

for all of the TSP Funds. The difference between the dollar value of the contribution or loan payment on the posting date and the dollar value of the contribution or loan payment on the “as of” date is the breakage.

(c) *Posting contributions and loan payments.* Makeup and late contributions, late loan payments, and breakage, will be posted to the participant’s account according to his or her contribution allocation on file for the posting date. If there is no contribution allocation on file for the posting date, they will be posted to the G Fund.

(d) *Charging breakage.* If the dollar amount posted to the participant’s account is greater than the dollar amount of the makeup or late contribution or late loan payment, the TSP will charge the agency the additional amount. If the dollar amount posted to the participant’s account is less than the dollar amount of the makeup or late contribution, or late loan payment, the difference between the amount of the contribution and the amount posted will be forfeited to the TSP.

(e) *Posting of multiple contributions.* If the TSP posts multiple makeup or late contributions or late loan payments with different “as of” dates for a participant on the same business day, the amount of breakage charged to the employing agency or forfeited to the TSP will be determined separately for each transaction, without netting any gains or losses attributable to different “as of” dates. In addition, gains and losses from different sources of contributions or different TSP Funds will not be netted against each other. Instead, breakage will be determined separately for each as-of date, TSP Fund, and source of contributions.

Subpart B—Employing Agency Errors

§ 1605.11 Makeup of missed or insufficient contributions.

(a) *Applicability.* This section applies whenever, as the result of an employing agency error, a participant does not receive all of the TSP contributions to which he or she is entitled.

This includes situations in which an employing agency error prevents a participant from making an election to contribute to his or her TSP account, in which an employing agency fails to implement a contribution election properly submitted by a participant, in which an employing agency fails to make agency automatic (1%) contributions or agency matching contributions that it is required to make, or in which an employing agency otherwise erroneously contributes less to the TSP for a participant’s account than it should have. The corrections required by this section must be made in accordance with this part and the procedures provided to employing agencies by the Board in bulletins or other guidance. It is the responsibility of the employing agency to determine whether it has made an error that entitles a participant to error correction under this section.

(b) *Employer makeup contributions.* If an employing agency has failed to make agency automatic (1%) contributions that are required under 5 U.S.C. 8432(c)(1)(A), agency matching contributions that are required under section 8432(c)(2), or matching contributions that are authorized under 37 U.S.C. 211(d), the following rules apply:

(1) The employing agency must promptly submit all missed contributions to the TSP record keeper on behalf of the affected participant. For each pay date involved, the employing agency must submit a separate payment record showing the “as of” date for the contributions.

(2) The TSP will calculate the breakage due to the participant and post both the contributions and the associated breakage to the participant’s account in accordance with § 1605.2.

(c) *Employee makeup contributions.* Within 30 days of receiving information from his or her employing agency indicating that the employing agency acknowledges that an error has occurred which has caused a smaller amount of employee contributions to be made to the participant’s account than should have been made, a participant may elect to establish a schedule to make up the deficient contributions through future payroll deductions. Employee makeup contributions can be made in

addition to any TSP contributions that the participant is otherwise entitled to make. The following rules apply to employee makeup contributions:

(1) The schedule of makeup contributions elected by the participant must establish the dollar amount of the contributions to be made each pay period over the duration of the schedule. The contribution amount per pay period may vary during the course of the schedule, but the total amount to be contributed must be established when the schedule is created. After the schedule is created, a participant may, with the agreement of his or her agency, elect to change his or her payment amount (e.g., to accelerate payment). The length of the schedule may not exceed four times the number of pay periods over which the error occurred.

(2) At its discretion, an employing agency may set a ceiling on the length of a schedule of employee makeup contributions which is less than four times the number of pay periods over which the error occurred. The ceiling may not, however, be less than twice the number of pay periods over which the error occurred.

(3) The employing agency must implement the participant's schedule of makeup contributions as soon as practicable.

(4) For each pay date involved, the employing agency must submit a separate payment record showing the "as of" date for which the employee contribution should have been made. An employee is not eligible to make up contributions with an "as of" date occurring during a period of six months following a financial hardship in-service withdrawal, as provided in 5 CFR 1650.33. An employee may make up contributions during a period of ineligibility due to a hardship withdrawal as long as the "as of" date is for an earlier period.

(5) Employee makeup contributions will be invested in accordance with the participant's current contribution allocation. The number of shares of each TSP Fund which will be purchased will be determined by dividing the amount of the makeup contributions by the share price of the applicable fund(s) on the posting date.

