

(1) Carry out written and oral instructions regarding the proper performance of screening duties;

(2) Read English language identification media, credentials, airline tickets, documents, air waybills, invoices, and labels on items normally encountered in the screening process;

(3) Provide direction to and understand and answer questions from English-speaking individuals undergoing screening; and

(4) Write incident reports and statements and log entries into security records in the English language.

(g) At locations outside the United States where the aircraft operator has operational control over a screening function, the aircraft operator may use screeners who do not meet the requirements of paragraph (f) of this section, provided that at least one representative of the aircraft operator who has the ability to functionally read and speak English is present while the aircraft operator's passengers are undergoing security screening. At such locations the aircraft operator may use screeners who are not United States citizens.

§1544.407 New screeners: Training, testing, and knowledge of individuals who perform screening functions.

(a) *Training required.* Before performing screening functions, an individual must have completed initial, recurrent, and appropriate specialized training as specified in this section and the aircraft operator's security program. No aircraft operator may use any screener, screener in charge, or checkpoint security supervisor unless that individual has satisfactorily completed the required training. This paragraph does not prohibit the performance of screening functions during on-the-job training as provided in §1544.409 (b).

(b) *Use of training programs.* Training for screeners must be conducted under programs provided by TSA. Training programs for screeners-in-charge and checkpoint security supervisors must be conducted in accordance with the aircraft operator's security program.

(c) *Classroom instruction.* Each screener must complete at least 40 hours of

classroom instruction or successfully complete a program that TSA determines will train individuals to a level of proficiency equivalent to the level that would be achieved by such classroom instruction.

(d) *Screener readiness test.* Before beginning on-the-job training, a screener trainee must pass the screener readiness test prescribed by TSA.

(e) *On-the-job training and testing.* Each screener must complete at least 60 hours of on-the-job training and must pass an on-the-job training test prescribed by TSA. No aircraft operator may permit a screener trainee to exercise independent judgment as a screener, until the individual passes an on-the-job training test prescribed by TSA.

(f) *Knowledge requirements.* Each aircraft operator must ensure that individuals performing as screeners, screeners-in-charge, and checkpoint security supervisors for the aircraft operator have knowledge of the provisions of this part, the aircraft operator's security program, and applicable Security Directives and Information Circulars to the extent necessary to perform their duties.

(g) *Disclosure of sensitive security information during training.* The aircraft operator may not permit a trainee to have access to sensitive security information during screener training unless a criminal history records check has successfully been completed for that individual in accordance with §1544.229, and the individual has no disqualifying criminal offense.

§1544.409 New screeners: Integrity of screener tests.

(a) *Cheating or other unauthorized conduct.* (1) Except as authorized by the TSA, no person may—

(i) Copy or intentionally remove a test under this part;

(ii) Give to another or receive from another any part or copy of that test;

(iii) Give help on that test to or receive help on that test from any person during the period that the test is being given; or

(iv) Use any material or aid during the period that the test is being given.

(2) No person may take any part of that test on behalf of another person.
