

§ 989.55

7 CFR Ch. IX (1-1-08 Edition)

year's supply with the prior year's shipments. This offer shall be allocated to handlers on the basis of their prior year's acquisitions. The second offer, to provide for market expansion, shall consist of a quantity equal to 10 percent of the prior year's (or the alternative year selected by the Committee pursuant to paragraph (a) of this section) shipments of free tonnage and reserve tonnage sold for free use. This offer shall be allocated to handlers on the basis of their prior year's shipments of free tonnage and reserve tonnage sold for free use. Each offer shall be open to handlers not more than five business days, and subsequently, two offers of any tonnage unsold in the original offers open not more than two business days each, may be made. The reoffer tonnage shall be allocated to handlers who purchase 100 percent of their allocation in preceding offers, and shall be on the basis of the quantity each handler purchased, as a percentage of the total quantity purchased by all handlers eligible to participate. At the close of the second reoffer, any remaining tonnage may be offered to handlers who purchased all of their allocations from previous offers on a first-come first-served basis and such offer shall be open to handlers for one business day. Any handler who had no shipments or acquisitions of raisins during the prior crop year will be allocated raisins under these offers on the basis of his acquisition (up to the time the original offer is made) of raisins in the current crop year. If field prices are not established, the offer shall be made not more than fifteen days following such establishment. The price of reserve tonnage raisins offered to handlers to sell as free tonnage, pursuant to this paragraph, shall be the established field price for free tonnage raisins of that varietal type, plus 3 percent of the established field price, plus the estimated costs incurred by the Committee for equity holders.

(h) *Publicity.* The Committee shall promptly give reasonable publicity to producers, dehydrators, handlers, and the cooperative bargaining association(s) of each meeting to consider a marketing policy or any modification thereof, and each such meeting shall be open to them. Similar publicity shall

be given to producers, dehydrators, handlers, and the cooperative bargaining association(s) of each marketing policy report or modification thereof, filed with the Secretary and of the Secretary's action thereon. Copies of all marketing policy reports shall be maintained in the office of the Committee, where they shall be made available for examination by any producer, dehydrator, handler, or cooperative bargaining association representative. The Committee shall notify handlers, dehydrators and the cooperative bargaining association(s), and give reasonable publicity to producers of its computation of the trade demand, preliminary percentages, and interim percentages and shall notify handlers, dehydrators, and the cooperative bargaining association(s) of the Secretary's action on percentages by registered or certified mail.

[48 FR 32976, July 20, 1983, as amended at 50 FR 1831, Jan. 14, 1985; 54 FR 24670, June 9, 1989]

EFFECTIVE DATE NOTES: 1. At 54 FR 24670, June 9, 1989, in § 989.54, in paragraph (a), the sentences, "The desirable carryout shall be increased from 45,000 to 60,000 tons for Natural (sun-dried) Seedless raisins at a rate of 5,000 tons per year for the three crop years following the effective date of this amended subpart. The desirable carryout for Dipped Seedless raisins shall be 1,500 tons, and for Oleate and Related Seedless raisins 1,500 tons." were suspended indefinitely, effective July 10, 1989.

2. At 62 FR 50484, Sept. 26, 1997, in paragraph (g), the words "On or before November 15 of the crop year" and "simultaneous" in the first sentence were suspended indefinitely, effective Sept. 29, 1997.

§ 989.55 Regulation by the Secretary.

Whenever the Secretary finds, from the recommendation and supporting information supplied by the Committee or from other available information, that to designate final free and reserve percentages for any varietal type of standard raisins acquired by handlers, during the crop year will tend to effectuate the declared policy of the Act, the Secretary shall designate such percentages. In the event the Secretary finds that suspension or termination of any percentages computed by the Committee or designated by the Secretary tend to effectuate the declared policy

Agricultural Marketing Service, USDA

§ 989.58

of the Act, the Secretary shall suspend or terminate such percentages.

[48 FR 32977, July 20, 1983]

§ 989.56 Raisin diversion program.

(a) *Announcement of program.* On or before November 30 of each crop year, the committee shall hold a meeting to review production data, supply data, demand data, including anticipated demand to all potential market outlets, desirable carryout inventory, and other matters relating to the quantity of raisins of all varietal types. When the committee determines that raisins exist in the reserve pool in excess of projected market needs for any varietal type, it may announce the amount of such tonnage eligible for diversion during the subsequent crop year. At the same time, the committee shall determine and announce to producers, handlers, and the cooperative bargaining association(s) the allowable harvest cost to be applicable to such diversion tonnage. A production cap of 2.75 tons of raisins per acre shall be established for any production unit approved for participation in a diversion program. The committee, with the approval of the Secretary, may recommend, at the same time that the diversion tonnage for that season is announced, a change in the production cap for that season's diversion program of less than 2.75 tons per acre for any production unit approved for the diversion program.

(b) *Voluntary diversion.* No producer shall be required to participate in any raisin diversion program.

(c) *Issuance of diversion certificates.* After the committee announces a raisin diversion program, any producer may divert grapes of the producer's own production and receive from the committee a diversion certificate in accordance with the applicable rules and regulations. Such certificates may only be submitted by producers to handlers in accordance with applicable rules and regulations. Diversion certificates issued by the committee shall apply to a specific production unit and shall be equal to the creditable fruit weight, not to exceed the production cap established pursuant to paragraph (a) of this section, of such raisins produced on such unit during the prior

crop year or the last prior crop year eligible for such diversion: *Provided*, That in the case of a production unit, or partial production unit, removed from production through vine removal or other means established by the committee, the committee may issue a diversion certificate in an amount greater than the creditable fruit weight of the raisins produced therein or the production cap applicable.

(d) *Redemption of diversion certificates.* Handlers may redeem diversion certificates for reserve pool raisins. To redeem a certificate, a handler must present the diversion certificate to the Committee and pay the Committee an amount equal to the harvest cost it has established, plus an amount equal to the payment for receiving, storing, fumigating, handling, and inspecting reserve tonnage raisins specified in §989.401 for the entire tonnage represented on the certificate. Upon receipt of the diversion certificate, the Committee shall note on the certificate that it is cancelled.

(e) *Implementation of the program.* The Committee shall establish, with the approval of the Secretary, such rules and regulations as may be necessary for the implementation and operation of a raisin diversion program.

[50 FR 1831, Jan. 14, 1985, as amended at 50 FR 40477, Oct. 4, 1985; 54 FR 34137, Aug. 18, 1989]

GRADE AND CONDITION STANDARDS

§ 989.58 Natural condition raisins.

(a) *Regulation.* No handler shall acquire or receive natural condition raisins which fail to meet such minimum grade and condition standards as the committee may establish, with the approval of the Secretary, in applicable rules and regulations: *Provided*, That a handler may receive raisins for inspection, may receive off-grade raisins for reconditioning and may receive or acquire off-grade raisins for use in eligible non-normal outlets: *And provided further*, That a handler may acquire natural condition raisins which exceed the tolerance established for maturity under a weight dockage system established pursuant to rules and regulations recommended by the committee
