

Railroad Retirement Board

§ 345.303

balances of individual base year employers. The Board computes this balance, as of June 30 of each year, as follows:

(1) *Step 1.* Compute the aggregate amount of all interest paid by the Account on loans from the Railroad Retirement Account after September 30, 1985, pursuant to section 10(d) of the RUIA, during the 12-month period ending on June 30;

(2) *Step 2.* Add the amount of unemployment benefits paid by reason of strikes or work stoppages growing out of labor disputes and the cumulative benefit balance of any defunct employer;

(3) *Step 3.* Add the aggregate amount of any other benefit payment that is not chargeable to a base year employer pursuant to subpart E of this part and any other expenditure not chargeable to the Fund;

(4) *Step 4.* Subtract the aggregate amount of income to the Account received as a proportionate part of the earnings of the unemployment trust fund, computed in accordance with section 904(e) of the Social Security Act, and all income to the Account received as fines or penalties collected under the RUIA;

(5) *Step 5.* Subtract the aggregate amount of all transfers from the Fund to the Account pursuant to section 11(d) of the RUIA;

(6) *Step 6.* Subtract the aggregate amount of any other cash receipt to the Account that cannot be treated as an adjustment to the benefit charges of a base year employer;

(7) *Step 7.* Subtract the net cumulative contribution balance of any defunct employer, calculated as of the date on which the Board determines that such employer is defunct. After the Board has computed the amount of the system unallocated charge balance as of June 30 of each year, the Board will publish notice of such amount in the FEDERAL REGISTER on or before October 15 of such year.

(q) *Three-year compensation base.* An employer's three-year compensation base as of any given June 30 is the aggregate amount of compensation with respect to which the employer is liable for contributions under this part in the

12 calendar quarters ending on such June 30.

(r) *Unallocated charge.* An employer's unallocated charge as of any given June 30 is the amount that, as of such June 30, bears the same ratio to the system unallocated charge balance as the employer's 1-year compensation base bears to the system compensation base. The system unallocated charge balance is computed under paragraph (p) of this section and the system compensation base under paragraph (o) of this section.

§ 345.303 Computation of rate.

(a) With respect to compensation in a calendar year that begins after December 31, 1992, the Board will compute, by October 15, 1992, and by October 15 of each subsequent year, a contribution rate for each employer (other than a new employer) in accordance with the following 8-step process:

(1) *Step 1.* Compute the employer's *benefit ratio* as of the preceding June 30;

(2) *Step 2.* Compute the employer's *reserve ratio* as of the preceding June 30 and subtract it from the *benefit ratio*;

(3) *Step 3.* Subtract the *pooled credit ratio* (if any) for the calendar year;

(4) *Step 4.* Multiply the Step 3 result by 100, in order to obtain a percentage rate, and then round such rate to the nearest 100th of one percent. If the rate so computed is zero or less than zero, the percentage rate will be deemed zero at this point;

(5) *Step 5.* Add 0.65 (the administrative charge) to the percentage rate computed through Step 4.

(6) *Step 6.* Add the *surcharge rate* (if any) for the calendar year;

(7) *Step 7.* Add the *pooled charge ratio* (if any) for the calendar year, as computed to four decimal places and multiplied by 100;

(8) *Step 8.* If the rate computed through Step 7 is greater than 12 percent (or 12.5 percent if a surcharge of 3.5 percent is in effect for the calendar year), reduce the percentage rate so computed to 12 percent or 12.5 percent, if appropriate.

(b) The percentage rate computed under paragraph (a) of this section is the employer's rate of contribution for the calendar year in question.

§ 345.304

20 CFR Ch. II (4-1-08 Edition)

(c)(1) Any computation that is to be made under this section on the basis of a 12-quarter period ending on a given June 30 shall be made on the basis of a period beginning on January 1, 1990, or on the first day of the first calendar quarter that begins after the date on which the employer first began to pay compensation subject to this part, or on July 1 of the third calendar year preceding that June 30, whichever date is later, and ending on that June 30.

(2) The amount computed under paragraph (c)(1) of this section shall be increased to an amount that bears the same ratio to the amount so computed as 12 bears to the number of calendar quarters on which the computation is based.

§ 345.304 New-employer contribution rates.

(a) An employer whose coverage under the RUIA becomes effective after December 31, 1989, is considered a “new employer” for the purposes of this part and will be assigned a contribution rate as computed under this section. The Board shall determine where an employer is a new employer and, if so, the effective date of its coverage under the RUIA and its rate of contribution with respect to compensation paid to employees on and after such effective date.

(b) *Initial contribution rate.* The rate of contribution with respect to compensation paid in calendar months before the end of the first full calendar year that the employer is subject to this section shall be the average contribution rate paid by all employers during the three calendar years preceding the calendar year before the calendar year in which the compensation is paid. The Board will compute the average contribution rate by dividing the aggregate contributions paid by all employers during those three calendar years by the aggregate compensation with respect to which such contributions were paid and by then multiplying the resulting ratio, as computed to four decimal points, by 100.

(c) *Second contribution rate.* The rate of contribution with respect to compensation paid in months in the second full calendar year shall be the smaller of the maximum contribution limit

under the RUIA or the percentage rate computed as follows:

$$R = \frac{2(A2) + B}{3}$$

(d) *Third contribution rate.* The rate of contribution with respect to compensation paid in months in the third full calendar year shall be the smaller of the maximum contribution limit under the RUIA or the percentage rate computed as follows:

$$R = \frac{A3 + 2C}{3}$$

(e) *Subsequent calendar years.* The rate of contribution with respect to months after the third full calendar year shall be determined under § 345.303 of this part.

(f) *Meaning of symbols.* For the purpose of the formulas in paragraphs (c) and (d) of this section, “R” is the applicable contribution rate being computed; “A2” is the contribution rate that would have been determined under paragraph (b) of this section if the employer’s second calendar year had been its first full calendar year; “A3” is the contribution rate that would have been determined under paragraph (b) of this section, if the employer’s third calendar year had been such employer’s first full calendar year; “B” is the contribution rate for the employer as determined under § 345.303 of this part for the employer’s second full calendar year; and “C” is the contribution rate for the employer as determined under § 345.303 of this part for the employer’s third full calendar year.

(g) *Special rule for certain computations.* For purposes of computing “B” and “C” in the formulas in this section, the percentage rate computed under § 345.303 shall not be reduced under Step 8 of that section; and any computations that, under § 345.303, are to be made on the basis of a 4-quarter or 12-quarter period ending on a given June 30 shall be made on the basis of a period commencing with the first day of the first calendar quarter that begins after the date on which the employer first began paying compensation subject to this part and ending on that June 30, and the amount so computed
