

accessories or is contained in accompanying baggage and meets the criteria in § 23.15.

Personal use means use that is not commercial and is for an individual's own consumption or enjoyment.

Precautionary measures means the actions taken that will be in the best interest of the conservation of the species when there is uncertainty about the status of a species or the impact of trade on the conservation of a species.

Pre-Convention means a specimen that was acquired (removed from the wild or born or propagated in a controlled environment) before the date the provisions of the Convention first applied to the species and that meets the criteria in § 23.45, and any product (including a manufactured item) or derivative made from such specimen.

Primarily commercial purposes means an activity whose noncommercial aspects do not clearly predominate (see § 23.62).

Propagule means a structure, such as a cutting, seed, or spore, which is capable of propagating a plant.

Readily recognizable means any specimen that appears from a visual, physical, scientific, or forensic examination or test; an accompanying document, packaging, mark, or label; or any other circumstances to be a part, product, or derivative of any CITES wildlife or plant, unless such part, product, or derivative is specifically exempt from the provisions of CITES or this part.

Re-export means to send, ship, or carry out of a country any specimen previously imported into that country, whether or not the specimen has been altered since import.

Reservation means the action taken by a Party to inform the Secretariat that it is not bound by the effect of a specific listing (see § 23.21).

Scientific Authority means a governmental or independent scientific institution or entity officially designated by either a Party to implement CITES, or a non-Party to serve the role of a Scientific Authority, including making scientific findings.

Secretariat means the entity designated by the Treaty to perform certain administrative functions (see § 23.84).

Shipment means any CITES specimen in international trade whether for commercial or noncommercial use, including any personal item.

Species means any species, subspecies, hybrid, variety, cultivar, color or morphological variant, or geographically separate population of that species.

Specimen means any wildlife or plant, whether live or dead. This term includes any readily recognizable part, product, or derivative unless otherwise annotated in the Appendices.

Sustainable use means the use of a species in a manner and at a level that maintains wild populations at biologically viable levels for the long term. Such use involves a determination of the productive capacity of the species and its ecosystem to ensure that utilization does not exceed those capacities or the ability of the population to reproduce, maintain itself, and perform its role or function in its ecosystem.

Trade means the same as international trade.

Transit see the definition for *in-transit shipment*.

Traveling exhibition means a display of live or dead wildlife or plants for entertainment, educational, cultural, or other display purposes that is temporarily moving internationally.

§ 23.6 What are the roles of the Management and Scientific Authorities?

Under Article IX of the Treaty, each Party must designate a Management and Scientific Authority to implement CITES for that country. If a non-Party wants to trade with a Party, it must also designate such Authorities. The names and addresses of these offices must be sent to the Secretariat to be included in the Directory. In the United States, different offices within the FWS have been designated the Scientific Authority and Management Authority, which for purposes of this section includes FWS Law Enforcement. When offices share activities, the Management Authority is responsible for dealing primarily with management and regulatory issues and the Scientific Authority is responsible for dealing primarily with scientific issues. The offices do the following:

§ 23.7

50 CFR Ch. I (10–1–07 Edition)

Roles	U.S. Scientific Authority	U.S. Management Authority
(a) Provide scientific advice and recommendations, including advice on biological findings for applications for certain CITES documents, registrations, and export program approvals. Evaluate the conservation status of species to determine if a species listing or change in a listing is warranted. Interpret listings and review nomenclatural issues.	x	
(b) Review applications for CITES documents and issue or deny them based on findings required by CITES.		x
(c) Communicate with the Secretariat and other countries on scientific, administrative, and enforcement issues.	x	x
(d) Ensure that export of Appendix-II specimens is at a level that maintains a species throughout its range at a level consistent with its role in the ecosystems in which it occurs and well above the level at which it might become eligible for inclusion in Appendix I.	x	
(e) Monitor trade in all CITES species and produce annual reports on CITES trade.		x
(f) Collect the cancelled foreign export permit or re-export certificate and any corresponding import permit presented for import of any CITES specimen. Collect a copy of the validated U.S. export permit or re-export certificate presented for export or re-export of any CITES specimen.		x
(g) Produce biennial reports on legislative, regulatory, and administrative measures taken by the United States to enforce the provisions of CITES.		x
(h) Coordinate with State and tribal governments and other Federal agencies on CITES issues, such as the status of native species, development of policies, negotiating positions, and law enforcement activities.	x	x
(i) Communicate with the scientific community, the public, and media about CITES issues. Conduct public meetings and publish notices to gather input from the public on the administration of CITES and the conservation and trade status of domestic and foreign species traded internationally.	x	x
(j) Represent the United States at the meetings of the CoP, on committees (see subpart G of this part), and on CITES working groups. Consult with other countries on CITES issues and the conservation status of species. Prepare discussion papers and proposals for new or amended resolutions and species listings for consideration at the CoP.	x	x
(k) Provide assistance to APHIS and CBP for the enforcement of CITES. Cooperate with enforcement officials to facilitate the exchange of information between enforcement bodies and for training purposes.	x	x
(l) Provide financial and technical assistance to other governmental agencies and CITES officials of other countries.	x	x

§ 23.7 What office do I contact for CITES information?

Contact the following offices to receive information about CITES:

Type of information	Office to contact
(a) <i>CITES administrative and management issues:</i> (1) CITES documents, including application forms and procedures; lists of registered scientific institutions and operations breeding Appendix-I wildlife for commercial purposes; and reservations (2) Information on the CoP (3) List of CITES species (4) Names and addresses of other countries' Management and Scientific Authority offices (5) Notifications, resolutions, and decisions (6) Standing Committee documents and issues (7) State and tribal export programs	U.S. Management Authority U.S. Fish and Wildlife Service 4401 North Fairfax Drive, Room 700 Arlington, Virginia 22203 Toll Free: (800) 358-2104/permit questions Tel: (703) 358-2095/other questions Fax: (703) 358-2281/permits Fax: (703) 358-2298/other issues E-mail: managementauthority@fws.gov Website: http://www.fws.gov/international and http://www.fws.gov/permits
