

(3) Build these tie-up facilities in water deep enough for nontrailerable recreational vessels to navigate (a minimum of 6 feet of depth at the lowest tide or other measure of lowest fluctuation);

(4) Provide security, safety, and service for these boats; and,

(5) Install a pumpout station, if you construct a facility for overnight stays:

(i) If there is already a pumpout within a reasonable distance (generally within 2 miles) of the facility, you may not need one;

(ii) For facilities intended as day stops, we encourage you to install a pumpout; and,

(iii) You may use funds from the BIG program, or the Clean Vessel Act pumpout grant program also administered by us, to pay for a pumpout station.

(b) Do one-time dredging only, to give transient vessels safe channel depths between the tie-up facility and maintained channels or open water.

(c) Install navigational aids, limited to giving transient vessels safe passage between the tie-up facility and maintained channels or open water.

(d) Apply funds to grant administration.

(e) Fund preliminary costs:

(1) Preliminary costs may include any of the following activities completed before signing a grant agreement:

(i) Conducting appraisals;

(ii) Administering environmental reviews and permitting;

(iii) Conducting technical feasibility studies, for example, studies about environmental, economic, and construction engineering concerns;

(iv) Carrying out site surveys and engaging in site planning;

(v) Preparing cost estimates; and

(vi) Preparing working drawings, construction plans, and specifications.

(2) We will fund preliminary costs only if we approve the project.

(3) If the project is approved, the appropriate Service Regional Director must still approve preliminary costs.

(f) Produce information and education materials such as charts, cruising guides, and brochures.

§ 86.21 What activities are ineligible for funding?

Your project is ineligible for funding if you propose to:

(a) Complete a project that does not provide public benefits, for instance, a project that is not open to the public for use;

(b) Involve law enforcement activities;

(c) Significantly degrade or destroy valuable natural resources or alter the cultural or historic nature of the area;

(d) Construct or renovate principal structures not expected to last at least 20 years;

(e) Do maintenance dredging;

(f) Fund operations or routine, custodial, and janitorial maintenance of the facility;

(g) Construct, renovate, or maintain boating infrastructure tie-up facilities for nontrailerable vessels, for example the following:

(1) Tie-up slips available for occupancy for more than 10 consecutive days by a single party;

(2) Dryland storage;

(3) Haul-out features; and

(4) Boating features for trailerable or "car-top" boats (boats less than 26 feet in length), such as launch ramps and carry-down walkways.

(h) Develop a State program plan to construct, renovate, and maintain boating infrastructure tie-up facilities; and

(i) Conduct surveys to determine boating access needs.

(1) You may conduct the survey with funds allocated to motorboat access to recreational waters under subsection (b)(1) of section 8 of the Federal Aid in Sport Fish Restoration Act of 1950, as amended (16 U.S.C. 777).

(2) You may combine surveys under one contractor where feasible if you can realize a cost or other savings.

Subpart C—Public Use of the Facility

§ 86.30 Must I allow the public to use the grant-funded facilities?

(a) You must allow reasonable access to all recreational vessels for the useful life of the tie-up facilities. Accessible to the public means located where

§ 86.31

the public can reasonably reach the facility and where all boats typical to that facility can easily use it, charging equitable fees, and being open for reasonable periods. You must allow public access to the shore and basic features such as fuel and restrooms in facilities that have them. You must specify precise details of the public access in the contract with the facility manager. We do not require public access to the remainder of a park or marina where the facility is found. Nor do we require any restrictions in that park or marina.

(b) You must comply with Americans with Disabilities Act requirements when you construct or renovate all tie-up facilities under this grant.

§ 86.31 How much money may I charge the public to use tie-up facilities?

You may charge the public only a reasonable fee, based on the prevailing rate in the area. You must determine a fee that does not pose an unreasonable, competitive amount, based on other publicly and privately owned tie-up facilities in the area. You must approve any proposed changes in fee structure by a sub-grantee.

Subpart D—Funding Availability

§ 86.40 How much money is available for grants?

There is \$32 million available for grants under the BIG program (\$8 million per year for fiscal years 2000–2003).

§ 86.41 How long will the money be available?

Under the Act, funding for the BIG program is provided for FY 2000–2003. Each year's funds remain available for obligation for a total of three fiscal years (e.g. FY 2000 funds will remain available through FY 2002) (16 U.S.C. 777c(b)(3)(B)).

§ 86.42 What are the match requirements?

The Act authorizes the Secretary of the Interior (through the Director of the U.S. Fish and Wildlife Service (Service)) to award grants to States to pay up to 75 percent of the cost to con-

50 CFR Ch. I (10–1–07 Edition)

struct, renovate, or maintain tie-up facilities for transient nontrailerable recreational vessels. You or a partner must pay the remaining project cost—at least a 25 percent match is required. Title 43 CFR 12.64 applies to cost sharing or matching requirements for Federal grants.

§ 86.43 May someone else supply the match?

Third-party contribution, including property and in-kind services, is allowable, but must be necessary and reasonable to accomplish grant objectives. In-kind contributions must also represent the current market value of noncash contributions that the third party furnishes as part of the grant.

§ 86.44 What are my allowable costs?

(a) The State may spend grant funds to pay only costs that are necessary and reasonable to accomplish the approved grant objectives. Grant costs must meet the applicable Federal cost principles in 43 CFR 12.62. You may purchase informational and program signs as allowable costs.

(b) If you include purposes other than those eligible under the Act, you must prorate the costs equitably according to Federal cost principles in 43 CFR 12.62 and 50 CFR 80.15.

§ 86.45 When will I receive the funds?

Once you sign the grant agreement, we will make the funds available.

Subpart E—How States Apply for Grants

§ 86.50 When must I apply?

(a) We will accept proposals between February 20, 2001, and May 18, 2001, for the first grant cycle; between July 1, 2001, and September 30, 2001, for the second grant cycle; and between July 1, 2002, and September 30, 2002, for the third grant cycle. This program starts fiscal year 2000 and ends fiscal year 2003. We will have \$16 million to award the first grant cycle, and \$8 million each cycle after that.

(b) The annual schedule follows:
