## § 1139.7

I hereto for the same time periods indicated for the operating ratios plus a "restated proforma year" based on constructed revenue need.

(c) For both the operating ratios and the revenue-to-cost comparisons in Appendix I, the "each-to-each" costing method, i.e., the application of each individual study carrier's unit-cost to its traffic service units, applies only to the "base calendar year—actual." The application of possible labor and nonlabor cost increases for the purpose of updating the "base calendar year—actual" cost data may be accomplished by the use of either individual carrier data for each of the study carriers, or the composite carrier data for those study carriers whose revenue from the issue traffic amount to 50 percent or more of their total system revenues for the "base calendar year—actual." The sample values for expenses and revenues shall be expanded to full year values without adjustments to known annual report figures of any carrier.

(d) Where cost studies are developed through the use of computer processing techniques, there shall be submitted a manual application of the costing procedures used for one traffic and cost study carrier (study carrier) in order to demonstrate the procedures by which the computer program distributes the annual report statistics, and applies service unit-costs to each shipment. An illustration of the application of service unit-costs to the applicable traffic service units generated by one single-line sample shipment and by one inter-line sample shipment shall also be submitted. These sample shipments shall be on the "Carried" basis.

### § 1139.4 Revenue need.

Traffic and cost study carrier, i.e., the study carriers, shall submit evidence of the sum of money, in addition to operating expenses, including that needed to attract debt and equity capital, which they require to insure financial stability and the capacity to render service. This evidence shall include data required by Appendix I, parts I and II, and Appendix II.

### § 1139.5 Affiliate data.

Each individual traffic and cost study carrier having transactions with

affiliates, subject to the reporting requirements of schedules 9009-A and 9009-B in the annual report for class I motor carriers, shall submit appropriate data and analyses reflecting the effect on the parent carrier's profits of transactions with affiliates. Such data and analyses shall be adequately supported, and there shall be submitted such underlying data as will permit a reconciliation of these data to the data supplied in the appropriate schedules of each carrier's annual report.
