

Federal Crop Insurance Corporation, USDA

§ 407.1

this endorsement, except the Late Planting Agreement Option. Written agreements are not available for any crop insured under this endorsement.

(b) Notwithstanding any provision contained in any other crop policy, hail and fire coverage and high-risk land may not be excluded under catastrophic risk protection.

12. Eligibility for Other USDA Program Benefits

(a) Even if it was a crop of economic significance for the previous crop year, if you do not intend to plant the crop in the current crop year, you do not have to obtain crop insurance or execute a waiver of your eligibility for any emergency crop loss assistance in connection with the crop to remain eligible for the USDA program benefits specified in subsection (e). However, if, after the sales closing date, you plant that crop, you will be unable to obtain insurance for that crop and you must execute a waiver of your eligibility for emergency crop loss assistance in connection with the crop to remain eligible for the USDA program benefits specified in section 12(e). Failure to execute such a waiver will require you to refund any benefits already received under a program specified in section 12(e).

(b) You are initially responsible to determine the crops of economic significance in the county. The insurance provider may assist you in making these initial determinations. However, these determinations will not be binding on the insurance provider. To determine the percentage value of each crop:

(1) Multiply the acres planted to the crop, times your share, times the approved yield, and times the price;

(2) Add the values of all crops grown by the producer in the county; and

(3) Divide the value of the specific crop by the result of section 12(b)(2).

(c) You may use the type of price such as the current local market price, futures price, established price, highest amount of insurance, etc., for the price when calculating the value of each crop, provided that you use the same type of price for all crops in the county.

(d) You may be required to justify the calculation and provide adequate records to enable the insurance provider to verify whether a crop is of economic significance.

(e) You must obtain at least catastrophic coverage for each crop of economic significance in the county in which you have an insurable share, if insurance is available in the county for the crop, unless you execute a waiver of any eligibility for emergency crop loss assistance in connection with the crop to be eligible for:

(1) Benefits under the Agricultural Market Transition Act;

(2) Loans or any other USDA provided farm credit, including: guaranteed and direct farm

ownership loans, operating loans, and emergency loans under the Consolidated Farm and Rural Development Act provided after October 13, 1994; and

(3) Benefits under the Conservation Reserve Program derived from any new or amended application or contracts executed after October 13, 1994.

(f) Failure to comply with all provisions of the policy constitutes a breach of contract and may result in ineligibility for certain other farm program benefits for that crop year and any benefit already received must be refunded. If you breach the insurance contract, the execution of a waiver of any eligibility for emergency crop loss assistance will not be effective for the crop year in which the breach occurs.
