

educational, aesthetic, cultural, recreational, economic, or scientific benefits by the public;

(b) Provide for inventory(ies) of the identified species (plan species) to determine:

(1) Their population size, distribution, and range; and

(2) The extent, condition, and location of their significant habitats.

(c) Identify the significant problems which may adversely affect the plan species;

(d) Determine actions which should be taken to conserve the plan species and their significant habitats. Actions proposed will seek to optimize population levels, population distributions, and human benefits while taking fully into account the effects on non-target species and user groups. The actions will utilize methods and procedures which will, to the maximum extent practicable, ensure the well-being and enhancement of the plan species;

(e) Establish priorities for implementing the actions proposed in (d);

(f) Provide for regular monitoring of the plan species and the effectiveness of the actions implemented;

(g) Provide for the review of the plan and revision, if appropriate, at intervals of not more than 3 years;

(h) Describe procedures by which inputs have been solicited from the public during plan development and by which inputs will be solicited during revision and implementation of the plan;

(i) Indicate State and Federal agencies which were consulted during plan development and which will be consulted during plan implementation. If plan implementation will entail substantive cooperation with other agencies, an agreement describing the intended cooperation and signed by the involved parties must be executed before funding is authorized.

#### § 83.10 Cost sharing.

Federal and State participation in the costs incurred in completion of approved work funded by this Act shall be limited as follows:

(a) The Federal share may not exceed:

(1) Ninety percent of the costs for development of conservation plans, ex-

cept after September 30, 1984, the Federal share may not exceed 75 percent of the cost for development of conservation plans, and after September 30, 1991, no reimbursement may be paid under this Act for development of a conservation plan;

(2) Seventy-five percent of the costs for implementing and revising an approved conservation plan, except the Federal share may be increased to 90 percent if two or more States have mutually agreed to cooperate in implementation projects, provided, however, that after September 30, 1991, the Federal share may not exceed 50 percent if the conservation plan covers only nongame species;

(3) Seventy-five percent of the costs incurred prior to October 1, 1986, for projects which are not covered by an approved conservation plan, except the Federal share may be increased to 90 percent if two or more States have mutually agreed to cooperate in projects.

(b) The State share of project costs:

(1) May be in the form of cash or in-kind contributions, subject to the limitations described in § 83.5 and the following conditions:

(i) The allowability and valuation of in-kind contributions shall be in accordance with the provisions of OMB Circular A-102 and the policies and standards as described in the Federal Aid Manual.

(ii) Volunteers proposed by the State to provide personal services to be claimed as in-kind contributions must possess qualifications appropriate to the service to be performed. The State must attest to such qualifications of all such volunteers based on the volunteers' training, experience or employment status, or upon an endorsement provided by a recognized institution, agency, or professional society.

(2) May not be derived from other Federal funds.

#### § 83.11 Cooperation between States.

Whenever two or more States propose to cooperate in the revision of a conservation plan or in a conservation action which will result in a higher rate of Federal costsharing, such States shall describe in documentation the plan or action to be jointly undertaken. The proposed cooperation shall:

**§ 83.12**

(a) Require each cooperating State to accept and carry out a substantial share of the described undertaking;

(b) Enhance the effectiveness of or reduce the total cost in accomplishing the project purpose;

(c) Be supported by a memorandum of understanding executed by the cooperating States.

**§ 83.12 Project requirements.**

Each project proposed for funding under the Act shall be substantial in character and design and shall be in conformance with the policies and standards contained in the Federal Aid Manual.

(a) A substantial project for plan development or plan maintenance is one which:

(1) Provides defined objectives related to completion or revision of the plan, with schedules for completion;

(2) Utilizes accepted planning techniques and appropriate procedures;

(3) Provides for public involvement;

(4) Accomplishes its purpose at a reasonable cost;

(5) Provides assurance that, upon completion of the plan, the State intends to be guided by the conservation plan being developed or maintained.

(b) A substantial project for implementation of approved conservation plans is one which:

(1) Identifies specific conservation actions contained in the plan;

(2) Identifies the objectives to be accomplished related to the needs described in the plan;

(3) Utilizes accepted conservation and management principles, sound design, and appropriate procedures.

(c) A substantial project for actions in lieu of an approved conservation plan is one which:

(1) Identifies and describes a need within the purposes of the Act;

(2) Identifies the objectives to be accomplished based on the stated need;

(3) Utilizes accepted conservation and management principles, sound design, and appropriate procedures;

(4) Will yield benefits which are pertinent to the identified need at a level commensurate with project costs.

**50 CFR Ch. I (10-1-08 Edition)**

**§ 83.13 Application of funds provided under the Act.**

(a) Funds provided under this Act shall be applied only to activities or purposes approved by the regional director or contained in a conservation plan approved by the regional director. If otherwise applied, such funds must be replaced by the State to maintain eligibility.

(b) Real property acquired or constructed with Federal Aid funds must continue to serve the purpose for which acquired or constructed:

(1) When such property passes from management control of the designated State agency, either the control must be fully restored to the designated State agency or the real property must be replaced using non-Federal Aid funds. Replacement property must be of equal value at current market prices and with equal or commensurate nongame fish and wildlife benefits as the original property. The State may be granted up to 3 years from the date of notification by the regional director, to acquire replacement property before becoming ineligible.

(2) When such property is used for purposes which interfere with the accomplishment of approved purposes, the violating activities must cease and any adverse effects resulting must be remedied.

(3) When such property is no longer needed or useful for its original purpose, and with prior approval of the regional director, the property shall be used or disposed of as provided in Attachment N of OMB Circular A-102.

(c) Federal Aid funds shall not be used for the purpose of producing income. However, income producing activities incidental to accomplishment of approved purposes are allowable. Income derived from such activities shall be accounted for in the project records and its disposition shall be in accordance with Attachment E of OMB Circular A-102.

**§ 83.14 Allowable costs.**

Allowable costs are limited to those which are necessary and reasonable for accomplishment of the approved project or action and are in accordance with the cost principles of OMB Circular A-87.
