

result of the terrorist attacks of September 11, 2001;

(ii) That the revenue or expense was reported in accordance with Generally Accepted Accounting Principles (GAAP), except to the extent that the GAAP would require or allow treatment that would be inconsistent with the Act or this part;

(iii) That an expense was fully borne within the September 11–December 31, 2001, period and is permanent; and

(iv) That the resulting additional compensation would not be duplicative of other allowances for compensation.

(b) The Department generally does not accept claims by air carriers that cost savings should be excluded from the calculation of incurred losses. Consequently, the Department will generally not allow such claims to be used in a way that has the effect of increasing the compensation for which an air carrier is eligible.

Subpart C—Set-Aside for Certain Carriers

§ 330.41 What funds is the Department setting aside for eligible classes of air carriers?

The Department is setting aside a sum of up to \$35 million to compensate eligible classes of air carriers, for which application of a distribution formula containing ASMs as a factor, as set forth in section 103(b)(2) of the Act, would inadequately reflect their share of direct and incremental losses.

§ 330.43 What classes of air carriers are eligible under the set-aside?

There are two classes of eligible air carriers:

(a) You are a Class I air carrier if you are an air taxi, regional, commuter or indirect air carrier and you reported 75,000 or fewer ASMs to the Department for the month of August, 2001.

(b) You are a Class II air carrier if you are an air taxi, regional, commuter or indirect air carrier and you reported between 75,001 and 10 million ASMs to the Department for the month of August 2001.

[Docket No. OST-2001-10885, 67 FR 54066, Aug. 20, 2002, as amended at 68 FR 44458, July 29, 2003]

§ 330.45 What is the basis on which air carriers will be compensated under the set-aside?

(a) Except as provided in paragraph (c) of this section, as an air carrier eligible for compensation through the set-aside, you will be compensated for an amount calculated as provided in paragraph (b) of this section.

(b)(1) As a Class I carrier, your compensation will be calculated using a fixed ASM rate equivalent to the mean losses per ASM for all Class I carriers applying for compensation.

(2) As a Class II carrier, your compensation will be calculated using a graduated ASM rate equivalent to—

(i) The mean loss per ASM for all Class I carriers applying for compensation, for each of the first 75,000 ASMs reported; and

(ii) The mean remaining loss per ASM for all Class II carriers applying for compensation for each ASM in excess of 75,000.

(3) For purposes of this paragraph (b), ASMs are those verified by the Department for August 2001.

(4) Any compensation payments previously made to air carriers eligible for the set-aside will be deducted from the amount calculated as the carrier's total compensation under the set-aside formula.

(c) If you are an air carrier whose compensation is calculated using an ASM rate as provided in paragraph (b) of this section, your compensation will not be less than an amount equivalent to 25 percent of the direct and incremental transportation-related losses you have demonstrated to the satisfaction of the Department were incurred as a direct result of the terrorist attacks of September 11, 2001. Your compensation will not be more than an amount equivalent to the mean percentage of compensation for losses received by passenger and combination air carriers that are not eligible for the set-aside funds, unless you would have been compensated for more than that percentage of losses under the formula set forth in section 103(b)(2) of the Act, in which case you will be compensated under that formula.

[Docket No. OST-2001-10885, 67 FR 54066, Aug. 20, 2002, as amended at 68 FR 44458, July 29, 2003]

Identification and Explanation of Out-of-Period, Extraordinary or Non-Recurring Revenues and Expenses, and Adjustments to Revenues and Expenses Stemming from Changes Not Directly Related to the Terrorist Events of September 11, 2001

(Note: For definitions and background information in completing this Form, see the sections on "Impairments and Other Extraordinary or Nonrecurring Items" and "Adjustment for Losses Not the Direct Result of the Events of September 11" in the preamble accompanying the original issuance of this form (67 FR 18468; April 16, 2002). See especially the discussion of impairment of assets, lease buyouts, and limitations on treatment of cost reductions below forecast. The three blank lines in each table indicate the format, rather than the expected number of entries.)

In Table 1 below, separately identify and explain any and all out-of-period revenues, extraordinary or non-recurring revenues, and adjustments to actual revenues not directly related to the terrorist events of September 11, 2001 that were **included** in Column B (Boxes B-1 and B-4 on page 1 of this form) but not in Column A, the forecasted revenues. You should use a separate sheet to provide a complete explanation.

The operations for hire for which losses are claimed in this chart must have been cancelled entirely, resulting in a complete loss of revenue for those operations. Revenue for these operations must not have been re-captured through subsequent re-accommodation of the same trips. Such non-recovered losses in revenues had associated countervailing reductions in operating expenses that have also been incorporated in the data and calculations in this chart.

