

(2) Laboratory analytical information including methods used, calibration, detection limits, and the laboratory's internal QA/QC procedures;

(3) Quality assurance audits used to determine the effectiveness of the QA program; and

(4) Procedures and deliverables for data validation used to assess data precision and accuracy, the representative nature of the samples drawn, comparability, and completeness of measure parameters.

(c) A VSSP is a working document used during the sampling events required under this section and must, at a minimum, include:

(1) Vessel name;

(2) Passenger and crew capacity of the vessel;

(3) Daily water use of the vessel;

(4) Holding tank capacities for treated sewage and graywater;

(5) Vessel schematic of discharge ports and corresponding sampling ports;

(6) Description of discharges; and

(7) A table documenting the type of discharge, type of sample drawn (grab or composite), parameters to test for (conventional or priority pollutants), vessel location when sample drawn, date and time of the sampling event.

(d) Test results for conventional pollutants shall be submitted within 15 calendar days of the date the sample was collected, and for priority pollutants within 30 calendar days of the date the sample was collected, to the COTP directly by the laboratory conducting the testing and in accordance with the Coast Guard accepted QA/QCP.

(e) Samples collected for analysis under this subpart shall be held by the laboratory contracted to do the analysis for not less than six months, or as directed by the COTP.

(f) Reports required under this section may be written or electronic. If electronic, the reports must be in a format readable by Coast Guard and Alaska Department of Environmental Conservation data systems.

**§ 159.319 Fecal coliform and total suspended solids standards.**

(a) *Treated sewage effluent discharges.* Until such time as the Administrator

promulgates effluent discharge standards for treated sewage, treated sewage effluent discharges in the applicable waters of Alaska shall not have a fecal coliform bacterial count of greater than 200 per 100 ml nor total suspended solids greater than 150 mg/l.

(b) *Graywater effluent discharges.* [Reserved]

**§ 159.321 Enforcement.**

(a) *Administrative Penalties*—(1) *Violations.* Any person who violates this subpart may be assessed a class I or class II civil penalty by the Secretary or his delegatee.

(2) *Classes of penalties.* (i) *Class I.* The amount of a class I civil penalty under this section may not exceed \$10,000 per violation, except that the maximum amount of any class I civil penalty under this section shall not exceed \$25,000. Before assessing a civil penalty under this subparagraph, the Secretary or his delegatee shall give to the person to be assessed such penalty written notice of the Secretary's proposal to assess the penalty and the opportunity to request, within 30 days of the date the notice is received by such person, a hearing on the proposed penalty. Such hearing shall not be subject to 5 U.S.C. 554 or 556, but shall provide a reasonable opportunity to be heard and to present evidence.

(ii) *Class II.* The amount of a class II civil penalty under this section may not exceed \$10,000 per day for each day during which the violation continues, except that the maximum amount of any class II civil penalty under this section shall not exceed \$125,000. Except as otherwise provided in paragraph (a) of this section, a class II civil penalty shall be assessed and collected in the same manner, and subject to the same provisions as in the case of civil penalties assessed and collected after notice and an opportunity for hearing on the record in accordance with 5 U.S.C. 554. Proceedings to assess a class II administrative civil penalty under this section will be governed by 33 CFR Part 20.

(3) *Rights of interested persons.* (i) *Public notice.* Before issuing an order assessing a class II civil penalty under this paragraph, the Secretary shall provide public notice of and reasonable

opportunity to comment on the proposed issuance of each order.

(ii) *Presentation of evidence.* Any person who comments on a proposed assessment of a class II civil penalty under this section shall be given notice of any hearing held under paragraph (a) of this section, and of the order assessing such penalty. In any hearing held under paragraph (a)(3) of this section, such person shall have a reasonable opportunity to be heard and present evidence.

(iii) *Rights of interested persons to a hearing.* If no hearing is held under paragraph (a)(2) of this section before issuance of an order assessing a class II civil penalty under this section, any person who commented on the proposed assessment may petition, within 30 days after the issuance of such an order, the Secretary or his delegatee to set aside such order and provide a hearing on the penalty. If the evidence presented by the petitioner in support of the petition is material and was not considered in the issuance of the order, the Secretary, or his delegatee, shall immediately set aside such order and provide a hearing in accordance with paragraph (a)(2)(ii) of this section. If the Secretary or his delegatee denies a hearing under this clause, the Secretary or his delegatee shall provide to the petitioner and publish in the FEDERAL REGISTER notice of and the reasons for such denial.

(b) *Civil judicial penalties—(1) Generally.* Any person who violates this subpart shall be subject to a civil penalty not to exceed \$25,000 per day for each violation. Each day a violation continues constitutes a separate violation.

