

Federal Reserve System

Pt. 229, App. A

provide the disclosure described in paragraph (a) of this section to a consumer customer who receives paid original checks or paid substitute checks with his or her periodic account statement—

(i) No later than the first regularly scheduled communication with the consumer after October 28, 2004, for each consumer who is a customer of the bank on that date; and

(ii) At the time the customer relationship is initiated, for each customer relationship established after October 28, 2004.

(2) *Disclosure to consumers who receive substitute checks on an occasional basis—*

(i) The bank shall provide the disclosure described in paragraph (a) of this section to a consumer customer of the bank who requests an original check or a copy of a check and receives a substitute check. If feasible, the bank shall provide this disclosure at the time of the consumer's request; otherwise, the bank shall provide this disclosure no later than the time at which the bank provides a substitute check in response to the consumer's request.

(ii) The bank shall provide the disclosure described in paragraph (a) of this section to a consumer customer of the bank who receives a returned substitute check, at the time the bank provides such substitute check.

(3) *Multiple account holders.* A bank need not give separate disclosures to each customer on a jointly held account.

§ 229.58 Mode of delivery of information.

A bank may deliver any notice or other information that it is required to provide under this subpart by United States mail or by any other means through which the recipient has agreed to receive account information. If a bank is required to provide an original check or a sufficient copy, the bank instead may provide an electronic image of the original check or sufficient copy if the recipient has agreed to receive that information electronically.

§ 229.59 Relation to other law.

The Check 21 Act and this subpart supersede any provision of federal or state law, including the Uniform Com-

mercial Code, that is inconsistent with the Check 21 Act or this subpart, but only to the extent of the inconsistency.

§ 229.60 Variation by agreement.

Any provision of § 229.55 may be varied by agreement of the banks involved. No other provision of this subpart may be varied by agreement by any person or persons.

APPENDIX A TO PART 229—ROUTING NUMBER GUIDE TO NEXT-DAY AVAILABILITY CHECKS AND LOCAL CHECKS

A. Each bank is assigned a routing number by an agent of the American Bankers Association. The routing number takes two forms: a fractional form and a nine-digit form. A paying bank generally is identified on the face of a check by its routing number in both the fractional form (which generally appears in the upper right-hand corner of the check) and the nine-digit form (which is printed in magnetic ink along the bottom of the check). Where a check is payable by one bank but payable through another bank, the routing number appearing on the check is that of the payable-through bank, not the payor bank.

B. The first four digits of the nine-digit routing number (and the denominator of the fractional routing number) form the "Federal Reserve routing symbol," and the first two digits of the routing number identify the Federal Reserve District in which the bank is located. Thus, 01 will be the first two digits of the routing number of a bank in the First Federal Reserve District (Boston), and 12 will be the first two digits of the routing number of a bank in the Twelfth District (San Francisco). Adding 2 to the first digit denotes a thrift institution. Thus, 21 identifies a thrift in the First District, and 32 denotes a thrift in the Twelfth District.

C. Each Federal Reserve check processing office is listed below, followed by the Federal Reserve routing symbols of the banks that are located within the check-processing region served by that office. Because some check processing regions cross Federal Reserve District lines, there are some cases in which banks in different Federal Reserve Districts are located in the same check-processing region and therefore considered local to each other. For example, banks in Fairfield County, Connecticut are located in Second District and have Second District routing numbers (0211 or 2211), but the Windsor Locks office of the First District processes the checks of these banks. Thus, as indicated below, checks drawn on banks with 0211 or 2211 routing numbers would be local for First District banks served by the Windsor Locks

²Adding 2 to the first digit denotes a thrift institution. For example, 21 identifies a thrift in the First District, and 32 denotes a thrift in the Twelfth District.

³Banks in Fairfield County, Connecticut, are members of the Federal Reserve Bank of New York and therefore have Second District routing numbers. Their checks, however, are processed by the Windsor Locks office. Thus, checks drawn on banks with 0211 or 2211 routing numbers would not be local checks for Second District depository banks.
