

§ 1.9005-1 Election relating to the determination of gross income from the property for taxable years beginning prior to 1961 in the case of clay and quartzite used in making refractory products.

(a) *In general.* Section 2 of the Act of September 26, 1961 (Pub. L. 87-321, 75 Stat. 683), provides that certain taxpayers may elect to apply the provisions of such section to all taxable years beginning before January 1, 1961, with respect to which the election is effective. Section 2 of the Act prescribes special rules for the application of section 613(c) of the Internal Revenue Code of 1954 (and corresponding provisions of the Internal Revenue Code of 1939) in the case of quartzite and clay used by the mine owner or operator in the production of refractory products.

(b) *Election.* The election to apply the provisions of section 2 of the Act may be made only in the case of quartzite and clay used in the production of products generally recognized as refractory products by the refractories industry. Examples of such products are clay firebrick, silica brick, and refractory bonding mortars. The election may be made only by a taxpayer who both mined the clay or quartzite and used it in the production of refractory products. The election must be made in accordance with § 1.9005-4 on or before February 14, 1962, and the election shall become irrevocable on that date.

(c) *Years to which the election is applicable.* If the election described in paragraph (b) of this section is made by the taxpayer, the provisions of section 2 of the Act shall be effective on and after January 1, 1951, for all taxable years beginning before January 1, 1961, in respect of which the:

- (1) Assessment of a deficiency,
- (2) Refund or credit of an overpayment, or
- (3) Commencement of a suit for recovery of a refund under section 7405 of the Internal Revenue Code of 1954,

was not prevented on September 26, 1961, by the operation of any law or rule of law. The election is also effective on and after January 1, 1951, for any taxable year beginning before January 1, 1961, in respect of which an assessment of a deficiency has been made

but not collected on or before September 26, 1961.

(Sec. 2(f), 76 Stat. 683, 26 U.S.C. 613 note)

[T.D. 6583, 26 FR 12078, Dec. 16, 1961]

§ 1.9005-2 Effect of election.

(a) *In general.* If a taxpayer makes the election described in paragraph (b) of § 1.9005-1, he shall be deemed to have consented to the application of section 2 of the Act with respect to all the clay and quartzite described in that paragraph for all taxable years for which the election is effective whether or not the taxpayer is litigating the issue for any of such years. Thus, in applying section 613(c) of the Internal Revenue Code of 1954 (and corresponding provisions of the Internal Revenue Code of 1939) to those years:

(1) The term "ordinary treatment processes" shall include crushing, grinding, and separating the mineral from waste, but shall not include any subsequent process; and

(2) The gross income from mining for each short ton of quartzite or clay mined by the taxpayer and used by him in the production of all refractory products sold during the taxable year shall be equal to 87½ percent of the lesser of:

- (i) The average lowest published or advertised price, or
- (ii) The average lowest actual selling price at which the mine owner or operator offered to sell or sold any such quartzite or clay during the taxable year.

(b) *Rules for applying paragraph (a) of this section.* (1) The price described in paragraph (a)(2) of this section and any price described in this paragraph shall be determined with reference to quartzite or clay in the form and condition of such products after the application of only the processes described in paragraph (a)(1) of this section and before transportation from the plant in which such processes were applied.

(2) If quartzite and clay were mined and used by the taxpayer in the production of refractory products, a separate price shall be used with respect to each mineral.

(3) There shall be used for each mineral the lowest price at which it was sold or offered for sale by the taxpayer