(2) *Limitation.* A person is not liable for a civil judicial penalty under this paragraph for a violation if the person has been assessed a civil administrative penalty under paragraph (a) of this section for the violation.

(c) *Determination of amount.* In determining the amount of a civil penalty under paragraphs (a) or (b) of this section, the court or the Secretary or his delegatee shall consider the seriousness of the violation, any history of such violations, any good-faith efforts to comply with applicable requirements, the economic impact of the pen-

alty on the violator, and other such matters as justice may require.

(d) *Criminal penalties—(1) Negligent violations.* Any person who negligently violates this subpart commits a Class A misdemeanor.

(2) *Knowing violations.* Any person who knowingly violates this subpart commits a Class D felony.

(3) *False statements.* Any person who knowingly makes any false statement, representation, or certification in any record, report or other document filed or required to be maintained under this subpart, or who falsifies, tampers with, or knowingly renders inaccurate any testing or monitoring device or method required to be maintained under this subpart commits a Class D felony.

(e) *Awards.* (1) The Secretary or his delegatee or the court, when assessing any fines or civil penalties, as the case may be, may pay from any fines or civil penalties collected under this section an amount not to exceed one-half of the penalty or fine collected to any individual who furnished information which leads to the payment of the penalty or fine. If several individuals provide such information, the amount shall be divided equitably among such individuals. No officer or employee of the United States, the State of Alaska or any Federally recognized Tribe who furnishes information or renders service in the performance of his or her official duties shall be eligible for payment under this paragraph.

(2) The Secretary, his delegatee, or a court, when assessing any fines or civil penalties, as the case may be, may pay, from any fines or civil penalties collected under this section, to the State of Alaska or any Federally recognized Tribe providing information or investigative assistance which leads to payment of the penalty or fine, an amount which reflects the level of information or investigative assistance provided. Should the State of Alaska or a Federally recognized Tribe and an individual under paragraph (e)(1) of this section be eligible for an award, the Secretary, his delegatee, or the court, as the case may be, shall divide the amount equitably.

(f) *Liability in rem.* A cruise vessel operated in violation of this subpart is liable in rem for any fine imposed

**Coast Guard, DHS**

**§ 159.321**

under paragraph (c) of this section or for any civil penalty imposed under paragraphs (a) or (b) of this section, and may be proceeded against in the

United States district court of any district in which the cruise vessel may be found.

| Chemical additives .....                                                                                                                                    | 157.31              |
| From tank barges exempted from certain discharge requirements.....                                                                                          | 157.28              |
| Of oily mixtures from oil cargoes.....                                                                                                                      | 157.37              |
| Of clean and segregated ballast: Seagoing tank vessels of 150 gross<br>tons or more .....                                                                   | 157.43              |
| Seagoing tank vessels of 150 gross tons or more.....                                                                                                        | 157.29              |
| Tank vessels carrying oil exclusively on rivers, lakes, bays, sounds,<br>and the Great Lakes, and seagoing tank vessels of less than 150<br>gross tons..... | 157.27              |
| Double hulls on tank vessels .....                                                                                                                          | 157.10d             |
| Oily residue tank.....                                                                                                                                      | 157.17              |
| Pumping, piping, and discharge arrangements .....                                                                                                           | 157.11              |
| Segregated Ballast Tanks                                                                                                                                    |                     |
| Crude oil washing systems for certain new vessels.....                                                                                                      | 157.10              |

## Subchapter O Index

|                                                                                                                                 |         |
|---------------------------------------------------------------------------------------------------------------------------------|---------|
| Crude oil washing systems, and dedicated clean ballast tanks for certain new and existing vessels of 40,000 DWT or more .....   | 157.10a |
| Crude oil washing systems, and dedicated clean ballast Tanks for certain new and existing vessels of 20,000 to 40,000 DWT ..... | 157.10c |
| Dedicated clean ballast tanks, and special ballast arrangements for tank vessels transporting Outer Continental Shelf oil ..... | 157.10b |
| Slop tanks in tank vessels .....                                                                                                | 157.15  |
| Submission of calculations, plans, and specifications .....                                                                     | 157.24  |

