

§ 385.4

State, and Corps of Engineers established standards and criteria, regulations, laws, codes, principles, and professional procedures that are necessary to ensure a quality product. Technical review also confirms the constructability and effectiveness of the product and the use of clearly justified and valid assumptions and methodologies.

Technical Review Team means the team established by the Corps of Engineers and the non-Federal sponsor to ensure quality control of documents and products produced by the Project Delivery Team through periodic technical reviews of the technical aspects of projects.

Water budget means an account of all water inflows, outflows, and changes in storage over a period of time.

Water dedicated and managed for the natural system means the water to be reserved or allocated for the natural system under State law as identified in a Project Implementation Report.

Water made available means the water expected to be generated pursuant to the implementation of a project of the Plan in accordance with the Project Implementation Report for that project.

Without CERP condition means the conditions predicted (forecast) in the South Florida ecosystem without implementation of any of the projects of the Plan.

WRDA 1996 means the Water Resources Development Act of 1996, Public Law 104-303, which was enacted on October 12, 1996.

WRDA 2000 means the Water Resources Development Act of 2000, Public Law 106-541, which was enacted on December 11, 2000.

§ 385.4 Limitation on applicability of programmatic regulations.

In accordance with section 601(h)(3)(c)(ii) of WRDA 2000, this part expressly prohibits “the requirement for concurrence by the Secretary of the Interior or the Governor on Project Implementation Reports, Project Cooperation Agreements, Operating Manuals for individual projects undertaken in the Plan, and any other documents relating to the development, implementation, and management of indi-

33 CFR Ch. II (7-1-07 Edition)

vidual features of the Plan, unless such concurrence is provided for in other Federal or State laws.”

§ 385.5 Guidance memoranda.

(a) *General.* (1) Technical guidance for internal management of Corps of Engineers personnel during Plan implementation will be normally issued in the form of Engineer Regulations, Circulars, Manuals, or Pamphlets, or other appropriate form of guidance.

(2) Guidance on the following six program-wide subjects shall be promulgated in accordance with paragraphs (b) and (c) of this section:

(i) General format and content of Project Implementation Reports (§ 385.26(a));

(ii) Instructions for formulation and evaluation of alternatives developed for Project Implementation Reports, their cost effectiveness and impacts (§ 385.26(b));

(iii) General content of operating manuals (§ 385.28(a));

(iv) General directions for the conduct of the assessment activities of RECOVER (§ 385.31(b));

(v) Instructions relevant to Project Implementation Reports for identifying the appropriate quantity, timing, and distribution of water to be dedicated and managed for the natural system (§ 385.35(b)); and

(vi) Instructions relevant to Project Implementation Reports for identifying if an elimination or transfer of existing legal sources of water will occur as a result of implementation of the Plan (§ 385.36(b)).

(b) *Special processes for development of six program-wide guidance memoranda.* The Corps of Engineers and the South Florida Water Management District shall, in consultation with the Department of the Interior, the Environmental Protection Agency, the Department of Commerce, the Miccosukee Tribe of Indians of Florida, the Seminole Tribe of Florida, the Florida Department of Environmental Protection, and other Federal, State, and local agencies, develop the six guidance memoranda described in paragraph (a) of this section for approval by the Secretary of the Army. The Corps of Engineers and the South Florida Water Management District shall also consult
