§ 640.1 Purpose.

The purpose of this regulation is to adopt NSF procedures to supplement regulations at 40 CFR parts 1500 through 1508 (hereafter referred to as "CEQ regulations").

§ 640.2 Committee on Environmental Matters.

(a) There is established an NSF Committee on Environmental Matters (hereafter referred to as the Committee) to consist of one representative from each directorate. The General Counsel, or his or her designee, shall serve as Chairman. At the discretion of the Chairman and with the concurrence of the Committee, additional members may be appointed.

The Chairman will prepare or, at his or her discretion, coordinate replies to such correspondence.

(c) The Committee shall meet regularly to discuss NSF policies and practices regarding NEPA, and make recommendations on the need for or adequacy of environmental impact assessments or statements.

(d) With respect to actions of NSF, the Committee will:

(2) Revise this list at regular intervals, based on input from the directorates, and send revisions to CEQ.

§ 640.3 Actions requiring an environmental assessment and categorical exclusions.

Paragraph (b) of this section describes various classes of NSF actions that normally require the preparation of an environmental assessment or an EIS, and those classes that are categorically excluded. (Categorical exclusion is defined at 40 CFR 1508.4.) The word "normally" is stressed; there may be individual cases in which specific factors require contrary action. NSF directorates and offices are responsible for identifying situations in which an environmental assessment or an EIS should be prepared even if not normally required by paragraph (b) of this paragraph.

(b) Most NSF awards support individual scientific research projects and are not "major Federal actions significantly affecting the quality of the human environment" except in the sense that the long term effect of the accumulation of human knowledge is likely to affect the quality of the human environment. However, such
