

(iv) *Limit on taxable income under this paragraph (g)(2).* For periods before January 1, 2000, Z has a taxable loss attributable to the fast-pay arrangement of \$29,553 under the recharacterization of Notice 97-21 and paragraph (g)(2)(i)(A) of this section, and a taxable loss of \$29,594 under the recharacterization of paragraphs (c) and (g)(2)(i)(B) of this section. Thus, under paragraph (g)(2)(i) of this section, Z may report a taxable loss attributable to the fast-pay arrangement for periods before January 1, 2000, of either \$29,553 or \$29,594. Under paragraph (g)(2)(ii), Z has no adjustment to its taxable income for its taxable year that includes January 1, 2000.

(3) *Rule to comply with this section.* To comply with this section for each taxable year in which it failed to do so, a taxpayer should file an amended return. For taxable years ending before January 10, 2000, a taxpayer that has complied with Notice 97-21, 1997-1 C.B. 407 (see §601.601(d)(2) of this chapter), for all such taxable years is considered to have complied with this section and limited its taxable income under paragraph (g)(2)(i)(A) of this section.

(4) *Reporting requirements.* The reporting requirements of paragraph (f) of this section apply to taxable years (of the person required to file the statement) ending after January 10, 2000.

 - (e) Terminally ill defined.
 - (f) Certain other additional benefits.
 - (1) In general.
 - (2) Examples.
 - (g) Adjustments under section 7702(f)(7).
 - (h) Cash surrender value.
 - (1) In general.
 - (2) For purposes of section 7702(f)(7).
 - (i) Net surrender value.
 - (j) Effective date and special rules.
 - (1) In general.
 - (2) Provision of certain benefits before July 1, 1993.
 - (i) Not treated as cash value.
 - (ii) No effect on date of issuance.
 - (iii) Special rule for addition of benefit or loan provision after December 15, 1992.
 - (3) Addition of qualified accelerated death benefit.
 - (4) Addition of other additional benefits.

[T.D. 9287, 71 FR 53970, Sept. 13, 2006]

§ 1.7702-2 Attained age of the insured under a life insurance contract.

(a) *In general.* This section provides guidance on determining the attained age of an insured under a contract that is a life insurance contract under the applicable law, for purposes of determining the guideline level premium of the contract under section 7702(c)(4), applying the cash value corridor of section 7702(d) or applying the computational rules of section 7702(e), as applicable.

(b) *Contract insuring a single life.* (1) If a contract insures the life of a single individual, either of the following two ages may be treated as the attained age of the insured with respect to that contract—

(i) The insured's age determined by reference to the individual's actual birthday as of the date of determination (actual age); or

(ii) The insured's age determined by reference to contract anniversary (rather than the individual's actual birthday), so long as the age assumed under the contract (contract age) is within 12 months of the actual age as of that date.

(2) Once determined under paragraph (b)(1) of this section, the attained age with respect to an individual insured under a contract changes annually. Moreover, the same attained age must be used for purposes of applying sections 7702(c)(4), 7702(d), and 7702(e), as applicable.

(c) *Contract insuring multiple lives on a last-to-die basis*—(1) *In general.* Except as provided in paragraph (c)(2) of this section, if a contract insures the lives of more than one individual on a last-to-die basis, the attained age of the insured is determined by applying paragraph (b) of this section as if the youngest individual were the only insured under the contract for purposes of sections 7702(c)(4), 7702(d), and 7702(e), as applicable.

(2) *Modifications to cash value and future mortality charges upon the death of insured.* If both the cash value and future mortality charges under a contract change by reason of the death of one or more insureds to no longer take into account the attained age of the deceased insured or insureds, the youngest surviving insured shall thereafter be treated as the only insured under the contract.

(d) *Contract insuring multiple lives on a first-to-die basis.* If a contract insures the lives of more than one individual on a first-to-die basis, the attained age of the insured is determined by applying paragraph (b) of this section as if the oldest individual were the only insured under the contract for purposes of sections 7702(c)(4), 7702(d), and 7702(e), as applicable.

(e) *Examples.* The following examples illustrate the determination of the attained age of the insured for purposes of sections 7702(c)(4), 7702(d), and 7702(e), as applicable. The examples are as follows:

Example 1. (i) X was born on May 1, 1947. X became 60 years old on May 1, 2007. On January 1, 2008, X purchases from IC a contract insuring X's life. January 1 is the contract anniversary date for all future years. IC determines X's annual premiums on an age-last-birthday basis. Based on the method used by IC to determine age, X has an attained age of 60 for the first contract year, 61 for the second contract year, and so on.

(ii) Section 1.7702-2(b)(1) permits the determination of attained age under either of two alternative approaches. Section 1.7702-2(b)(1)(i) provides that, if a contract insures the life of a single insured individual, the attained age may be determined by reference to the individual's actual birthday as of the date of determination. Under this provision, X has an attained age of 60 for the first contract year, 61 for the second contract year, and so on. Alternatively, § 1.7702-2(b)(1)(ii) provides that the insured's age may be determined by reference to contract anniversary (rather than the individual's actual birthday), so long as the age assumed under the contract is within 12 months of the actual age as of that date. If IC determines X's attained age under § 1.7702-2(b)(1)(ii), X likewise has an attained age of 60 for the first contract year, 61 for the second contract year, and so on. Whichever provision IC uses to determine X's attained age must be used consistently from year to year for purposes of sections 7702(c)(4), 7702(d), and 7702(e), as applicable.

