

requested by the Director to do so and the Director provides all offerors that submitted proposals a similar opportunity to amend or supplement their proposals. Permitted amendments must be limited to modifying particular aspects of proposals resulting from a general failure of offerors to understand particular requirements of a prospectus or a general failure of offerors to submit particular information required by a prospectus.

(b) A proposal may suggest changes to the terms and conditions of a proposed concession contract and still be considered as responsive so long as the suggested changes are not conditions to acceptance of the terms and conditions of the proposed concession contract. The fact that a proposal may suggest changes to the proposed concession contract does not mean that the Director may accept those changes without a resolicitation of the concession opportunity.

§51.16 How will the Director evaluate proposals and select the best one?

(a) The Director will apply the selection factors set forth in §51.17 by assessing each timely proposal under each of the selection factors on the basis of a narrative explanation, discussing any subfactors when applicable. For each selection factor, the Director will assign a score that reflects the determined merits of the proposal under the applicable selection factor and in comparison to the other proposals received, if any. The first four principal selection factors will be scored from zero to five. The fifth selection factor will be scored from zero to four (with a score of one for agreeing to the minimum franchise fee contained in the prospectus). The secondary factor set forth in §51.17(b)(1) will be scored from zero to three. Any additional secondary selection factors set forth in the prospectus will be scored as specified in the prospectus provided that the aggregate possible point score for all additional secondary selection factors may not exceed a total of three.

(b) The Director will then assign a cumulative point score to each proposal based on the assigned score for each selection factor.

(c) The responsive proposal with the highest cumulative point score will be selected by the Director as the best proposal. If two or more responsive proposals receive the same highest point score, the Director will select as the best proposal (from among the responsive proposals with the same highest point score), the responsive proposal that the Director determines on the basis of a narrative explanation will, on an overall basis, best achieve the purposes of this part. Consideration of revenue to the United States in this determination and in scoring proposals under principal selection factor five will be subordinate to the objectives of protecting, conserving, and preserving the resources of the park area and of providing necessary and appropriate visitor services to the public at reasonable rates.

§51.17 What are the selection factors?

(a) The five principal selection factors are:

(1) The responsiveness of the proposal to the objectives, as described in the prospectus, of protecting, conserving, and preserving resources of the park area;

(2) The responsiveness of the proposal to the objectives, as described in the prospectus, of providing necessary and appropriate visitor services at reasonable rates;

(3) The experience and related background of the offeror, including the past performance and expertise of the offeror in providing the same or similar visitor services as those to be provided under the concession contract;

(4) The financial capability of the offeror to carry out its proposal; and

(5) The amount of the proposed minimum franchise fee, if any, and/or other forms of financial consideration to the Director. However, consideration of revenue to the United States will be subordinate to the objectives of protecting, conserving, and preserving resources of the park area and of providing necessary and appropriate visitor services to the public at reasonable rates.

(b) The secondary selection factors are:

(1) The quality of the offeror's proposal to conduct its operations in a
