

Agricultural Marketing Service, USDA

§ 983.38

(k) To submit to the Secretary such available information as the Secretary may request;

(l) To investigate compliance with the provisions of this part;

(m) To provide, through communication to producers and handlers, information regarding the activities of the committee and to respond to industry inquiries about committee activities;

(n) To oversee the collection of assessments levied under this part;

(o) To borrow such funds, subject to the approval of the Secretary and not to exceed the expected expenses of one fiscal year, as are necessary for administering its responsibilities and obligations under this part.

MARKETING POLICY

§ 983.37 Marketing policy.

Prior to August 1st each year, the committee shall prepare and submit to the Secretary a report setting forth its recommended marketing policy covering quality regulations for the pending crop. In the event it becomes advisable to modify such policy, because of changed crop conditions, the committee shall formulate a new policy and shall submit a report thereon to the Secretary. In developing the marketing policy, the committee shall give consideration to the production, harvesting, processing and storage conditions of that crop. The committee may also give consideration to current prices being received and the probable general level of prices to be received for pistachios by producers and handlers. Notice of the committee's marketing policy, and of any modifications thereof, shall be given promptly by reasonable publicity, to producers and handlers.

REGULATIONS

§ 983.38 Aflatoxin levels.

(a) *Maximum level.* No handler shall ship for domestic human consumption, pistachios that exceed an aflatoxin level of more than 15 ppb. All shipments must also be covered by an aflatoxin inspection certificate. Pistachios that fail to meet the aflatoxin requirements shall be disposed in such

manner as described in Failed lots/rework procedure of this part.

(b) *Change in level.* The committee may recommend to the Secretary changes in the aflatoxin level specified in this section. If the Secretary finds on the basis of such recommendation or other information that such an adjustment of the aflatoxin level would tend to effectuate the declared policy of the Act, such change shall be made accordingly.

(c) *Transfers between handlers.* Transfers between handlers within the production area are exempt from the aflatoxin regulation of this section.

(d) *Aflatoxin testing procedures.* To obtain an aflatoxin inspection certificate, each lot to be certified shall be uniquely identified, be traceable from testing through shipment by the handler and be subjected to the following:

(1) *Samples for testing.* Prior to testing, a sample shall be drawn from each lot and divided between those pistachios for aflatoxin testing and those for minimum quality testing ("lot samples") in sufficient weight to comply with Table 1, Table 2 and Table 4 of this part.

(2) *Test samples for aflatoxin.* Prior to submission of samples to an accredited laboratory for aflatoxin analysis, three samples shall be created equally from the pistachios designated for aflatoxin testing in compliance with the requirements of Tables 1 and 2 of this paragraph (d)(2) ("test samples"). The test samples shall be prepared by, or under the supervision of, an inspector, or as approved under an alternative USDA-recognized inspection program. The test samples shall be designated by an inspector as Test Sample #1, Test Sample #2, and Test Sample #3. Each sample shall be placed in a suitable container, with the lot number clearly identified, and then submitted to an accredited laboratory. The gross weight of the inshell lot sample for aflatoxin testing and the number of samplings required are shown in the following Table 1. The gross weight of the kernel lot sample for aflatoxin testing and the number of incremental samples required is shown in the following Table 2 of this paragraph.
