

## § 352.2

provision of Federal and contract personnel to offer advice and recommendations for specific aspects of preparedness such as alert and notification and emergency public information.

(m) *Federal facilities and resources* means personnel, property (land, buildings, vehicles, equipment), and operational capabilities controlled by the Federal government related to establishing and maintaining radiological emergency response preparedness.

(n) *Licensee* means the utility which has applied for or has received a license from the NRC to operate a commercial nuclear power plant.

(o) *Reimbursement* means the payment to FEMA/Federal agencies, jointly or severally, by a licensee and State and local governments for assistance and services provided in processing certifications and implementing Federal compensatory assistance under this part 352.

(p) *Host FEMA Regional Office* means the FEMA Regional Office that has primary jurisdiction by virtue of the nuclear power plant being located within its geographic boundaries.

(q) *Command and control* means making and issuing protective action decisions and directing offsite emergency response resources, agencies, and activities.

### § 352.2 Scope, purpose and applicability.

(a) This part applies whenever State or local governments, either individually or together, decline or fail to prepare commercial nuclear power plant offsite radiological emergency preparedness plans that are sufficient to satisfy NRC licensing requirements or to participate adequately in the preparation, demonstration, testing, exercise, or use of such plans. In order to request the assistance provided for in this part, an affected nuclear power plant applicant or licensee shall certify in writing to FEMA that the above situation exists.

(b) The purposes of this part are as follows: (1) To establish policies and procedures for the submission of a licensee certification for Federal assistance under Executive Order 12657; (2) set forth policies and procedures for

## 44 CFR Ch. I (10–1–07 Edition)

FEMA's determination to accept, accept with modification, or reject the licensee certification; (3) establish a framework for providing Federal assistance to licensees; and (4) provide procedures for the review and evaluation of the adequacy of offsite radiological emergency planning and preparedness. Findings and determinations on offsite planning and preparedness made under this part are provided to the NRC for its use in the licensing process.

(c) This part applies only in instances where Executive Order 12657 is used by a licensee and its provisions do not affect the validity of the emergency preparedness developed by the licensee independent of or prior to Executive Order 12657.

### Subpart A—Certifications and Determinations

#### § 352.3 Purpose and scope.

This subpart establishes policies and procedures for submission by a commercial nuclear power plant licensee of a certification for Federal assistance under Executive Order 12657. It contains policies and procedures for FEMA's determinations, with respect to a certification. It establishes a framework for providing Federal assistance to licensees. It also provides procedures for review and evaluation of the adequacy of licensee offsite radiological emergency planning and preparedness.

#### § 352.4 Licensee certification.

(a) A licensee which seeks Federal assistance under this part shall submit a certification to the host FEMA Region Director that a decline or fail situation exists. The certification shall be in the form of a letter from the chief executive officer of the licensee. The contents of this letter shall address the provisions set forth in paragraphs (b) and (c) of this section.

(b) The licensee certification shall delineate why such assistance is needed based on the criteria of decline or fail for the relevant State or local governments.

(c) The licensee certification shall document requests to and responses from the Governor(s) or responsible

local official(s) with respect to the efforts taken by the licensee to secure their participation, cooperation, commitment of resources or timely correction of planning and preparedness failures.

(Approved by the Office of Management and Budget (OMB) under control number 3067-0201)

**§ 352.5 FEMA action on licensee certification.**

(a) Upon receiving a licensee certification, the host Regional Director shall immediately notify FEMA Headquarters of the licensee certification. Within 5 days the host Regional Director shall notify the Governor of an affected State and the chief executive officer of any local government that a certification has been received, and make a copy of the certification available to such persons. Within 10 days, the host Regional Director shall acknowledge in writing the receipt of the certification to the licensee.

(b) Within 15 days of receipt of the certification, the Regional Director shall publish a notice in the FEDERAL REGISTER that a certification from the licensee has been received, and that copies are available at the Regional Office for review and copying in accordance with 44 CFR 5.26.

(c) FEMA Headquarters shall notify the NRC of receipt of the certification and shall request advice from the NRC on whether a decline or fail situation exists.

(d) State and local governments may submit written statements to the host Regional Director outlining their position as to the facts stated in the letter of certification. Such statements shall be submitted to FEMA within 10 days of the date of notification provided to State and local government under § 352.5(a). Any such statements shall be a part of the record and will be considered in arriving at recommendations or determinations made under the provisions of this part.

(e) The host FEMA Regional Office shall provide, after consulting with State and responsible local officials, a recommended determination on whether a decline or fail situation exists to the FEMA Associate Director within 30

days of receipt of the licensee certification.

(f) The FEMA Associate Director shall make a determination on whether a decline or fail situation exists within 45 days of receipt of the licensee certification and shall advise the licensee, NRC, and State and local officials.

(g) The times for actions set out above may be extended up to an aggregate of 30 days by the host Regional Director or Associate Director, as appropriate.

**§ 352.6 FEMA determination on the commitment of Federal facilities and resources.**

(a) A licensee request for Federal facilities and resources shall document the licensee's maximum feasible use of its resources and its efforts to secure the use of State and local government and volunteer resources.

(b) Upon a licensee request for Federal facilities and resources, FEMA headquarters shall notify NRC and request advice from the NRC as to whether the licensee has made maximum use of its resources and the extent to which the licensee has complied with 10 CFR 50.47(c)(1). The host FEMA Regional Director shall make a recommendation to the FEMA Associate Director on whether the provision of these facilities and resources is warranted. The FEMA Associate Director shall make a final determination as to whether Federal facilities and resources are needed.

(c) In making the determination under paragraph (b) of this section, FEMA:

(1) Shall work actively with the licensee, and before relying upon any Federal resources, shall make maximum feasible use of the licensee's own resources, which may include agreements with volunteer organizations and other government entities and agencies; and

(2) Shall assume that, in the event of an actual radiological emergency or disaster, State and local authorities would contribute their full resources and exercise their authorities in accordance with their duties to protect the public and would act generally in conformity with the licensee's radiological emergency preparedness plan.
