

the costs of the materials, or the transportation of mineral materials from outside the HCNRA presents a safety hazard. When mineral materials are obtained from inside the HCNRA, the environmental effects at the source of extraction must be mitigated by site reclamation upon the termination of the extraction activity. Site reclamation may include contouring the land, re-establishing vegetation, and other measures deemed appropriate by the authorized officer to blend the site into the surrounding environment to the extent practicable. The HCNRA shall not be the source of mineral materials for use outside the HCNRA for projects that do not directly benefit the HCNRA.

(b) *Wilderness Lands and Wild and Scenic Rivers.* The standards and guidelines of this section apply to mining activities in the Wilderness Lands and Wild and Scenic Rivers categories of the HCNRA.

(1) The standards and guidelines for Other Lands in paragraphs (a)(1) and (2) of this section also apply to Wilderness Lands and Wild and Scenic Rivers.

(2) Extraction of mineral materials is prohibited on Wilderness Lands and Wild and Scenic Rivers subject to valid existing rights.

#### § 292.48 Grazing activities.

The following standards and guidelines apply to domestic livestock grazing activities on Other Lands, Wild and Scenic Rivers, and Wilderness Lands in the HCNRA.

(a) Grazing may be authorized only on rangeland determined by the authorized officer to be suitable for grazing and meeting or moving towards satisfactory condition and meeting the conditions described in paragraph (b) of this section.

(b) Where domestic livestock grazing is incompatible with the protection, restoration, or maintenance of fish and wildlife or their habitats; public outdoor recreation; conservation of scenic, wilderness, and scientific values; rare combinations of outstanding ecosystems, or the protection and enhancement of the values for which a wild and scenic river was designated, the livestock use shall be modified as necessary to eliminate or avoid the incompatibility. In the event an incom-

patibility persists after the modification or modification is not feasible, the livestock use shall be terminated.

(c) Range improvements must be designed and located to minimize their impact on scenic, cultural, fish and wildlife, and other resources in the HCNRA.

(d) The authorization of grazing use, through a grazing permit, must provide for terms and conditions which protect and conserve riparian areas.

### Subpart G—Smith River National Recreation Area

AUTHORITY: 16 U.S.C. 460bbb *et seq.*

SOURCE: 63 FR 15059, Mar. 27, 1998, unless otherwise noted.

#### § 292.60 Purpose and scope.

(a) *Purpose.* The regulations of this subpart set forth the rules and procedures by which the Forest Service regulates mineral operations on National Forest System lands within the Smith River National Recreation Area as established by Congress in the Smith River National Recreation Area Act of 1990 (16 U.S.C. 460bbb *et seq.*).

(b) *Scope.* The rules of this subpart apply only to mineral operations on National Forest System lands within the Smith River National Recreation Area.

(c) *Applicability of other rules.* The rules of this subpart supplement existing Forest Service regulations concerning the review, approval, and administration of mineral operations on National Forest System lands including, but not limited to, those set forth at parts 228, 251, and 261 of this chapter.

(d) *Conflicts.* In the event of conflict or inconsistency between the rules of this subpart and other parts of this chapter, the rules of this subpart take precedence, to the extent allowable by law.

#### § 292.61 Definitions.

The special terms used in this subpart have the following meaning:

*Act* means the Smith River National Recreation Area Act of 1990 (16 U.S.C. 460bbb *et seq.*).

*Authorized officer* means the Forest Service officer to whom authority has
