

**§ 682.303**

**34 CFR Ch. VI (7-1-08 Edition)**

**§ 682.303 [Reserved]**

**§ 682.304 Methods for computing interest benefits and special allowance.**

(a) *General.* The Secretary pays a lender interest benefits and special allowance on eligible loans on a quarterly basis. These calendar quarters end on March 31, June 30, September 30, and December 31 of each year. A lender may use either the average daily balance method or the actual accrual method to determine the amount of interest benefits payable on a lender's loans. A lender shall use the average daily balance method to determine the balance on which the Secretary computes the amount of special allowance payable on its loans.

(b) *Average daily balance method for interest benefits.* (1) Under this method, the lender adds the unpaid principal balance outstanding on all loans qualifying for interest benefits at each actual interest rate for each day of the quarter, divides the sum by the number of days in the quarter, and rounds the result to the nearest whole dollar. The resulting figure is the average daily balance for qualified loans outstanding at each actual interest rate.

(2) The Secretary computes the interest benefits due on all qualified loans at each actual interest rate by multiplying the average daily balance thereof by the actual interest rate, multiplying this result by the number of days in the quarter, and then dividing this result by the actual number of days in the year.

(c) *Actual accrual method for interest benefits.* (1) Under this method, the lender computes the total unpaid principal balance outstanding on all qualified loans at each actual interest rate on each day of the quarter, multiplies this result by the actual interest rate, and divides this result by the actual number of days in the year, or, alternatively, 365.25 days. A lender who chooses to divide by 365.25 days must do so for four consecutive years.

(2) The interest benefits due for a quarter equal the sum of the daily interest benefits due, computed under paragraph (c)(1) of this section, for each day of the quarter.

(d) *Average daily balance method for special allowance.* (1) To compute the

average daily balance outstanding for purposes of special allowance, the lender adds the unpaid principal balance outstanding on all qualified loans at each applicable interest rate for each day of the quarter, divides this sum by the number of days in the quarter, and rounds the result to the nearest whole dollar. The resulting figure is the average daily balance for the quarter for qualifying loans at each applicable interest rate.

(2) The Secretary computes the special allowance payable to a lender based upon the average daily balance computed by the lender under paragraph (d)(1) of this section.

(Authority: 20 U.S.C. 1082, 1087-1)

**§ 682.305 Procedures for payment of interest benefits and special allowance and collection of origination and loan fees.**

(a) *General.* (1) If a lender owes origination fees or loan fees under paragraph (a) of this section, it must submit quarterly reports to the Secretary on a form provided or prescribed by the Secretary, even if the lender is not owed, or does not wish to receive, interest benefits or special allowance from the Secretary.

(2) The lender shall report, on the quarterly report required by paragraph (a)(1) of this section, the amount of origination fees it was authorized to collect and the amount of those fees refunded to borrowers during the quarter covered by the report.

(3)(i)(A) The Secretary reduces the amount of interest benefits and special allowance payable to the lender by—

(1) The amount of origination fees the lender was authorized to collect during the quarter under § 682.202(c), whether or not the lender actually collected that amount; and

(2) The amount of lender fees payable under paragraph (a)(3)(ii) of this section; and

(3) The amount of excess interest, as calculated in accordance with paragraph (d) of this section.

(B) The Secretary increases the amount of interest benefits and special allowance payable to the lender by the amount of origination fees refunded to borrowers during the quarter under § 682.202(c).
