

tons per day for volatile organic compounds and 7.73 tons per day for oxides of nitrogen.

(ii) Approval—On November 15, 2006, Indiana submitted a request to redesignate the Indiana portion of the Louisville 8-hour ozone nonattainment area (Clark and Floyd Counties) to attainment of the 8-hour ozone National Ambient Air Quality Standard. As part of the redesignation request, the State submitted a maintenance plan as required by section 175A of the Clean Air Act. Elements of the section 175 maintenance plan include a contingency plan and an obligation to submit a subsequent maintenance plan revision in eight years as required by the Clean Air Act. Also included were motor vehicle emission budgets to determine transportation conformity for the entire Louisville area. The 2003 and 2020 motor vehicle emission budgets are 40.97 tons per day for VOC and 95.51 tons per day for NO_x, and 22.92 tons per day for VOC and 29.46 tons per day for NO_x, respectively.

(jj) Approval—On March 26, 2007, Indiana submitted a request to redesignate Boone, Hamilton, Hancock, Hendricks, Johnson, Madison, Marion, Morgan, and Shelby Counties (the Central Indiana Area) (Indianapolis ozone nonattainment area) to attainment of the 8-hour ozone National Ambient Air Quality Standard. As part of the redesi-

gnation request, the State submitted an ozone maintenance plan as required by section 175A of the Clean Air Act. Part of the section 175A maintenance plan includes a contingency plan. The ozone maintenance plan establishes 2006 motor vehicle emission budgets for the Central Indiana Area of 54.32 tons per day for volatile organic compounds (VOC) and 106.19 tons per day for nitrogen oxides (NO_x) and 2020 motor vehicle emission budgets for the Central Indiana Area of 29.52 tons per day for VOC and 35.69 tons per day for NO_x.

EDITORIAL NOTE: For FEDERAL REGISTER citations affecting § 52.777, see the List of Sections Affected, which appears in the Finding Aids section of the printed volume and on GPO Access.

§ 52.778 Compliance schedules.

(a) The requirements of § 51.262(a) of this chapter are not met since the compliance schedules for sources of nitrogen oxides extend over a period of more than 18 months and periodic increments of progress are not included.

(b)–(c) [Reserved]

(d) The compliance schedule for the source identified below is disapproved as not meeting the requirements of subpart N of this chapter. All regulations cited are air pollution control regulations of the State, unless otherwise noted.

| Source | Location | Regulation involved | Date schedule adopted |
|--|---------------|---------------------|-----------------------|
| LAKE COUNTY | | | |
| Commonwealth Edison Co. of Indiana, Inc. (State Line Station). | Hammond | APC 13 | Jan. 18, 1973. |

[38 FR 12698 May 14, 1973, as amended at 39 FR 28158, Aug. 5, 1974; 51 FR 40675, 40676, 40677, Nov. 7, 1986; 54 FR 25258, June 14, 1989]

§ 52.779 [Reserved]

§ 52.780 Review of new sources and modifications.

(a) The requirements of § 51.160(a) of this chapter are not met in that the plan does not contain procedures to enable the State to determine whether construction or modification of coal burning equipment having a heat input of between 350,000 Btu per hour and

1,500,000 Btu per hour will result in violations of applicable portions of the control strategy and section 4(a)(2)(iii) of APC-19 is disapproved to the extent that it exempts coal burning equipment having a heat input of between 350,000 Btu per hour and 1,500,000 Btu per hour from pre-construction/modification review.

(b)–(c) [Reserved]
