

## § 1410.9

section, cropland is considered eligible for enrollment according §1410.6(b)(10) based on identified environmental concerns. These concerns may include water quality, such as assisting agricultural producers to comply with nonpoint source pollution requirements, air quality, or wildlife habitat (especially for threatened and endangered species or those species that may become threatened and endangered), as determined by the Deputy Administrator.

### § 1410.9 Conversion to trees.

An owner or operator who has entered into a CRP contract prior to November 28, 1990, may elect to convert areas of highly erodible cropland, subject to such contract, that is devoted to permanent vegetative cover, from such cover to hardwood trees, (including alley cropping and riparian buffers of hardwood trees, where permitted by CCC), windbreaks, shelterbelts, or wildlife corridors.

(a) For any contract modified under this section, the participant may elect to extend such contract in accordance with the provisions of §1410.7(b).

(b) For any contract modified under this section in which such areas are converted to windbreaks, shelterbelts, or wildlife corridors, the owner must agree to maintain such plantings for a time period established by the Deputy Administrator at the time of the contract modification.

(c) CCC shall, as it determines appropriate, pay up to 50 percent of the eligible cost of establishing new conservation measures authorized under this section, except that the total cost-share paid under such contract, including cost-share assistance paid when the original cover was established, may not exceed the amount by which CCC would have paid had such land been originally devoted to such new conservation measures.

(d) For any contract modified under this section, the participant must participate in the Forest Stewardship Program (16 U.S.C. 2103a).

### § 1410.10 Restoration of wetlands.

(a) An owner or operator who entered into a CRP contract on land that is suitable for restoration to wetlands or

## 7 CFR Ch. XIV (1-1-08 Edition)

that was restored to wetlands while under such contract, may, if approved by CCC, subject to any restrictions as may be imposed by law, apply to transfer such eligible acres subject to such contract that are devoted to an approved cover from the CRP to the WRP. Transferred acreage shall be terminated from the CRP effective the day a WRP easement is filed. Participants will receive a prorated CRP annual payment for that part of the year the acreage was enrolled in the CRP according to §1410.42. Refunds of cost-share payments or applicable incentive payments need not be refunded unless specified by the Deputy Administrator.

(b) An owner or operator who has enrolled acreage in the CRP may, as determined and approved by CCC, restore suitable acres to wetlands with cost-share assistance provided that Federal cost-share assistance has not been received for wetland restoration on the same land. In addition to the cost-share limitation in §1410.41, an additional one-time financial incentive may be provided to encourage restoration of the hydrology of the site.

### § 1410.11 Farmable Wetlands Program.

(a) In addition to other allowable enrollments, land may be enrolled in this program through the Farmable Wetlands Program within the overall Conservation Reserve Program provided for in this part.

(b) As determined by the Deputy Administrator, owners and/or operators may enroll cropland that has been planted or considered planted to an agricultural commodity, as defined in §1410.2 in three of the ten most recent crop years, provided that the cropland:

(1) Is a wetland, including a converted wetland, as determined by CCC, that does not exceed the size limitations of this section; and

(2) Subject to other provisions of this section, is buffer acreage that provides protection for and is contiguous to the wetland.

(c) An owner or operator may not enroll in this program any wetland, or land in a flood plain, that:

(1) Is located adjacent to a perennial riverine system wetland as identified on the final national wetland inventory

**Commodity Credit Corporation, USDA**

**§ 1410.12**

map of the Department of the Interior; or

(2) Is located adjacent to a perennial stream identified on a 1-24,000 scale map of the United States Geological Survey, when the area is not delineated on a final national wetland inventory map.

(d) Total enrollment in the CRP under this section shall not exceed 1 million acres.

(e) The maximum size of a wetland enrolled under this section shall be 10 contiguous acres of which only the first 5 acres shall be eligible for payments.

(f) The maximum size of any buffer acreage described in paragraph (b)(2)(ii) of this section shall be the greater of:

(1) An area three times the size of the wetland described in paragraph (b)(1) of this section; or

(2) An area that continues no more than 150 feet from the edge of the wetland.

(g) The maximum total acreage enrolled in the CRP under this section, including any wetland and buffer acreage described in paragraph (b)(2) of this section, in a tract, as determined by the Deputy Administrator, of an owner or operator, is 40 acres.

(h) All participants subject to a CRP contract under this section must agree to restore the hydrology of the wetland described in paragraph (b)(1) of this section to the maximum extent possible, as determined by the Deputy Administrator, in accordance with the FOTG.

(i) Offers for contracts under this section shall be submitted under continuous signup provisions as authorized in §1410.30.

(j) Except as otherwise determined by the Deputy Administrator, all other requirements of this part shall apply to enrollments under this section, and the Deputy Administrator by contract or otherwise may add such other requirements or conditions as are deemed necessary. Such additional conditions include but are not limited to payment limitations, adjusted gross income limitations, and limitations on the amount of acreage that can be enrolled in any one county.

**§ 1410.12 Emergency Forestry Program.**

(a) In addition to other allowable enrollments, certain non-industrial private forest land located in Presidential- or Secretarial-declared primary disaster counties that suffered damage from hurricanes in calendar year 2005 may be enrolled through the Emergency Forestry Conservation Reserve Program (EFCRP) provided for in this section.

(b) Owners and/or operators may enroll non-industrial private forest land, as defined in §1410.2, in the CRP provided that the private non-industrial forest land:

(1) Has merchantable timber (timber on land on which the average tree has a trunk diameter of at least six inches measured at a point no less than four and one-half feet above the ground); and

(2) Has experienced a loss of 35 percent or more of merchantable timber in a 2005 calendar year hurricane-affected county due to 2005 hurricanes.

(c) The provisions of §1410.4 do not apply to this section.

(d) Any overall acreage enrollment limit imposed on CRP shall not apply to acreage enrolled under this section.

(e) All participants subject to a CRP contract entered into pursuant to this section must agree:

(1) To restore the land, through site preparation and planting of, to the maximum extent practicable, native species or similar species as existing prior to hurricane damages as may be specified in the contract, and comply with other requirements as may be specified in the contract;

(2) To establish temporary vegetative cover; and

(3) That the contract term shall be for a period of 10 years, during which time standing timber may not be harvested from the enrolled land except as may be approved by CCC in the conservation plan as part of the normal maintenance of the forest land.

(f) Offers for contracts under this section shall be submitted under continuous signup provisions as authorized in §1410.30.

(g) In evaluating contract offers to which this section applies, different factors, as determined by CCC, may be