## E

|                                                                                                                                                                                               |                     |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------|
| Equipment .....                                                                                                                                                                               | Part 155, Subpart B |
| Bilge slops discharges on oceangoing ships of 400 gross tons and above, but less than 10,000 gross tons, excluding ships that carry ballast water in their fuel oil tanks .....               | 155.360             |
| Bilge Slops/Fuel Oil Tank Ballast Water Discharges                                                                                                                                            |                     |
| On oceangoing ships of less than 400 gross tons .....                                                                                                                                         | 155.350             |
| On oceangoing ships of 10,000 gross tons and above and oceangoing ships of 400 gross tons and above that carry ballast water in their fuel oil tanks .....                                    | 155.370             |
| On U.S. non-oceangoing ships .....                                                                                                                                                            | 155.330             |
| Containment of Oil and Hazardous Material Cargo Discharges .....                                                                                                                              | 155.310             |
| Damage Stability Information for:                                                                                                                                                             |                     |
| Inland oil barges .....                                                                                                                                                                       | 155.245             |
| Oil tankers and offshore oil barges .....                                                                                                                                                     | 155.240             |
| Definitions .....                                                                                                                                                                             | 155.200             |
| Discharge Removal Equipment for Vessels:                                                                                                                                                      |                     |
| Less than 400 feet in length .....                                                                                                                                                            | 155.210             |
| 400 feet or greater in length .....                                                                                                                                                           | 155.205             |
| Carrying oil as secondary cargo .....                                                                                                                                                         | 155.220             |
| Inland oil barges .....                                                                                                                                                                       | 155.215             |
| Emergency Towing Capability for:                                                                                                                                                              |                     |
| Oil barges .....                                                                                                                                                                              | 155.230             |
| Oil tankers .....                                                                                                                                                                             | 155.235             |
| Fuel Oil and Bulk Lubricating Oil Discharge Containment .....                                                                                                                                 | 155.320             |
| Internal Cargo Transfer Capability .....                                                                                                                                                      | 155.225             |
| Oily-water Separating Equipment, Bilge Alarm, and Bilge Monitor Approval Standards .....                                                                                                      | 155.380             |
| Overfill Devices .....                                                                                                                                                                        | 155.480             |
| Placard .....                                                                                                                                                                                 | 155.450             |
| Platform Machinery Space Drainage on Oceangoing Fixed and Floating Drilling Rigs and other Platforms .....                                                                                    | 155.400             |
| Prohibited Spaces .....                                                                                                                                                                       | 155.470             |
| Pumping, Piping, and Discharge Requirements for:                                                                                                                                              |                     |
| Ocean-going ships of 100 gross tons and above, but Less than 400 gross tons .....                                                                                                             | 155.420             |
| U.S. non-oceangoing ships of 100 gross tons and above .....                                                                                                                                   | 155.410             |
| Segregation of Fuel Oil and Water Ballast on New Ocean-going Ships of 4,000 Gross Tons and above, other than Oil Tankers, and on New Oceangoing Oil Tankers of 150 Gross Tons and above ..... | 155.440             |
| Standard Discharge Connections for Oceangoing Ships of 400 Gross Tons and above .....                                                                                                         | 155.430             |
| Equipment Requirements .....                                                                                                                                                                  | Part 154, Subpart C |
| Closure devices .....                                                                                                                                                                         | 154.520             |
| Communications .....                                                                                                                                                                          | 154.560             |

**33 CFR Ch. I (7-1-08 Edition)**

Response plan development and evaluation criteria ..... 154.1135  
TAPAA facility contracting with a vessel ..... 154.1140

**V**

Vapor Control Systems  
Applicability ..... 154.800  
Application for acceptance as a certifying entity ..... 154.806  
Definitions ..... 154.802  
Detonation arresters, flame arresters, and flame screens ..... 154.822  
Fire, explosion, and detonation protection ..... 154.820  
Inerting, enriching, and diluting systems ..... 154.824  
Operational requirements ..... 154.850  
Personnel training ..... 154.840  
Review, certification, and initial inspection ..... 154.804  
Vapor compressors and blowers ..... 154.826  
Vapor control system, general ..... 154.808  
Vapor line connections ..... 154.810  
Vapor recovery and vapor destruction units ..... 154.828  
Vessel liquid overfill protection, facility requirements ..... 154.812  
Vessel vapor over pressure and vacuum protection ..... 154.814  
Vessels carrying oil, noxious liquid substances, garbage, municipal or  
commercial waste, and ballast water ..... Part 151  
Vessel Operation  
Applicability ..... 157.25  
Ballast added to cargo tanks ..... 157.35  
Discharges of/from  
Of oily mixtures from oil cargoes ..... 157.37  
Chemical additives ..... 157.31  
Seagoing tank vessels of 150 gross tons or more ..... 157.29  
Tank vessels carrying oil exclusively on rivers, lakes, bays, sounds,  
and the Great Lakes, and seagoing tank vessels of less than 150  
gross tons ..... 157.27  
Tank barges exempted from certain design requirements ..... 157.28  
Of clean and segregated ballast: Seagoing tank vessels of 150 gross  
tons or more ..... 157.43  
Emergencies ..... 157.41  
Information for master ..... 157.47  
Instruction manual ..... 157.49  
Machinery space bilges ..... 157.39  
Operation of a tank vessel in violation of regulations ..... 157.26  
Valves in cargo or ballast piping system ..... 157.45
