

§ 1139.2

Board may direct in the event an investigation is instituted. In any proceeding involving a proposed rate restructuring which would produce additional net revenue of less than \$1 million the carriers will be required to submit only the data sought in §§1139.2 and 1139.3. Nothing stated in this part shall relieve the carriers of their burden of proof imposed under the Interstate Commerce Act.

§ 1139.2 Traffic study.

(a) The respondents shall submit a traffic study for the most current 12-month calendar year available, which shall be referred to as the "base-calendar year—actual." This year shall be the calendar year that has ended at least 7 months prior to the published effective date of the tariff schedules. If the effective date is less than 7 months following the end of the preceding calendar year, than the second preceding calendar year shall be considered at the "base-calendar year—actual." The study shall include a probability sampling of the actual traffic handled during identical time periods for each study carrier.

(b) The study carriers shall consist of those carriers subject to the requirements for allocation of expenses between line-haul and pickup and delivery services, as provided in Part 1207 of this chapter, Instructions 27 and 9002, which participate in one of the motor carrier industry's Continuous Traffic Studies, and which derive either \$1 million or more in annual operating revenues from this issue traffic or 1 percent or more of the total annual operating revenues of all carriers from the issue traffic. A list of such carriers and the appropriate revenue data shall be submitted to corroborate the selection of the study carriers. "Issue traffic" consists of those shipments on which the freight rates or charges would be affected by the rate proposal.

(c) Respondents shall take a sample of the traffic handled by the study carriers according to acceptable standards of probability sampling principles and practices, and shall explain and evaluate the probability sample from the standpoint of: Purpose, sample design (including explanation of estimation procedure and disclosure of sampling

49 CFR Ch. X (10–1–07 Edition)

errors for derived characteristics), quality control aspects involved in processing and tabulating data and any statistical analysis performed on the sampled data.⁴

(d) For cost and revenue purposes, the "carried" tariff basis shall be used. "Carried" tariff means the issue traffic handled solely by the study carriers, either single-line or interline. Estimates of current revenues applicable to the issue traffic should reflect all rates and charges in effect no later than 45 days prior to the date of tariff filing.

§ 1139.3 Cost study.

(a) The respondents shall submit a cost study. Highway Form B may be used for this purpose. Service unit-costs shall be developed for each individual study carrier, adjusted by size of shipment and length of haul, and shall be applied to respective individual carrier's traffic service units as developed from its traffic study. Operating ratios shall be determined for the issue traffic handled by the study carriers on the "carried" basis by individual weight brackets included within the rate proposal, for: (1) The traffic study year, that is, the "base-calendar year—actual," as hereinbefore defined, (2) a "present proforma year" reflecting conditions prevailing on a date no later than 45 days prior to the date of the tariff filing, and (3) a "restated proforma year" based on conditions anticipated on the effective date of the proposed rates, with a separation indicating projected operating ratios on two bases, namely, "based on current revenues," and "based on proposed revenues". Operating ratios shall also be shown for all other traffic not affected by the rate proposal for the same weight brackets as shown for the issue traffic, but only for the period indicated in paragraph (a)(1) of this section.

(b) In addition to the operating ratios, the cost study shall also be used to develop and provide the revenue-to-cost comparisons required in Appendix

⁴Although not adopted by the Board, attention is called to a staff report, "Guidelines for the Presentation of the Results of Sample Studies," February 1, 1971, available from the Superintendent of Documents.

Surface Transportation Board, DOT

§ 1139.7

I hereto for the same time periods indicated for the operating ratios plus a "restated proforma year" based on constructed revenue need.

(c) For both the operating ratios and the revenue-to-cost comparisons in Appendix I, the "each-to-each" costing method, i.e., the application of each individual study carrier's unit-cost to its traffic service units, applies only to the "base calendar year—actual." The application of possible labor and nonlabor cost increases for the purpose of updating the "base calendar year—actual" cost data may be accomplished by the use of either individual carrier data for each of the study carriers, or the composite carrier data for those study carriers whose revenue from the issue traffic amount to 50 percent or more of their total system revenues for the "base calendar year—actual." The sample values for expenses and revenues shall be expanded to full year values without adjustments to known annual report figures of any carrier.

(d) Where cost studies are developed through the use of computer processing techniques, there shall be submitted a manual application of the costing procedures used for one traffic and cost study carrier (study carrier) in order to demonstrate the procedures by which the computer program distributes the annual report statistics, and applies service unit-costs to each shipment. An illustration of the application of service unit-costs to the applicable traffic service units generated by one single-line sample shipment and by one inter-line sample shipment shall also be submitted. These sample shipments shall be on the "Carried" basis.

§ 1139.4 Revenue need.

Traffic and cost study carrier, i.e., the study carriers, shall submit evidence of the sum of money, in addition to operating expenses, including that needed to attract debt and equity capital, which they require to insure financial stability and the capacity to render service. This evidence shall include data required by Appendix I, parts I and II, and Appendix II.

§ 1139.5 Affiliate data.

Each individual traffic and cost study carrier having transactions with

affiliates, subject to the reporting requirements of schedules 9009-A and 9009-B in the annual report for class I motor carriers, shall submit appropriate data and analyses reflecting the effect on the parent carrier's profits of transactions with affiliates. Such data and analyses shall be adequately supported, and there shall be submitted such underlying data as will permit a reconciliation of these data to the data supplied in the appropriate schedules of each carrier's annual report.

§ 1139.6 Official notice.

The Board will take official notice of all of the proponent carriers' annual and quarterly reports on file with the Board.

§ 1139.7 Service.

The detailed information called for herein shall be in writing and shall be verified by a person or persons having knowledge thereof. The original and 10 copies of each verified statement for the use of the Board shall be filed with the Secretary, Surface Transportation Board, Washington, DC 20423. One copy of each statement shall be sent by first-class mail to each of the regional offices of the Board in the area affected by the proposed increase, where it will be open to public inspection. A copy of each statement shall be mailed by first-class mail to each party of record in the last formal proceeding concerning a general rate increase in the affected area or territory. However, one copy of each statement shall be sent by express mail to any person undertaking to bear the cost. Written request for this expedited service must be made no less than 5 days before the statement is due to be filed with the Board. Otherwise, the service requirements of 49 CFR 1104.12 should be observed. Information with respect to carrier affiliates may be served on the parties in summary form, if so desired. A copy of each statement shall be furnished to any interested person on request.
