade groups, academics, governmental bodies or other entities, reports of consultants, or other materials, which provide a description of the underlying cash market.

(B) The cash market description may, however, be confined only to those aspects relevant to particular term(s) or condition(s) that differ from an existing contract, where a contract based on the same, or a closely related, commodity is already listed for trading and is not dormant.

(5) Describe any agreements or contracts entered into with other parties that enable the designated contract market or derivatives transaction execution facility to carry out its responsibilities.

(6) Include the certifications required in § 41.22 for product approval of a commodity that is a security future or a security futures product as defined in Sections 1a(31) or 1a(32) of the Act, respectively;

(9) Include, if requested by Commission staff, additional evidence, information or data relating to whether the contract meets, initially or on a continuing basis, any of the specific requirements of the Act, or any other requirement for designation under the Act or Commission regulations or policies thereunder.

(b) *Forty-five day review.* All products submitted for Commission approval under this paragraph shall be deemed approved by the Commission forty-five days after receipt by the Commission, or at the conclusion of such extended period as provided under paragraph (c) of this section, unless notified otherwise within the applicable period, if:

(1) The submission complies with the requirements of paragraph (a) of this section; and

(2) The submitting entity does not amend the terms or conditions of the product or supplement the request for approval, except as requested by the Commission or for correction of typographical errors, renumbering or other such nonsubstantive revisions, during that period. Any voluntary, substantive amendment by the submitting entity will be treated as a new submission under this section.

(c) *Extension of time.* The Commission may extend the forty-five day review period in paragraph (b) of this section for:

(1) An additional forty-five days, if the product raises novel or complex issues that require additional time for review or is of major economic significance, in which case, the Commission would notify the submitting registered entity within the initial forty-five day review period and would briefly describe the nature of the specific issues for which additional time for review would be required; or

(2) Such extended period as the submitting registered entity so instructs the Commission in writing.

(d) *Notice of non-approval.* The Commission at any time during its review

under this section may notify the submitting entity that it will not, or is unable to, approve the product or instrument. This notification will briefly specify the nature of the issues raised and the specific provision of the Act or regulations, including the form or content requirements of paragraph (a) of this section, that the product would violate, appears to violate or the violation of which cannot be ascertained from the submission.

(e) *Effect of non-approval.* (1) Notification to a submitting entity under paragraph (d) of this section of the Commission's refusal to approve a product or instrument does not prejudice the entity from subsequently submitting a revised version of the product or instrument for Commission approval or from submitting the product or instrument as initially proposed pursuant to a supplemented submission.

(2) Notification to a submitting registered entity under paragraph (d) of this section of the Commission's refusal to approve a product shall be presumptive evidence that the entity may not truthfully certify under § 40.2 that the same, or substantially the same, product does not violate the Act or regulations thereunder.

(7) Fees or fee changes of less than \$1.00 per contract;

(8) Fees or fee changes that are \$1.00 or more per contract and are established by an independent third party or are unrelated to delivery, trading, clearing or dispute resolution; and

(9) Any other rule:

(i) The text of which has been submitted for review to the Secretary of the Commission electronically in a format specified by the Secretary of the Commission, at least ten business days prior to its implementation and that has been labeled "Non-Material Agricultural Rule Change;"

(ii) For which the registered entity has provided an explanation as to why it considers the rule "non-material," and any other information that may be beneficial to the Commission in analyzing the merits of the entity's claim of non-materiality; and

(iii) With respect to which the Commission has not notified the contract market during the review period that the rule appears to require or does require prior approval under this section.
