**§ 648.56 Scallop research.**

(a) Annually, the Council and NMFS shall prepare and issue a Request for Proposals (RFP) that identifies research priorities for projects to be conducted by vessels using research set-aside as specified in §§648.53(b)(3) and 648.60(e).

(b) Proposals submitted in response to the RFP must include the following information, as well as any other specific information required within the RFP: A project summary that includes the project goals and objectives; the relationship of the proposed research to scallop research priorities and/or management needs; project design; participants other than the applicant, funding needs, breakdown of costs, and the vessel(s) for which authorization is requested to conduct research activities.

(c) NMFS shall make the final determination as to what proposals are approved and which vessels are authorized to take scallops in excess of possession limits, utilize DAS set-aside for research, or take additional trips into Access Areas. NMFS shall provide authorization of such activities to specific vessels by letter of acknowledgement, letter of authorization, or Exempted Fishing Permit issued by the Regional Administrator, which must be kept on board the vessel.

(d) Upon completion of scallop research projects approved under this part, researchers must provide the Council and NMFS with a report of research findings, which must include: A detailed description of methods of data collection and analysis; a discussion of results and any relevant conclusions presented in a format that is understandable to a non-technical audience; and a detailed final accounting of all funds used to conduct the sea scallop research.