(6) Employee makeup contributions will be included for purposes of applying the annual limit contained in Internal Revenue Code (I.R.C.) section 402(g) (26 U.S.C. 402(g)(1)). For purposes of applying that limit, employee makeup contributions will be applied against the limit for the year of the "as of" date.

(i) Before establishing a schedule of employee makeup contributions, the employing agency must review any schedule proposed by the affected participant, as well as the participant's prior TSP contributions, if any, to determine whether the makeup contributions, when combined with prior contributions for the same year, would exceed the annual contribution limit(s) contained in I.R.C. section 402(g) for the year(s) with respect to which the contributions are being made.

(ii) The employing agency must not permit contributions that, when combined with prior contributions, would exceed the applicable annual contribution limit contained in I.R.C. section 402(g).

(7) A schedule of employee makeup contributions may be suspended if a participant has insufficient net pay to permit the makeup contributions. If this happens, the period of suspension should not be counted against the maximum number of pay periods to which the participant is entitled in order to complete the schedule of makeup contributions.

(8) A participant may elect to terminate a schedule of employee makeup contributions at any time, but a termination is irrevocable. If a participant separates from Federal service, the participant may elect to accelerate the payment schedule by a lump sum contribution from his or her final paycheck.

(9) At the same time that a participant makes up missed employee contributions, the employing agency must make any agency matching contributions that would have been made had the error not occurred. Agency matching contributions must be submitted pursuant to the rules set forth in paragraph (b) of this section. A participant may not receive matching contributions associated with any employee contributions that are not actually

made up. If employee makeup contributions are suspended in accordance with paragraph (c)(7) of this section, the payment of agency matching contributions must also be suspended.

(10) If a participant transfers to an employing agency different from the one by which the participant was employed at the time of the missed contributions, it remains the responsibility of the former employing agency to determine whether employing agency error was responsible for the missed contributions. If it is determined that such an error has occurred, the current agency must take any necessary steps to correct the error. The current agency may seek reimbursement from the former agency of any amount that would have been paid by the former agency had the error not occurred.

(11) Employee makeup contributions may be made only by payroll deduction from basic pay or, for uniformed services participants, from basic pay, incentive pay, or special pay, including bonus pay. Contributions by check, money order, cash, or other form of payment directly from the participant to the TSP, or from the participant to the employing agency for deposit to the TSP, are not permitted.

[68 FR 35498, June 13, 2003, as amended at 70 FR 32210, June 1, 2005]

§ 1605.12 Removal of erroneous contributions.

(a) *Applicability.* This section applies to the removal of funds erroneously contributed to the TSP. The TSP calls this action a negative adjustment, and agencies may only request negative adjustments of erroneous contributions made on or after January 1, 2000. Excess contributions addressed by this section include, for example, excess employee contributions that result from employing agency error and excess employer contributions. This section does not address excess contributions resulting from a FERCCA correction; those contributions are addressed in § 1605.14.

(b) *Method of correction.* Negative adjustment records must be submitted by employing agencies in accordance with this part and any other procedures provided by the Board.

(1) To remove money from a participant's account, the employing agency must submit, for each attributable pay date involved, a negative adjustment record stating the attributable pay date and the amount, by source, of the erroneous contribution.

(2) A negative adjustment record may be for any part of the contributions made for the attributable pay date. However, for each source of contributions, the negative adjustment may not exceed the amount of the contributions made for that date, minus any prior negative adjustments for the same date.

(c) *Processing negative adjustments.* To determine current value, a negative adjustment will be allocated among the TSP Funds as it would have been allocated on the attributable pay period (as reported by the employing agency).

(1) If the attributable pay date for the erroneous contribution is on or before the date TSP accounts were converted to shares (and on or after January 1, 2000), the TSP will, for each source of contributions and investment fund:

(i) Determine the dollar value of the amount to be removed by using the monthly returns for the applicable TSP Fund;

(ii) Determine the number of shares that the dollar value determined in paragraph (c)(1)(i) of this section would have purchased on the conversion date; and

(iii) Multiply the price per share for the date the adjustment is posted by the number of shares calculated in paragraph (c)(1)(ii) of this section.

(2) If the attributable pay date of the negative adjustment is after the date TSP accounts were converted to shares, the TSP will, for each source of contributions and TSP Fund:

(i) Determine the number of shares that represent the amount of the contribution to be removed using the share price on the attributable pay date; and

(ii) Multiply the price per share on the date the adjustment is posted by the number of shares calculated in paragraph (c)(2)(i) of this section.
