§ 741.0 Scope.

The provisions of this part apply to federal credit unions, federally insured state-chartered credit unions, and credit unions making application for insurance of accounts pursuant to Title II of the Act, unless the context of a provision indicates its application is otherwise limited. This part prescribes various requirements for obtaining and maintaining federal insurance and the payment of insurance premiums and capitalization deposit. Subpart A of this part contains substantive requirements that are not codified elsewhere in this chapter. Subpart B of this part lists additional regulations, set forth elsewhere in this chapter as applying to federal credit unions, that also apply to federally insured state-chartered credit unions. As used in this part, “insured credit union” means a credit union whose accounts are insured by the National Credit Union Share Insurance Fund (NCUSIF).

Subpart A—Regulations That Apply to Both Federal Credit Unions and Federally Insured State-Chartered Credit Unions and That Are Not Codified Elsewhere in NCUA's Regulations

§ 741.1 Examination.

As provided in Sections 201 and 204 of the Act (12 U.S.C. 1781 and 1784), the NCUA Board is authorized to examine any insured credit union or any credit union making application for insurance of its accounts. Such examination may require access to all records, reports, contracts to which the credit union is a party, and information concerning

the affairs of the credit union. Upon request, such documentation must be provided to the NCUA Board or its representative. Any credit union which makes application for insurance will be required to pay the cost of such examination and processing. To the maximum extent feasible, the NCUA Board will utilize examinations conducted by state regulatory agencies.

§ 741.2 Maximum borrowing authority.

(a) Any credit union which makes application for insurance of its accounts pursuant to Title II of the Act, or any insured credit union, must not borrow, from any source, an aggregate amount in excess of 50 per centum of its paid-in and unimpaired capital and surplus (shares and undivided earnings, plus net income or minus net loss).

(b) A federally insured state-chartered credit union may apply to the regional director for a waiver of paragraph (a) of this section up to the amount permitted under the applicable state law or by the state regulator. The waiver request must include:

(1) Written approval from the state regulator;

(2) A detailed analysis of the safety and soundness implications of the proposed waiver;

(3) A proposed aggregate dollar amount or percentage of paid-in and unimpaired capital and surplus limitation; and

(4) An explanation demonstrating the need to raise the limit.

(c) The regional director will approve the waiver request if the proposed borrowing limit will not adversely affect the safety and soundness of the federally insured state-chartered credit union.

§ 741.3 Criteria.

In determining the insurability of a credit union which makes application for insurance and in continuing the insurability of its accounts pursuant to Title II of the Act, the following criteria shall be applied:

(a) *Reserves*—(1) *General rule.* State-chartered credit unions are subject to section 216 of the Act, 12 U.S.C. 1790d,

and to part 702 and subpart L of part 747 of this chapter.

(2) *Special reserve for nonconforming investments.* State-chartered credit unions (except state-chartered corporate credit unions) are required to establish an additional special reserve for investments if those credit unions are permitted by their respective state laws to make investments beyond those authorized in the Act or the NCUA Rules and Regulations. For any investment other than loans to members and obligations or securities expressly authorized in Title I of the Act and part 703 of this chapter, as amended, state-chartered credit unions (except state-chartered corporate credit unions) are required to establish and maintain at the end of each accounting period and prior to payment of any dividend, an Appropriation for Non-conforming Investments in an amount at least equal to the net excess of book value over current market value of the investments. If the market value cannot be determined, an amount equal to the full book value will be established. When at the end of any dividend period, the amount in the Appropriation for Non-conforming Investments exceeds the difference between book value and market value, the board of directors may authorize the transfer of the excess to Undivided Earnings.

(b) *Financial condition and policies.* The following factors are to be considered in determining whether the credit union's financial condition and policies are both safe and sound:

(1) The existence of unfavorable trends which may include excessive losses on loans (i.e., losses which exceed the regular reserve or its equivalent [in the case of state-chartered credit unions] plus other irrevocable reserves established as a contingency against losses on loans), the presence of special reserve accounts used specifically for charging off loan balances of deceased borrowers, and an expense ratio so high that the required transfers to reserves create a net operating loss for the period or that the net gain after these transfers is not sufficient to permit the payment of a nominal dividend;
