

§ 416.907

will not consider you disabled. We discuss our rules for determining disability in children who file new applications in §§ 416.924 through 416.924b and §§ 416.925 through 416.926a.

[62 FR 6421, Feb. 11, 1997, as amended at 65 FR 54777, Sept. 11, 2000]

§ 416.907 Disability under a State plan.

You will also be considered disabled for payment of supplemental security income benefits if—

(a) You were found to be permanently and totally disabled as defined under a State plan approved under title XIV or XVI of the Social Security Act, as in effect for October 1972;

(b) You received aid under the State plan because of your disability for the month of December 1973 and for at least one month before July 1973; and

(c) You continue to be disabled as defined under the State plan.

§ 416.908 What is needed to show an impairment.

If you are not doing substantial gainful activity, we always look first at your physical or mental impairment(s) to determine whether you are disabled or blind. Your impairment must result from anatomical, physiological, or psychological abnormalities which can be shown by medically acceptable clinical and laboratory diagnostic techniques. A physical or mental impairment must be established by medical evidence consisting of signs, symptoms, and laboratory findings, not only by your statement of symptoms (see § 416.927). (See § 416.928 for further information about what we mean by symptoms, signs, and laboratory findings.)

[45 FR 55621, Aug. 20, 1980, as amended at 56 FR 36963, Aug. 1, 1991]

§ 416.909 How long the impairment must last.

Unless your impairment is expected to result in death, it must have lasted or must be expected to last for a continuous period of at least 12 months. We call this the duration requirement.

§ 416.910 Meaning of substantial gainful activity.

Substantial gainful activity means work that—

20 CFR Ch. III (4–1–08 Edition)

(a) Involves doing significant and productive physical or mental duties; and

(b) Is done (or intended) for pay or profit.

(See § 416.972 for further details about what we mean by substantial gainful activity.)

§ 416.911 Definition of disabling impairment.

(a) If you are an adult:

(1) A disabling impairment is an impairment (or combination of impairments) which, of itself, is so severe that it meets or equals a set of criteria in the Listing of Impairments in appendix 1 of subpart P of part 404 of this chapter or which, when considered with your age, education and work experience, would result in a finding that you are disabled under § 416.994, unless the disability redetermination rules in § 416.987(b) apply to you.

(2) If the disability redetermination rules in § 416.987 apply to you, a disabling impairment is an impairment or combination of impairments that meets the requirements in §§ 416.920 (c) through (f).

(b) If you are a child, a disabling impairment is an impairment (or combination of impairments) that causes marked and severe functional limitations. This means that the impairment or combination of impairments:

(1) Must meet, medically equal, or functionally equal the listings, or

(2) Would result in a finding that you are disabled under § 416.994a.

(c) In determining whether you have a disabling impairment, earnings are not considered.

[62 FR 6421, Feb. 11, 1997, as amended at 65 FR 54777, Sept. 11, 2000]

EVIDENCE

§ 416.912 Evidence.

(a) *General.* In general, you have to prove to us that you are blind or disabled. This means that you must furnish medical and other evidence that we can use to reach conclusions about your medical impairment(s). If material to the determination whether you are blind or disabled, medical and other evidence must be furnished about the effects of your impairment(s) on
