

§ 121.403

13 CFR Ch. I (1–1–08 Edition)

A procurement is usually classified according to the component which accounts for the greatest percentage of contract value. Procurements for supplies must be classified under the appropriate manufacturing NAICS code, not under the wholesale trade NAICS code.

(c) The NAICS code assigned to a procurement and its corresponding size standard is final unless timely appealed to SBA's Office of Hearings and Appeals (OHA), or unless SBA assigns an NAICS code or size standard as provided in paragraph (d) of this section.

(d) An unclear, incomplete or missing NAICS code designation or size standard in the solicitation may be clarified, completed or supplied by SBA in connection with a formal size determination or size appeal.

(e) Any offeror or other interested party adversely affected by an NAICS code designation or size standard designation may appeal the designations to OHA under part 134 of this chapter.

§ 121.403 Are SBA size determinations and NAICS code designations binding on parties?

Formal size determinations and NAICS code designations made by authorized SBA officials are binding upon the parties. Opinions otherwise provided by SBA officials to contracting officers or others are advisory in nature, and are not binding or appealable.

§ 121.404 When does SBA determine the size status of a business concern?

(a) SBA determines the size status of a concern, including its affiliates, as of the date the concern submits a written self-certification that it is small to the procuring activity as part of its initial offer (or other formal response to a solicitation) which includes price. Where an agency modifies a solicitation so that initial offers are no longer responsive to the solicitation, a concern must recertify that it is a small business at the time it submits a responsive offer,

which includes price, to the modified solicitation.

(b) A concern applying to be certified as a Participant in SBA's 8(a) Business Development program (under part 124, subpart A, of this chapter), as a small disadvantaged business (under part 124, subpart B, of this chapter), or as a HUBZone small business (under part 126 of this chapter) must qualify as a small business for its primary industry classification as of the date of its application and the date of certification by SBA.

(c) The size status of an applicant for a Certificate of Competency (COC) relating to an unrestricted procurement is determined as of the date of the concern's application for the COC.

(d) Size status for purposes of compliance with the nonmanufacturer rule set forth in § 121.406(b)(1) and the ostensible subcontractor rule set forth in § 121.103(h)(4) is determined as of the date of the final proposal revision for negotiated acquisitions and final bid for sealed bidding.

(e) For subcontracting purposes, a concern must qualify as small as of the date that it certifies that it is small for the subcontract. The applicable size standard is that which is set forth in § 121.410 and which is in effect at the time the concern self-certifies that it is small for the subcontract.

(f) For purposes of two-step sealed bidding under subpart 14.5 of the FAR, 48 CFR, a concern must qualify as small as of the date that it certifies that it is small as part of its step one proposal.

(g) A concern that qualified as a small business at the time it receives a contract is considered a small business throughout the life of that contract. Where a concern grows to be other than small, the procuring agency may exercise options and still count the award as an award to a small business. However, the following exceptions apply:

(1) Within 30 days of an approved contract novation, a contractor must recertify its small business size status to the procuring agency, or inform the procuring agency that it is other than small. If the contractor is other than small, the agency can no longer count the options or orders issued pursuant

to the contract, from that point forward, towards its small business goals.

(2) In the case of a merger or acquisition, where contract novation is not required, the contractor must, within 30 days of the transaction becoming final, recertify its small business size status to the procuring agency, or inform the procuring agency that it is other than small. If the contractor is other than small, the agency can no longer count the options or orders issued pursuant to the contract, from that point forward, towards its small business goals. The agency and the contractor must immediately revise all applicable Federal contract databases to reflect the new size status.

(3) For the purposes of contracts with durations of more than five years (including options), including Multiple Award Schedule (MAS) Contracts, Multiple Agency Contracts (MACs) and Government-wide Acquisition Contracts (GWACs), a contracting officer must request that a business concern re-certify its small business size status no more than 120 days prior to the end of the fifth year of the contract, and no more than 120 days prior to exercising any option thereafter. If the contractor certifies that it is other than small, the agency can no longer count the options or orders issued pursuant to the contract towards its small business prime contracting goals. The agency and the contractor must immediately revise all applicable Federal contract databases to reflect the new size status.

(i) A business concern that certified itself as other than small, either initially or prior to an option being exercised, may recertify itself as small for a subsequent option period if it meets the applicable size standard.

(ii) Re-certification does not change the terms and conditions of the contract. The limitations on subcontracting, non-manufacturer and subcontracting plan requirements in effect at the time of contract award remain in effect throughout the life of the contract.

(iii) A request for a size re-certification shall include the size standard in effect at the time of re-certification that corresponds to the NAICS code

that that was initially assigned to the contract.

(iv) A contracting officer must assign a NAICS code and size standard to each order under a long-term contract. The NAICS code and size standard assigned to an order must correspond to a NAICS code and size standard assigned to the underlying long-term contract. A concern will be considered small for that order only if it certified itself as small under the same or lower size standard.

(v) Where the contracting officer explicitly requires concerns to recertify their size status in response to a solicitation for an order, SBA will determine size as of the date the concern submits its self-representation as part of its response to the solicitation for the order.

(vi) A Blanket Purchase Agreement (BPA) is not a contract. Goods and services are acquired under a BPA when an order is issued. Thus, a concern's size may not be determined based on its size at the time of a response to a solicitation for a BPA.

(h) A follow-on or renewal contract is a new contracting action. As such, size is determined as of the date the concern submits a written self-certification that it is small to the procuring agency as part of its initial offer including price for the follow-on or renewal contract.

§ 121.405 May a business concern self-certify its small business size status?

(a) A concern must self-certify it is small under the size standard specified in the solicitation, or as clarified, completed or supplied by SBA pursuant to § 121.402(d).

(b) A contracting officer may accept a concern's self-certification as true for the particular procurement involved in the absence of a written protest by other offerors or other credible information which causes the contracting officer or SBA to question the size of the concern.

(c) Procedures for protesting the self-certification of an offeror are set forth in §§ 121.1001 through 121.1009.
