

§276.7

25 CFR Ch. I (4-1-08 Edition)

the Federal Government or purchased in whole or in part with Federal funds, shall be handled in accordance with §276.11.

(c) Royalties received from copyrights and patents produced under the grant during the grant period shall be retained by the grantee and, in accordance with the grant agreement, be either added to the funds already committed to the program or deducted from total allowable project costs for the purpose of determining the net costs on which the Bureau share of costs will be based. After termination or completion of the grant, the Bureau share of royalties in excess of \$200 received annually shall be returned to the Bureau in the absence of other specific agreements between the Bureau and the grantee. The Bureau share of royalties shall be computed on the same ratio basis as the Bureau share of the total project cost.

(d) All other program income earned during the grant period shall be retained by the grantee and, in accordance with the grant agreement, shall be either:

(1) Added to funds committed to the project by the Bureau and the grantee and be used to further eligible program objectives, or

(2) Deducted from the total project costs for the purpose of determining the net costs on which the Bureau share of costs will be based.

(e) Grantees shall record the receipt and expenditures of revenues (such as taxes, special assessments, levies, fines, etc.) as a part of grant project transactions when such revenues are specifically earmarked for a grant project in accordance with grant agreements.

§276.7 Standards for grantee financial management systems.

(a) Grantee financial management systems for grants and subgrantee financial management systems for subgrants shall provide for:

(1) Accurate, current, and complete disclosure of the financial results of each grant program in accordance with Federal reporting requirements and for each subgrant in accordance with the grantees' requirements. Except when specifically required by law, the Bu-

reau will not require financial reporting on the accrual basis from tribal organizations whose records are not maintained on that basis. However, when accrual reporting is required by law, tribal organizations whose records are not maintained on that basis will not be required to convert their accounting systems to the accrual basis; they may develop the accrual information through an analysis of the documentation on hand or on the basis of best estimates.

(2) Records which identify adequately the source and application of funds for grant—or subgrant—supported activities. These records shall contain information pertaining to grant or subgrant awards and authorizations, obligations, unobligated balances, assets, liabilities, outlays, and income.

(3) Effective control over and accountability for all grant or subgrant funds, and real and personal property acquired with grant or subgrant funds. Grantees and subgrantees shall adequately safeguard all such property and shall assure that it is used solely for authorized purposes.

(4) Comparison of actual with budgeted amounts for each grant or subgrant, and, when specifically required by the performance reporting requirements of the grant or subgrant, relation of financial information with performance or productivity data, including the production of unit cost information.

(5) Procedures to minimize the time elapsing between the transfer of funds from the U.S. Treasury and the disbursement by the grantee, whenever funds are advanced by the Federal Government. When advances are made by a letter-of-credit method, the grantees shall make drawdowns from the U.S. Treasury as close as possible to the time of making the disbursements. Subgrantees shall institute similar procedures when funds are advanced by the grantee.

(6) Procedures for determining the allowability and allocability of costs shall be in accordance with the applicable cost principles prescribed in appendix A of this part.

(7) Accounting records which are supported by source documentation.

Bureau of Indian Affairs, Interior

§ 276.10

(8) A systematic method to assure timely and appropriate resolution of audit findings and recommendations.

(b) Grantees shall require sub-grantees (recipients of grants which are passed through by the grantee) to adopt all of the standards in paragraph (a) of this section.

§ 276.8 Financial reporting requirements.

Requirements for grantees to report financial information to the Bureau, and to request advances and reimbursement when a letter of credit method is not used, are prescribed in appendix B of this part.

§ 276.9 Monitoring and reporting program performances.

(a) Grantees shall constantly monitor the performance under grant-supported activities to assure that adequate progress is being made toward achieving the goals of the grant. This review shall be made for each program, function, or activity of each grant as set forth in the approved grant application.

(b) Grantees shall submit a performance report for each grant which briefly presents the following for each program, function, or activity involved:

(1) A comparison of actual accomplishments to the goals established for the period. Where the output of grant programs can be readily quantified, such quantitative data should be related to cost data for computation of unit costs.

(2) Reasons for slippage in those cases where established goals were not met.

(3) Other pertinent information including, when appropriate, analysis and explanation of cost overruns or high unit costs.

(c) Grantees shall submit the performance reports to the Bureau with the Financial Status Reports (prescribed in appendix B of this part) in the frequency established by appendix B. The Bureau shall prescribe the frequency with which the performance reports will be submitted with the Request for Advance or Reimbursement (prescribed in appendix B) when that form is used in lieu of the Financial Status Report. In no case shall the per-

formance reports be required more frequently than quarterly or less frequently than annually.

(d) Between the required performance reporting dates, events may occur which have significant impact upon the project or program. In such cases, the grantee shall inform the Bureau as soon as the following types of conditions become known:

(1) Problems, delays, or adverse conditions which will materially affect the ability to attain program objectives, prevent the meeting of time schedules and goals, or preclude the attainment of project work units by established time periods. This disclosure shall be accomplished by a statement of the action taken, or contemplated, and any Bureau assistance needed to resolve the situation.

(2) Favorable developments or events which enable meeting time schedules and goals sooner than anticipated or producing more work units than originally projected.

(e) If any performance review conducted by the grantee discloses the need for change in the budget estimates in accordance with the criteria established in § 276.14, the grantee shall submit a request for budget revision.

(f) The bureau shall make site visits as frequently as practicable to:

(1) Review program accomplishments and management control systems.

(2) Provide such technical assistance as may be required, or requested.

§ 276.10 Grant payment requirements.

(a) Except for construction grants for which the letter-of-credit method is optional, the letter-of-credit funding method shall be used by the Bureau where all of the following conditions exist:

(1) When there is or will be a continuing relationship between a grantee and the Bureau for at least a 12-month period and the total amount of advances to be received within that period from the Bureau is \$120,000, or more, as prescribed by Treasury Circular No. 1075.

(2) When the grantee has established or demonstrated to the Bureau the willingness and ability to establish procedures that will minimize the time
