with the Secretary of the Interior before making available new expenditures or financial assistance for activities within areas covered by the Coastal Barriers Resources Act in accord with the U.S. Fish and Wildlife Service published guidelines defining new expenditures and financial assistance, and describing procedures for consultation at 48 FR 45664 (October 6, 1983).

(g) *Fish and wildlife protection.* The Fish and Wildlife Coordination Act, 16 U.S.C. 661 *et seq.*, requires Federal agencies involved in actions that will result in the control or structural modification of any natural stream or body of water for any purpose, to take action to protect the fish and wildlife resources which may be affected by the action. The responsible official shall consult with the Fish and Wildlife Service and the appropriate State agency to ascertain the means and measures necessary to mitigate, prevent and compensate for project-related losses of wildlife resources and to enhance the resources. Reports and recommendations of wildlife agencies should be incorporated into the environmental assessment or environmental impact statement. Consultation procedures are detailed in 16 U.S.C. 662.

(h) *Endangered species protection.* Under the Endangered Species Act, 16 U.S.C. 1531 *et seq.*, Federal agencies are prohibited from jeopardizing threatened or endangered species or adversely modifying habitats essential to their survival. The responsible official shall identify all designated endangered or threatened species or their habitat that may be affected by an EPA action. If listed species or their habitat may be affected, formal consultation must be undertaken with the Fish and Wildlife Service or the National Marine Fisheries Service, as appropriate. If the consultation reveals that the EPA activity may jeopardize a listed species or habitat, mitigation measures should be considered. Applicable consultation procedures are found in 50 CFR part 402.

The responsible official shall send to OEA the signed original notice of intent for FEDERAL REGISTER publication purposes. The scoping process should be initiated as soon as practicable in accordance with the requirements of 40 CFR 1501.7. Participants in the scoping process shall be kept informed of substantial changes which evolve during the EIS drafting process.

#### §6.401 Official filing requirements.

(a) *General.* OEA is responsible for the conduct of the official filing system for EISs. This system was established as a central repository for all EISs which serves not only as means of advising the public of the availability of each EIS but provides a uniform method for the computation of minimum time periods for the review of EISs. OEA publishes a weekly notice in the FEDERAL REGISTER listing all EISs received during a given week. The 45-day and 30-day review periods for draft and final EISs, respectively, are computed from the Friday following a given reporting week. Pursuant to 40 CFR 1506.9, responsible officials shall comply with the guidelines established by OEA on the conduct of the filing system.

(b) *Minimum time periods.* No decision on EPA actions shall be made until the later of the following dates:
