

**§ 292.68**

mineral rights have not been verified, explain the reasons for such a finding, and that the proposed mineral operation cannot be conducted.

(c) If the review shows that outstanding mineral rights have been verified, the authorized officer must notify the operator in writing that outstanding mineral rights have been verified and that review of the proposed operating plan will proceed.

(d) The authorized officer shall review the operating plan to determine if all of the following criteria are met:

(1) The operating plan is consistent with the rights granted by the deed;

(2) The operating plan is consistent with the Six Rivers National Forest Land and Resource Management Plan; and

(3) The operating plan uses only so much of the surface as is necessary for the proposed mineral operations.

(e) Upon completion of the review of the operating plan, the authorized officer shall notify the operator in writing of one of the following:

(1) The operating plan meets all of the criteria of paragraphs (d)(1) through (d)(3) of this section and, therefore, is approved;

(2) The operating plan does not meet one or more of the criteria in paragraphs (d)(1) through (d)(3) of this section. Where feasible, the authorized officer may indicate changes to the operating plan that would satisfy the criteria in paragraphs (d)(1) through (d)(3) of this section and, thus, if accepted by the operator, would result in approval of the operating plan.

(f) To conduct mineral operations beyond those described in an approved operating plan, the owner or lessee must submit, in writing, an amended operating plan to the authorized officer at the earliest practicable date. New operations covered by the proposed amendment may not begin until the authorized officer has reviewed and responded in writing to the proposed amendment. The authorized officer shall review a proposed amendment of an approved operating plan to determine that the criteria in paragraphs (d)(1) through (d)(3) of this section are met.

**36 CFR Ch. II (7-1-07 Edition)**

MINERAL MATERIALS

**§ 292.68 Mineral material operations.**

Subject to the provisions of part 228, subpart C, and part 293 of this chapter, the authorized officer may approve contracts and permits for the sale or other disposal of mineral materials, including but not limited to, common varieties of gravel, sand, or stone. However, such contracts and permits may be approved only if the material is not within a designated wilderness area and is to be used for the construction and maintenance of roads and other facilities within the SRNRA or the four excluded areas identified by the Act.

OTHER PROVISIONS

**§ 292.69 Concurrent reclamation.**

Plans of operations involving locatable minerals, operating plans involving outstanding mineral rights, and contracts or permits for mineral materials should all provide, to the maximum extent practicable, that reclamation proceed concurrently with the mineral operation.

**§ 292.70 Indemnification.**

The owner and/or operator of mining claims and the owner and/or lessee of outstanding mineral rights are jointly and severally liable in accordance with Federal and State laws for indemnifying the United States for the following:

(a) Costs, damages, claims, liabilities, judgments, injury and loss, including those incurred from fire suppression efforts, and environmental response actions and cleanup and abatement costs incurred by the United States and arising from past, present, and future acts or omissions of the owner, operator, or lessee in connection with the use and occupancy of the unpatented mining claim and/or mineral operation. This includes acts or omissions covered by Federal, State, and local pollution control and environmental statutes and regulations.

(b) Payments made by the United States in satisfaction of claims, demands, or judgments for an injury, loss, damage, or costs, including for

fire suppression and environmental response action and cleanup and abatement costs, which result from past, present, and future acts or omissions of the owner, operator, or lessee in connection with the use and occupancy of the unpatented mining claim and/or mineral operations.

(c) Costs incurred by the United States for any action resulting from noncompliance with an approved plan of operations or activities outside an approved operating plan.

#### § 293.1 Definition.

National Forest Wilderness shall consist of those units of the National Wilderness Preservation System which at least 30 days before the Wilderness Act of September 3, 1964, were designated as Wilderness and Wild under Secretary of Agriculture's Regulations U-1 and U-2 (§§ 251.20, 251.21), the Boundary Waters Canoe Area as designated under Regulation U-3 (§ 294.1), and such other areas of the National Forests as may

later be added to the System by act of Congress. Sections 293.1 to 293.15 apply to all National Forest units now or hereafter in the National Wilderness Preservation System, including the Boundary Waters Canoe Area, Superior National Forest, except as that area is subject to § 293.16.

#### § 293.2 Objectives.

Except as otherwise provided in the regulations in this part, National Forest Wilderness shall be so administered as to meet the public purposes of recreational, scenic, scientific, educational, conservation, and historical uses; and it shall also be administered for such other purposes for which it may have been established in such a manner as to preserve and protect its wilderness character. In carrying out such purposes, National Forest Wilderness resources shall be managed to promote, perpetuate, and, where necessary, restore the wilderness character of the land and its specific values of solitude, physical and mental challenge, scientific study, inspiration, and primitive recreation. To that end:

(a) Natural ecological succession will be allowed to operate freely to the extent feasible.

(b) Wilderness will be made available for human use to the optimum extent consistent with the maintenance of primitive conditions.

(c) In resolving conflicts in resource use, wilderness values will be dominant to the extent not limited by the Wilderness Act, subsequent establishing legislation, or the regulations in this part.

#### § 293.3 Control of uses.

(a) To the extent not limited by the Wilderness Act, subsequent legislation establishing a particular unit, or the regulations in this part, the Chief, Forest Service, may prescribe measures necessary to control fire, insects, and disease and measures which may be used in emergencies involving the health and safety of persons or damage to property and may require permits for, or otherwise limit or regulate, any use of National Forest land, including, but not limited to, camping, campfires, and grazing of recreation livestock.
