(b) *Regulations.* Vessels less than 150 meters entering and transiting through the regulated navigation area shall proceed at a slow speed. Nothing in this section alleviates vessels or operators from complying with all state and local laws in the area including manatee slow speed zones. Nor should anything in this section be construed as conflicting with the requirement to operate at safe speed under the Inland Navigation Rules, 33 U.S.C. 2001 *et seq.*

(c) *Definition.* As used in this section, *slow speed* means the speed at which a vessel proceeds when it is fully off plane, completely settled in the water and not creating excessive wake. Due to the different speeds at which vessels of different sizes and configurations may travel while in compliance with this definition, no specific speed is assigned to slow speed. A vessel is not proceeding at slow speed if it is:

- (1) On a plane;
- (2) In the process of coming up on or coming off of plane; or
- (3) Creating an excessive wake.
