§ 19.732 Details of daily records.

The daily records required by this part shall conform to the following requirements:

(a) Spirits shall be recorded by kind and by quantity in proof gallons, except as provided in § 19.751.

(b) Denatured spirits shall be recorded by formula number and by quantity in wine gallons.

(c) Distilling materials produced on the premises shall be recorded by kind and by quantity in wine gallons. Chemical byproducts containing spirits, articles, spirits residues, and distilling materials received on the premises shall be recorded by kind, by percent of alcohol by volume, and by quantity in wine gallons. However, when nonliquid distilling materials which are not susceptible to such quantitative determination are received, the quantity of such materials may be determined by weight and shall be so recorded, and the alcohol content need not be recorded. When it can be shown that it is impractical to weigh or otherwise determine the exact quantity of such nonliquid materials, the proprietor may estimate the weight or volume of the material.
