

full amount of the erroneous contribution. Any earnings attributable to the erroneous contribution will be removed from the participant's account and used to offset TSP administrative expenses;

(4) If the erroneous contribution has been in the participant's account for less than one year when the negative adjustment record is posted, and the amount computed under paragraph (c) of this section is less than the amount of the adjustment, the employing agency will receive the amount of the erroneous contribution reduced by the investment loss; and

(5) An employing agency's obligation to submit negative adjustment records to remove erroneous contributions from a participant's account is not affected by the length of time the contributions have been in the account.

(f)(1) If multiple negative adjustments for the same attributable pay date for a participant are posted on the same business day, the amount removed from the participant's account and used to offset TSP administrative expenses, or returned to the employing agency, will be determined separately for each adjustment. Earnings and losses for erroneous contributions made on different dates will not be netted against each other. In addition, for a negative adjustment for any attributable pay date, gains and losses from different sources of contributions or different TSP Funds will not be netted against each other. Instead, for each attributable pay date each source of contributions and each TSP Fund will be treated separately for purposes of these calculations. The amount computed by applying the rules in this section will be removed from the participant's account pro rata from all funds, by source, based on the allocation of the participant's account among the TSP Funds when the transaction is posted; and

(2) If there is insufficient money in the same source of contributions to cover the amount to be removed or the amount of the requested adjustment, the negative adjustment record will be rejected.

§ 1605.13 Back pay awards and other retroactive pay adjustments.

(a) *Participant not employed.* The following rules apply to participants who receive a back pay award or other retroactive pay adjustment for a period during which the participant was separated from Government employment:

(1) If the participant is reinstated to Government employment, immediately upon reinstatement the employing agency must give the participant the opportunity to submit a contribution election to make current contributions. The contribution election will be effective as soon as administratively feasible, but no later than the first day of the first full pay period after it is received;

(2) The employing agency must give the participant the following options for electing makeup contributions:

(i) If the participant had a contribution election on file when he or she separated, upon the participant's reinstatement to Government employment, that election will be reinstated for purposes of the makeup contributions; or

(ii) Instead of making contributions for the period of separation in accordance with the reinstated contribution election, the participant may submit a new contribution election if he or she would have been eligible to make such an election but for the erroneous separation.

(3) All contributions made under this paragraph (a) and associated breakage will be invested according to the participant's contribution allocation on the posting date. Breakage will be calculated using the G Fund share prices in accordance with § 1605.2 unless otherwise required by the employing agency or the court or other tribunal with jurisdiction over the back pay case.

(b) *Participant employed.* The following rules apply to participants who receive a back pay award or other retroactive pay adjustment for a period during which the participant was not separated from Government employment:

(1) The participant will be entitled to make up contributions for the period covered by the back pay award or retroactive pay adjustment only if for that period—

(i) The participant had designated a percentage of basic pay to be contributed to the TSP; or

(ii) The participant had designated a dollar amount of contributions each pay period which equaled the applicable ceiling (FERS or CSRS) on contributions per pay period, and which, therefore, was limited as a result of the reduction in pay that is made up by the back pay award or other retroactive pay adjustment;

(2) The employing agency must compute the amount of additional employee contributions, agency matching contributions, and agency automatic (1%) contributions that would have been contributed to the participant's account had the reduction in pay leading to the back pay award or other retroactive pay adjustment not occurred; and

(3) All contributions under this paragraph (b) and associated breakage will be posted to the participant's account based on the participant's contribution allocation on the posting date. Breakage will be calculated in accordance with §1605.2.

(c) *Contributions to be deducted before payment or other retroactive pay adjustment.* Employee makeup contributions required under paragraphs (a) and (b) of this section:

(1) Must be computed before the back pay award or other retroactive pay adjustment is paid, deducted from the back pay or other retroactive pay adjustment, and submitted to the TSP record keeper;

(2) Must not cause the participant to exceed the annual contribution limit(s) contained in sections 402(g) and 415(c) of the I.R.C. (26 U.S.C. 402(g) and 415(c)) for the year(s) with respect to which the contributions are being made, taking into consideration the TSP contributions already made in (or with respect to) that year; and

(3) Must be accompanied by attributable agency matching contributions. In any event, regardless of whether a participant elects to make up employee contributions, the employing agency must make all appropriate agency automatic (1%) contributions associated with the back pay award or other retroactive pay adjustment.

(d) *Prior withdrawal of TSP account.* If a participant has withdrawn his or her TSP account other than by purchasing an annuity, and the separation from Federal service upon which the withdrawal was based is reversed, resulting in reinstatement of the participant without a break in service, the participant will have the option to restore the amount withdrawn to his or her TSP account. The right to restore the withdrawn funds will expire if the participant does not notify the Board within 90 days of reinstatement. If the participant returns the funds that were withdrawn, the number of shares purchased will be determined by using the share price of the applicable investment fund on the posting date. Restored funds will not incur breakage.

(e) Participants who are covered by paragraph (d) of this section and who elect to return funds that were withdrawn may also elect to reinstate a loan which was previously declared to be a taxable distribution.

§ 1605.14 Misclassified retirement system coverage.

(a) If a CSRS participant is misclassified by an employing agency as a FERS participant, when the misclassification is corrected:

(1) Employee contributions that exceed the applicable contribution percentage for the pay period(s) involved may remain in the participant's account. The participant may request the return of excess employee contributions made on or after January 1, 2000; those contributed before January 1, 2000, must remain in the participant's account. If the participant requests a refund of employee contributions, the employing agency must submit a negative adjustment record to remove these funds under the procedure described in §1605.12.

(2) The TSP will forfeit all agency contributions that were made to a CSRS participant's account. An employing agency may submit a negative adjustment record to request the return of an erroneous contribution that has been in the participant's account for less than one year.