* Air transportation for hire includes only commercial services operated under Part 121 or Part 135 operating certificates. Other services operated under Part 91, as well as dry leases and flights operated for the purpose of flight instructions, maintenance testing and aircraft positioning are excluded.

** This number should be the same number as listed on the operator's current Part 298 registration and current FAA-issued operations specifications.

*** For all-cargo operations, please note aircraft that are operated under contract for another express or all-cargo carrier and identify those carriers and provide details on a separate, attached sheet.

NOTE: If the operator records and reports aircraft miles, the operator should compute and enter available seat miles by multiplying the number of seats times the aircraft miles. If the operator does not report aircraft miles, DOT will compute the available seat miles. If the operator records and reports cargo RTMs, the operator should enter the amounts directly on the form. If not, DOT will estimate the RTMs based on the other data submitted. All carriers, however, must report airborne hours and departures.

Part 6: ACCOUNT INFORMATION AND CERTIFICATION
 Compensation payments will be made via Electronic Funds Transfer. The Department of Transportation can process this type of payment only if air carrier applicants submit the following banking information with their requests:

Air Carrier Bank Routing Number	_____ (9 positions)
Air Carrier Bank Account Number	
Name on Account	
Type of Account (e.g., checking, savings)	
Taxpayer ID Number	

I CERTIFY THAT THE INFORMATION CONTAINED IN PARTS 1 THROUGH 5 OF THIS FORM (FORM 330-C) IS TRUE AND ACCURATE UNDER PENALTY OF LAW. FALSIFICATION OF A CLAIM FOR COMPENSATION/PAYMENTS UNDER PUB. L. 107-42 MAY RESULT IN CRIMINAL PROSECUTION RESULTING IN FINE AND/OR IMPRISONMENT (18 U.S.C. 1001).

EXPLANATORY NOTES:

1. In order to avoid the possibility of misinterpretation, we are requiring that numbers or notations (for example, "N/A") be entered into all data blocks on all forms even if those numbers are zero. We also note that all amounts are to be reported in whole numbers.
2. The required forecasted amounts should be based on a forecasting and/or budgeting approach or similar accounting system if the air carrier routinely uses that method. For those carriers whose accounting systems or methodologies rely more on actual or short run projections, we ask that they make a "good faith" effort to categorize their revenues and expenses according to the required forms. In this regard, the following may provide additional assistance.
3. As general guidance, we include the following information that has been adapted from 14 CFR Part 298 (Section 298.62) or 14 CFR Part 241. Air transportation for hire includes only commercial services operated under Part 121 or Part 135 operating certificates. Other services operated under Part 91, as well as dry leases and flights operated for the purpose of flight instructions, maintenance testing and aircraft positioning are excluded.
4. Total operating revenues generally include gross revenues accruing from services ordinarily associated with air transportation. It is meant to include revenue derived from scheduled service, on demand and nonscheduled service operations.
5. In general, total operating expenses include expenses of the type usually and ordinarily incurred in the performance of air transportation. It includes expenses incurred: directly in the in-flight operation of aircraft; in the holding of aircraft and aircraft personnel in readiness for assignment to an in-flight status; on the ground, in controlling and protecting the in-flight movement of aircraft; landing and handling aircraft on the ground; selling transportation, servicing and handling passenger and cargo traffic; promoting the development of traffic; and administering operations generally. It shall also include expenses which are specifically identifiable with the repair and upkeep of property and equipment used in the performance of air transportation and all depreciation and amortization expenses applicable to property and equipment used in providing air transportation services.
6. Non-operating income includes such items as interest income and other similar investments. It may also include capital gains (for example, aircraft sales). Non-operating expenses include interest expense and other expenses attributable to financing or other activities that are extraneous to and not an integral part of air transportation or its incidental services. It may also include capital losses (for example, aircraft sales).
7. We note that claims for compensation cannot be based solely on lost revenues, that is, the total revenue that an air taxi operator expected to receive from flights that would have been flown but were cancelled due to the DOT-mandated flight stoppage. While these amounts would provide information on the changes in total operating revenues, it is important to recognize that changes in total operating expenses must also be considered in calculating operating income and net income which is ultimately used to determine compensation. Also, for those carriers with less sophisticated accounting systems, the calculation of forecasted total operating expenses might be based on an analysis of fixed costs (those that stay the same regardless of the number of flights or changes in passenger and cargo traffic) and variable costs (those that change in proportion to the level of operations and traffic volume).
8. All carriers should be able to provide actual financial results for the period of September 11 to September 30, 2001, as required. We will not accept incomplete forms or reports that are submitted in lieu of the required forms and we will not accept the submission of invoices, flight logs, sales records, calendar notations of events or other similar documents in lieu of the required forms. However, supporting documentation must be retained for audit purposes.
