

§ 6.202

40 CFR Ch. I (7–1–07 Edition)

(h) Coordination (includes list of agencies, organizations, and persons to whom copies of the EIS are sent);

(i) List of preparers;

(j) Index (commensurate with complexity of EIS);

(k) Appendices.

§ 6.202 Executive summary.

The executive summary shall describe in sufficient detail (10–15 pages) the critical facets of the EIS so that the reader can become familiar with the proposed project or action and its net effects. The executive summary shall focus on:

(a) The existing problem;

(b) A brief description of each alternative evaluated (including the preferred and no action alternatives) along with a listing of the environmental impacts, possible mitigation measures relating to each alternative, and any areas of controversy (including issues raised by governmental agencies and the public); and

(c) Any major conclusions.

A comprehensive summary may be prepared in instances where the EIS is unusually long in nature. In accordance with 40 CFR 1502.19, the comprehensive summary may be circulated in lieu of the EIS; however, both documents shall be distributed to any Federal, State and local agencies who have EIS review responsibilities and also shall be made available to other interested parties upon request.

§ 6.203 Body of EISs.

(a) *Purpose and need.* The EIS shall clearly specify the underlying purpose and need to which EPA is responding. If the action is a request for a permit or a grant, the EIS shall clearly specify the goals and objectives of the applicant.

(b) *Alternatives including the proposed action.* In addition to 40 CFR 1502.14, the EIS shall discuss:

(1) *Alternatives considered by the applicant.* This section shall include a *balanced* description of each alternative considered by the applicant. These discussions shall include size and location of facilities, land requirements, operation and maintenance requirements, auxiliary structures such as pipelines or transmission lines, and construction

schedules. The alternative of no action shall be discussed and the applicant's preferred alternative(s) shall be identified. For alternatives which were eliminated from detailed study, a brief discussion of the reasons for their having been eliminated shall be included.

(2) *Alternatives available to EPA.* EPA alternatives to be discussed shall include: (i) Taking an action; or (ii) taking an action on a modified or alternative project, including an action not considered by the applicant; and (iii) denying the action.

(3) *Alternatives available to other permitting agencies.* When preparing a joint EIS, and if applicable, the alternatives available to other Federal and/or State agencies shall be discussed.

(4) *Identifying preferred alternative.* In the final EIS, the responsible official shall signify the preferred alternative.

(c) *Affected environment and environmental consequences of the alternatives.* The affected environment on which the evaluation of each alternative shall be based includes, for example, hydrology, geology, air quality, noise, biology, socioeconomics, energy, land use, and archeology and historic subjects. The discussion shall be structured so as to present the total impacts of each alternative for easy comparison among all alternatives by the reader. The effects of a "no action" alternative should be included to facilitate reader comparison of the beneficial and adverse impacts of other alternatives to the applicant doing nothing. A description of the environmental setting shall be included in the "no action" alternative for the purpose of providing needed background information. The amount of detail in describing the affected environment shall be commensurate with the complexity of the situation and the importance of the anticipated impacts.

(d) *Coordination.* The EIS shall include:

(1) The objections and suggestions made by local, State, and Federal agencies before and during the EIS review process must be given full consideration, along with the issues of public concern expressed by individual citizens and interested environmental groups. The EIS must include discussions of any such comments concerning our actions, and the author of each

Environmental Protection Agency

§ 6.301

comment should be identified. If a comment has resulted in a change in the project or the EIS, the impact statement should explain the reason.

(2) Public participation through public hearings or scoping meetings shall also be included. If a public hearing has been held prior to the publication of the EIS, a summary of the transcript should be included in this section. For the public hearing which shall be held after the publication of the draft EIS, the date, time, place, and purpose shall be included here.

(3) In the final EIS, a summary of the coordination process and EPA responses to comments on the draft EIS shall be included.

[44 FR 64177, Nov. 6, 1979, as amended at 50 FR 26316, June 25, 1985]

§ 6.204 Incorporation by reference.

In addition to 40 CFR 1502.21, material incorporated into an EIS by reference shall be organized to the extent possible into a Supplemental Information Document and be made available for review upon request. No material may be incorporated by reference unless it is reasonably available for inspection by potentially interested persons within the period allowed for comment.

§ 6.205 List of preparers.

When the EIS is prepared by contract, either under direct contract to EPA or through an applicant's or grantee's contractor, the responsible official must independently evaluate the EIS prior to its approval and take responsibility for its scope and contents. The EPA officials who undertake this evaluation shall also be described under the list of preparers.

Subpart C—Coordination With Other Environmental Review and Consultation Requirements

§ 6.300 General.

Various Federal laws and executive orders address specific environmental concerns. The responsible official shall integrate to the greatest practicable extent the applicable procedures in this subpart during the implementation of

the environmental review process under subparts E through I. This subpart presents the central requirements of these laws and executive orders. It refers to the pertinent authority and regulations or guidance that contain the procedures. These laws and executive orders establish review procedures independent of NEPA requirements. The responsible official shall be familiar with any other EPA or appropriate agency procedures implementing these laws and executive orders.

[44 FR 64177, Nov. 6, 1979, as amended at 50 FR 26316, June 25, 1985]

§ 6.301 Landmarks, historical, and archeological sites.

EPA is subject to the requirements of the Historic Sites Act of 1935, 16 U.S.C. 461 *et seq.*, the National Historic Preservation Act of 1966, as amended, 16 U.S.C. 470 *et seq.*, the Archaeological and Historic Preservation Act of 1974, 16 U.S.C. 469 *et seq.*, and Executive Order 11593, entitled "Protection and Enhancement of the Cultural Environment." These statutes, regulations and executive orders establish review procedures independent of NEPA requirements.

(a) *National natural landmarks.* Under the Historic Sites Act of 1935, the Secretary of the Interior is authorized to designate areas as national natural landmarks for listing on the National Registry of Natural Landmarks. In conducting an environmental review of a proposed EPA action, the responsible official shall consider the existence and location of natural landmarks using information provided by the National Park Service pursuant to 36 CFR 62.6(d) to avoid undesirable impacts upon such landmarks.

(b) *Historic, architectural, archeological, and cultural sites.* Under section 106 of the National Historic Preservation Act and Executive Order 11593, if an EPA undertaking affects any property with historic, architectural, archeological or cultural value that is listed on or eligible for listing on the National Register of Historic Places, the responsible official shall comply with the procedures for consultation and comment promulgated by the Advisory Council on Historic Preservation in 36 CFR part 800. The responsible
