

DETERMINATIONS

§ 404.1503 Who makes disability and blindness determinations.

(a) *State agencies.* State agencies make disability and blindness determinations for the Commissioner for most persons living in the State. State agencies make these disability and blindness determinations under regulations containing performance standards and other administrative requirements relating to the disability and blindness determination function. States have the option of turning the function over to the Federal Government if they no longer want to make disability determinations. Also, the Commissioner may take the function away from any State which has substantially failed to make disability and blindness determinations in accordance with these regulations. Subpart Q of this part contains the rules the States must follow in making disability and blindness determinations.

(b) *Social Security Administration.* The Social Security Administration will make disability and blindness determinations for—

(1) Any person living in a State which is not making for the Commissioner any disability and blindness determinations or which is not making those determinations for the class of claimants to which that person belongs; and

(2) Any person living outside the United States.

(c) *What determinations are authorized.* The Commissioner has authorized the State agencies and the Social Security Administration to make determinations about—

(1) Whether you are disabled or blind;

(2) The date your disability or blindness began; and

(3) The date your disability or blindness stopped.

(d) *Review of State Agency determinations.* On review of a State agency determination or redetermination of disability or blindness we may find that—

(1) You are, or are not, disabled or blind, regardless of what the State agency found;

(2) Your disability or blindness began earlier or later than the date found by the State agency; and

(3) Your disability or blindness stopped earlier or later than the date found by the State agency.

(e) *Initial determinations for mental impairments.* An initial determination by a State agency or the Social Security Administration that you are not disabled (or a Social Security Administration review of a State agency's initial determination), in any case where there is evidence which indicates the existence of a mental impairment, will be made only after every reasonable effort has been made to ensure that a qualified psychiatrist or psychologist has completed the medical portion of the case review and any applicable residual functional capacity assessment. If the services of qualified psychiatrists or psychologists cannot be obtained because of impediments at the State level, the Commissioner may contract directly for the services. In a case where there is evidence of mental and nonmental impairments and a qualified psychologist serves as a psychological consultant, the psychologist will evaluate only the mental impairment, and a physician will evaluate the nonmental impairment.

§ 404.1503a Program integrity.

We will not use in our program any individual or entity, except to provide existing medical evidence, who is currently excluded, suspended, or otherwise barred from participation in the Medicare or Medicaid programs, or any other Federal or Federally-assisted program; whose license to provide health care services is currently revoked or suspended by any State licensing authority pursuant to adequate due process procedures for reasons bearing on professional competence, professional conduct, or financial integrity; or who, until a final determination is made, has surrendered such a license while formal disciplinary proceedings involving professional conduct are pending. By individual or entity we mean a medical or psychological consultant, consultative examination provider, or diagnostic

test facility. Also see §§ 404.1519 and 404.1519g(b).

[56 FR 36954, Aug. 1, 1991]

§ 404.1504 Determinations by other organizations and agencies.

A decision by any nongovernmental agency or any other governmental agency about whether you are disabled or blind is based on its rules and is not our decision about whether you are disabled or blind. We must make a disability or blindness determination based on social security law. Therefore, a determination made by another agency that you are disabled or blind is not binding on us.

DEFINITION OF DISABILITY

§ 404.1505 Basic definition of disability.

(a) The law defines disability as the inability to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months. To meet this definition, you must have a severe impairment(s) that makes you unable to do your past relevant work (see § 404.1560(b)) or any other substantial gainful work that exists in the national economy. If your severe impairment(s) does not meet or medically equal a listing in appendix 1, we will assess your residual functional capacity as provided in §§ 404.1520(e) and 404.1545. (See §§ 404.1520(g)(2) and 404.1562 for an exception to this rule.) We will use this residual functional capacity assessment to determine if you can do your past relevant work. If we find that you cannot do your past relevant work, we will use the same residual functional capacity assessment and your vocational factors of age, education, and work experience to determine if you can do other work. We will use this definition of disability if you are applying for a period of disability, or disability insurance benefits as a disabled worker, or child's insurance benefits based on disability before age 22 or, with respect to disability benefits payable for months after December

1990, as a widow, widower, or surviving divorced spouse.

(b) There are different rules for determining disability for individuals who are statutorily blind. We discuss these in §§ 404.1581 through 404.1587. There are also different rules for determining disability for widows, widowers, and surviving divorced spouses for monthly benefits for months prior to January 1991. We discuss these rules in §§ 404.1577, 404.1578, and 404.1579.

[45 FR 55584, Aug. 20, 1980, as amended at 51 FR 10616, Mar. 28, 1986; 57 FR 30120, July 8, 1992; 68 FR 51161, Aug. 26, 2003]

§ 404.1506 When we will not consider your impairment.

(a) *Permanent exclusion of felony-related impairment.* In determining whether you are under a disability, we will not consider any physical or mental impairment, or any increase in severity (aggravation) of a preexisting impairment, which arises in connection with your commission of a felony after October 19, 1980, if you are subsequently convicted of this crime. Your subsequent conviction will invalidate any prior determination establishing disability if that determination was based upon any impairment, or aggravation, which we must exclude under this rule.

(b) *Limited use of impairment arising in prison.* In determining whether you are under a disability for purposes of benefit payments, we will not consider any physical or mental impairment, or any increase in severity (aggravation) of a preexisting impairment, which arises in connection with your confinement in a jail, prison, or other penal institution or correctional facility for conviction of a felony committed after October 19, 1980. The exclusion of the impairment, or aggravation, applies in determining disability for benefits payable for any month during which you are confined. This rule does not preclude the establishment of a period of disability based upon the impairment or aggravation. You may become entitled to benefits upon release from prison provided that you apply and are under a disability at the time.

(c) *Felonious offenses.* We will consider an offense a felony if—
