

(c) NRCS retains approval authority over the certification of technical assistance done by non-NRCS personnel.

(d) NRCS retains approval authority of the conservation stewardship contracts and contract payments.

(e) Conservation stewardship plans will be developed by NRCS certified conservation planners.

### Subpart B—Contracts and Payments

#### § 1469.20 Application for contracts.

(a) Applications must include:

(1) A completed self-assessment workbook;

(2) Benchmark condition inventory and conservation stewardship plan in accordance with §1469.7 for the eligible land uses on the entire operation or, if Tier I, for the portion being enrolled;

(3) Any other requirements specified in the sign-up notice;

(4) For Tier I, clear indication of which acres the applicant wishes to enroll in the CSP; and,

(5) A certification that the applicant will agree to meet the relevant contract requirements outlined in the sign-up notice.

(b) Producers who are members of a joint operation, trust, estate, association, partnership or similar organization must file a single application for the joint operation or organization.

(c) Producers can submit only one application per sign-up.

(d) Participants can only have one active contract at any one time.

#### § 1469.21 Contract requirements.

(a) To receive payments, each participant must enter into a conservation stewardship contract and comply with its provisions. Among other provisions, the participant agrees to maintain at least the level of stewardship identified in the benchmark inventory for the portion of land being enrolled for the entire contract period, as appropriate, and implement and maintain any new practices or activities required in the contract.

(b) Program participants will only receive payments from one conservation stewardship contract.

(c) CSP participants must address the following requirements or addi-

tional resource concerns to the minimum level of treatment by the end of their conservation stewardship contract:

(1) Tier I contract requirement: additional practices and activities as included by the applicant in the conservation stewardship plan and approved by NRCS, over the part of the agricultural operation enrolled in CSP.

(2) Tier II contract requirements:

(i) Address an additional locally significant resource concern, as described in section III of the NRCS FOTG over the entire agricultural operation. Applicants may satisfy this requirement by demonstrating that the locally significant resource concern is not applicable to their operation or that they have already addressed it in accordance with NRCS'; quality criteria; and

(ii) Additional practices and activities as included by the applicant in the conservation stewardship plan and approved by NRCS, over the entire agricultural operation, where applicable.

(3) Tier III contract requirement: additional practices and activities as included by the applicant in the conservation stewardship plan and approved by NRCS, over the entire agricultural operation, where applicable.

(d) *Transition to a higher tier of participation.* (1) Upon agreement by NRCS and the participant, a conservation stewardship contract may include provisions that lead to a higher tier of participation during the contract period. Such a transition does not require a contract modification if that transition is laid out in the schedule of contract activities. In the event that such a transition begins with Tier I, only the land area in the agricultural operation that meets the requirements for enrollment in Tier I can be enrolled in the contract until the transition occurs. Upon transition from Tier I to a higher tier of participation, the entire agricultural operation must be incorporated into the contract. All requirements applicable to the higher tier of participation would then apply. NRCS will calculate all stewardship, existing practice, new practice payments, and enhancement payments using the applicable enrolled acreage at the time of the payment.