Example 2. (i) The facts are the same as in *Example 1* except that, under the contract, X's annual premiums are determined on an age-nearest-birthday basis. X's nearest birthday to January 1, 2008, is May 1, 2008, when X will become 61 years old. Based on the method used by IC to determine age, X has an attained age of 61 for the first contract year, 62 for the second contract year, and so on.

(ii) Section 1.7702-2(b)(1) permits the determination of attained age under either of two alternative approaches. Section 1.7702-2(b)(1)(i) provides that, if a contract insures the life of a single insured individual, the attained age may be determined by reference to the individual's actual birthday as of the date of determination. Under this provision, X has an attained age of 60 for the first contract year, 61 for the second contract year, and so on. Alternatively, § 1.7702-2(b)(1)(ii) provides that the insured's age may be determined by reference to contract anniversary

(rather than the individual's actual birthday), so long as the age assumed under the contract is within 12 months of the actual age as of that date. If IC determines X's attained age under §1.7702-2(b)(1)(ii), X has an attained age of 61 for the first contract year, 62 for the second contract year, and so on. Whichever provision IC uses to determine X's attained age must be used consistently from year to year for purposes of sections 7702(c)(4), 7702(d), and 7702(e), as applicable.

Example 3. (i) The facts are the same as in *Example 1* except that the face amount of the contract is increased on May 15, 2011. During the contract year beginning January 1, 2011, the age assumed under the contract on an age-last-birthday basis is 63 years. However, X has an actual age of 64 as of the date the face amount of the contract is increased.

(ii) Section 1.7702-2(b)(1)(ii) provides that the insured's age may be determined by reference to contract anniversary (rather than the individual's actual birthday), so long as the age assumed under the contract is within 12 months of the actual age. Section 1.7702-2(b)(2) provides that, once determined under paragraph (b)(1) of this section, the attained age with respect to an individual insured under a contract changes annually. Accordingly, X continues to be 63 years old throughout the contract year beginning January 1, 2011, for purposes of sections 7702(c)(4), 7702(d), and 7702(e), as applicable.

Example 4. (i) The facts are the same as in *Example 1* except that in addition to X (born in 1947), the insurance contract also insures the life of Y, born on September 1, 1942. The death benefit will be paid when the second of the two insureds dies.

(ii) Section 1.7702-2(c)(1) provides that if a life insurance contract insures the lives of more than one individual on a last-to-die basis, the attained age of the insured is determined by applying §1.7702-2(b) as if the youngest individual were the only insured under the contract. Because X is younger than Y, the attained age of X must be used for purposes of sections 7702(c)(4), 7702(d), and 7702(e), as applicable.

Example 5. (i) The facts are the same as *Example 4* except that X (the younger of the two insureds) dies in 2012. After X's death, both the cash value and mortality charges of the life insurance contract are adjusted to take into account only the life of Y.

(ii) Section 1.7702-2(c)(1) provides that if a life insurance contract insures the lives of more than one individual on a last-to-die basis, the attained age of the insured is determined by applying §1.7702-2(b) as if the youngest individual were the only insured under the contract. Paragraph (c)(2) of this section provides that if both the cash value and future mortality charges under a contract change by reason of the death of an insured to no longer take into account the attained age of the deceased insured, the

youngest surviving insured is thereafter treated as the only insured under the contract. Because both the cash value and mortality charges are adjusted after X's death to take into account only the life of Y, only the attained age of Y is taken into account after X's death for purposes of sections 7702(c)(4), 7702(d), and 7702(e), as applicable.

Example 6. (i) The facts are the same as *Example 1* except that in addition to X (born in 1947), the insurance contract also insures the life of Z, born on September 1, 1952. The death benefit will be paid when the first of the two insureds dies.

(ii) Section 1.7702-2(d) provides that if a life insurance contract insures the lives of more than one individual on a first-to-die basis, the attained age of the insured is determined by applying §1.7702-2(b) as if the oldest individual were the only insured under the contract. Because X is older than Z, the attained age of X must be used for purposes of sections 7702(c)(4), 7702(d), and 7702(e), as applicable.

(f) *Effective dates—(1) In general.* Except as provided in paragraph (f)(2) of this section, these regulations apply to all life insurance contracts that are either—

- (i) Issued after December 31, 2008; or
- (ii) Issued on or after October 1, 2007 and based upon the 2001 CSO tables.

(2) *Contracts issued before the general effective date.* Pursuant to section 7805(b)(7), a taxpayer may apply these regulations retroactively for contracts issued before October 1, 2007, provided that the taxpayer does not later determine qualification of those contracts in a manner that is inconsistent with these regulations.

[T.D. 9287, 71 FR 53970, Sept. 13, 2006]

§ 1.7702B-1 Consumer protection provisions.

(a) *In general.* Under sections 7702B(b)(1)(F), 7702B(g), and 4980C, qualified long-term care insurance contracts and issuers of those contracts are required to satisfy certain provisions of the Long-Term Care Insurance Model Act (Model Act) and Long-Term Care Insurance Model Regulation (Model Regulation) promulgated by the National Association of Insurance Commissioners (NAIC), as adopted as of January 1993. The requirements for qualified long-term care insurance contracts under section 7702B(b)(1)(F) and (g) relate to guaranteed renewal or
